Remarks by the Hon'ble the Agent to the Governor General, Rajputana and Chief Commissioner, Ajmer-Merwara.

The year under report has been marked by a deficiency of rainfall and an abnormally high death-rate owing to an outbreak of influenza of a very virulent type. On the other hand there was a marked decrease in the mortality from plague, there being 16,268 deaths in the whole of Rajputana, including Ajmer-Merwara, against 98,192 deaths in the preceding year.

As regards Sanitation, the condition of Ajmer City is still indifferent and the interior portion of the town is in urgent need of improvement. This question continues to engage the attention of the authorities but owing to the congested nature of the town it is a very difficult one to deal with.

Vaccination did not show any satisfactory progress during the year owing largely to the influenza epidemic. The charge of the post of Chief Medical Officer in Rajputana has been assumed by Colonel Haig, to whom and to whose predecessor (Colonel Macwatt) as well to the other medical officers in Rajputana my thanks are due for the energy and ability with which they have carried out their duties in an exceptionally trying year.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1918

AND ON

VACCINATION FOR THE YEAR 1918-19.

Section I.—SANITATION AND VACCINATION.

Meteorology and its Relation to Food Supply.

Rainfall in Ajmer.

1. During the year under report 5·88 inches of rain were registered in Ajmer against 48·30 inches in 1917, the average for the previous six years being 22·01. The rainfall during the Monsoon season from June to September, was only 5·63 inches as compared with 19·83 inches during the Monsoon of 1917, showing a decrease of 14·20 inches. Although it did not provide sufficient water in all the tanks and wells throughout the district, on the whole there was an ample water supply on account of the heavy rainfall in 1917.

Rainfall in Native States.

2. The rainfall recorded in Rajputana was unusually deficient owing to which the Khariff crops were a complete failure and the Rabi crops were also poor; scarcity of fodder prevailed throughout the province. There was no rain in Jaisalmer during the year under report.

Vital Statistics, Births and Deaths.

Births in Ajmer-Merwara.

3. According to Birth returns 13,214 births were registered in 1918, against 18,455 in the previous year, a decrease of 5,241.

4. Of the total births registered 7,185 were males and 6,029 females. The birth rate was 26·35 per mille of population against 36·81 per mille in 1917. The percentage of male to female births was 119·17 as compared with 114·10 in the previous year.

5. The death rate exceeded the birth rate by 88·43 per mille against 66·15 in the previous year.

Deaths in Ajmer-Merwara.

6. The total number of deaths registered in this Division was 57,553 in 1918 against 51,623 in 1917 an increase of 5,930. This increase was due to a severe epidemic of Influenza. The death rate per mille of population was 114·78 as compared with 102·96 in 1917.

7. The mortality among children under five years of age was 19 per cent. of the total deaths against 41 per cent. in the previous year. 47,803 deaths from "Fevers" were reported against 34,300 in 1917 an increase of 13,503, due chiefly to the out-break of Influenza.

Note on Influenza Epidemic.

8. The epidemic of Influenza occurred in October and November affecting the whole of Rajputana.

9. Accurate statistics of the number of deaths in Native States are not available; the mortality was very large.

All the Native States adopted relief measures to deal with the epidemic.

10. In Ajmer-Merwara, the death rate during the epidemic is shown in the accompanying table.

11. The chart shows the daily death rate in Ajmer City during the epidemic.

12. Such preventive measures as were possible were adopted.

13. In Ajmer all schools and colleges were closed.

14. General instructions were issued as to the avoidance of infection, and simple methods of treatment were described.

15. The Municipality opened a camp for patients, and made arrangements for the free distribution of milk and medicines to the sick.

16. The Sewa Samity gave assistance in the treatment of patients and disposal of dead bodies.

17. A travelling dispensary was instituted.

18. Owing to war conditions and the failure of the Monsoon, there was general scarcity and the prices of food and clothing were high.

19. It is probable that owing to the privations so caused, the population was generally in a reduced state of health and specially liable to fall victims of an epidemic.

20. Smallpox was not prevalent in the district during 1918, the reported deaths from it were only 27 against 1,275 in the previous year.

21. The percentage of male to female deaths was 98·43 against 99·77 in 1917.

G-1.—S. T. C.

Deaths registered from different causes in the Districts of Ajmer and Merwara during the months of October and November 1918.

22. The above table shows the total number of Cholera cases and deaths reported in Rajputana during the year 1918.

Ajmer-Merwara.

23. During the year under report Ajmer-Merwara District was free from Cholera with the exception of 2 cases and 1 death in Ajmer City in July and August.

Native States.

24. Only 3 cases with 2 deaths were reported from the Native States of Rajputana, against 89 cases and 60 deaths in 1917, of these 2 cases with 1 death occurred in Jaipur State in March and April and 1 fatal case in Jodhpur City in March.

25. All necessary precautions and preventive measures were adopted.

SANITATION.

Ajmer City Conservancy.

26. The sanitary condition of the city is indifferent. The Municipality does not employ sweepers for cleaning purposes.

27. The sweepers in the city all work under the Birat system and are not under any effective control.

28. They are supposed to convey sewage, foul water, etc., from houses to the Municipal collecting stations, and to clean the roads in their mohallas.

29. The supply of vessels for the removal of sewage, etc., is defective. It has been recommended that the Municipality provide hand carts for the use of the Birat sweepers, and arrangements have been made to supply some, the result will be observed.

30. The Birat system is very defective and until it is abolished, and the sweepers are brought directly under Municipal control, and their work organised and supervised, no improvement can be expected. A conservancy tax to meet the expenses of this organisation will be necessary.

31. The Municipality provides carts to remove the sewage, etc., brought by the Birat sweepers to the collecting stations. These Municipal carts are also the only means for the removal of sullage water from the city.

32. These carts convey their loads up hill to the steam tramway station where their contents are transferred to the tramway trucks and taken out to the trenching ground.

33. Much manual labour is required by this system and as the sweeper class has of recent years diminished in numbers, the supply of labour is deficient.

34. The Municipal carts for removing sewage, foul water, etc., are too few and are in bad repair. Owing to high prices and scarcity of material, renewals and repairs have fallen seriously behind hand. A large sum should be devoted to remedy this.

35. Most of the streets in the city are rough and unpaved, so the wear and tear on the carts is great.

36. The covered drains in the city are very foul and are never emptied.

37. Latrines, both public and private, are generally in bad condition. The use of galvanised iron for latrines receptacles was ordained some time ago, but recently it has been practically impossible to get galvanised iron for renewals.

38. Ajmer is expanding, the growth is taking place to a considerable extent in the low lying area remote from the Conservancy tramway. In most of the low lying area the sanitary condition is very bad, and the expense of a thorough removal of sewage, etc., by carting it up hill to the Tramway would be enormous.

39. The question of conservancy requires review and consideration. I am of opinion that a system of surface drainage must be adopted sooner or later. The land fall is suitable for this, and it would reduce the amount of expensive carting which is now done, and also diminish the manual labour of the sweepers.

40. A slaughter house built on modern lines is needed.

41. Many of the shops in the city, especially meat and halwai shops, use no means to protect their wares from flies and dust. The effect of this on the general health of the city is bad.

Village Sanitation, Ajmer-Merwara.

42. The Commissioner, Ajmer-Merwara, reports that the rules for the improvement of village sanitation were restricted to the villages noted in the margin as last year.

Ajmer Sub-Division.

1. Pushkar.
2. Jaithana.
3. Harmara.
4. Srinagar.
5. Beer.
6. Ramsar.

Kekri Sub-Division.

7. Junian.
8. Mehron.

Merwara Sub-Division.

9. Beawar.
10. Jawaja.
11. Todgarh.
12. Bhim.
13. Barar.

43. The sanitary condition of the villages in all the three Sub-Divisions was better than the last year and the people are beginning to realise the necessity and advantage of sanitation.

44. The interior portion of the Ajmer Town is, however, in urgent need of improvement regarding sanitation, and the attention of the Municipality has been drawn in that direction.

Native States.

45. *Jaipur*—The City Conservancy Tramway continued to work throughout the year.

46. Owing to high mortality due to plague continuing from the previous year and the epidemic of Influenza which visited the Jaipur City in October among the sweeper class the strength of the Conservancy staff was much weakened and in consequence of which the general sanitation suffered to a great extent.

47. Rubbish and city sweepings are burnt in incinerators. The bulk of the foul earth and sweepings were deposited in the Ganda Nallah, only a part having been used up in filling pits in some cultivators, fields.

48. It was proposed to construct a pucca platform 77′+18′ at Depôt No. 4 Chaukri Ghât Gate to facilitate removal of rubbish that was being collected there and the work was taken in hand.

49. Sixty-three latrines were newly constructed and 328 old latrines were repaired.

50. Jaipur has an excellent drinking water-supply obtained from the series of wells in a river bed and pumped through pipes to the city; there is also a good well water supply which is carefully supervised.

51. *Jodhpur.*—For conservancy purposes the steam tramway worked satisfactorily. There was very little rainfall in all parts of Marwar except in a few localities; however, there was a good and sufficient supply of water throughout the year and all tanks and wells in Jodhpur City and in the districts were nearly filled owing to heavy rains in 1917.

52. *Bikaner.*—The sanitation of the city is in the charge of the Municipality of which the Principal Medical officer is a Member and President, Sanitary Sub-Committee.

53. *Kotah.*—In Kotah City various improvements in conservancy appliances were carried out.

54. Wells and baories were cleaned.

55. Houses which had become dangerous or ruinous were either repaired or demolished.

56. *Udaipur.*—The conservancy arrangements are under the supervision of the Police. The sanitation of the city is said not to be satisfactory nor under proper control. The conservancy staff is very inadequate and their ranks have been further depleted by the epidemics of plague and influenza as reported by the Residency Surgeon, Mewar. The wells in Udaipur have not been cleaned for many years. The attention of the Darbar has been drawn to this subject.

57. The sanitary arrangements in Bharatpur City, Alwar City and district and in Jhalrapatan town and Cantonment are looked after by their respective Municipalities and are fairly good.

VACCINATION.

STATEMENT I.

58. In Ajmer-Merwara including Nasirabad, the total number of persons vaccinated fell from 13,694 in 1917-1918 to 12,720 in 1918-1919, the total number of Primary Vaccination from 13,257 to 11,670, and the number of Primary Successful Vaccination from 12,021 to 10,563. This decrease was due chiefly to the severe epidemic of Influenza in October and November 1918, in this Division.

59. The number of vaccinators was 15 with one Native Superintendent, the same as in the previous year. Each vaccinator performed an average of 848 as compared with 913 vaccinations in 1917-1918 and the cost of each successful case was 55 pies against 49 pies in the previous year.

60. 22·56 per thousand of population in Ajmer-Merwara were successfully vaccinated against 24·69 in 1917-1918.

61. The Civil Surgeon, Ajmer, inspected 783 vaccinated children against 98 in 1917-1918, all of whom were found successful.

62. The Superintendent of Vaccination at Nasirabad examined 810 children all of whom were found successful.

63. The Native Superintendent inspected 342 villages against 453 in 1917-1918 and examined 4,184 vaccination operations as compared with 5,025 in the previous year. His work was reduced as he could not make his usual autumn tour in this Division owing to the outbreak of Influenza.

64. Vaccination in Ajmer-Merwara is not satisfactory, many infants remained unvaccinated, the parents concealing or refusing to produce them. The matter is engaging attention with a view to improving the state of affairs.

General operations in Native States.

65. The vaccination returns from the Native States show a considerable decrease under all heads due to the severe epidemic of Influenza throughout Rajputana during the season. The total number of Primary Vaccinations in Native States was 150,923 of which 144,916 were successful as compared with 190,290 Primary and 184,179 successful operations in 1917-1918. Re-vaccination rose from 228 in 1917-1918 to 1,181 in the year under report. No vaccination was done in Jaisalmer during the season owing to the prevalence of Influenza and Famine.

66. There were 161 vaccinators against 163 vaccinators in 1917-1918, 1 less in Kotah and Banswara, respectively.

67. As vaccinations were performed entirely by the Sub-Assistant Surgeons attached to the Agency Hospital, Deoli, no vaccinator was employed in Deoli Cantonment during the season.

68. 13·73 per thousand of the population in the Native States were successfully vaccinated against 17·47 in 1917-1918.

STATEMENT II.

Expenditure on vaccination in Ajmer-Merwara.

69. The total expenditure on vaccination in Ajmer-Merwara was ₹3,240-11-4 against ₹3,181-15-4 in 1917-1918, an increase of ₹58-12-0 due to increased pay.

Expenditure on vaccination in Native States.

70. The total expenditure in Native States was ₹33,808-0-3 as compared with ₹34,919-15-1 in the previous season, the decrease in cost being due chiefly to pay and travelling allowances to vaccination staff. The average cost of each successful vaccination was in different States varied from 21 pies in Kotah to 87 pies in Marwar.

71. The following table shows the number of towns and villages inspected and vaccination seen by Residency or Agency Surgeons in Native States :—

Designation.	Number of towns and villages inspected.	Number of vaccination cases seen.
The Principal Medical Officer, Bikaner State . . .	3	2,165
The Agency Surgeon, Eastern Rajputana States . . .	80	2,131
The Residency Surgeon, Mewar	16	658

72. The State Surgeon, Alwar, inspected 78 villages and saw only 396 vaccinations in Alwar City as he could not go out in the District owing to prevalence of Influenza. The Assistant Surgeon, Kotah, inspected 324 villages and saw 1,602 vaccinated children. 989 vaccination operations were seen by the Assistant Surgeon, Jhalrapatan.

73. The Native Superintendents of Vaccinations and other Inspecting officers in Native States inspected 59,030 vaccinations against 69,388 in 1917-1918. The percentage of inspected cases found successful among the total number seen in 1918-1919 was 98·16 against 98·39 in the previous season.

74. Lymph is maintained throughout the year in most of the States by arm to arm vaccinations. Glycerinated lymph was obtained during the year from the Government Lymph Depôts and was satisfactory.

SECTION II—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

75. On the 1st January 1918, there were 179 hospitals and dispensaries of all classes open ; and on the 31st December 1918, there were 178, *i.e.*, one

less as compared with the previous year. The Railway Dispensary at Marwar Junction in Marwar was closed on 1st February and the Southern Rajputana States Agency Hospital at Neemuch temporarily on 29th June 1918, during the absence of the Political Agency. The Masuda Dispensary in Ajmer District was opened on 5th February 1918. The Government Charitable Dispensary at Abu Road was handed over to the Sirohi State from the 6th May 1918.

76. The dispensaries are classified as under :—

I. State Public	8
II. State Special	12
III. Private Non-aided	158
TOTAL	178

77. Besides these there are now seven Mission Hospitals and Dispensaries as in 1917, and 9 dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana against 8 in the previous year. This represents a gain of one by the opening of a new dispensary at Sewaie Madhopur in 1918.

78. *Jaipur.*—The sum of R1,670 was spent in effecting improvements and additions to the buildings of the Mayo Hospital.

Structural improvements.

79. *Bikaner.*—A complete Bacteriological and Pathological Laboratory has been sanctioned for the Bhagwan Das Hospital, Bikaner—Apparatus has been ordered.

80. Apparatus has also been sanctioned and ordered to bring the X-Ray apparatus up to date and for electrical and vibratory treatment.

81. *Bharatpur.*—The special Eye ward at the Victoria Hospital, Bharatpur, and the new dispensary buildings at Sikri were completed and occupied.

82. *Kotah.*—A Post Mortem Room at Antah is under construction.

83. *Mewar.*—The proposal for building a new dispensary at Choti Sadri with in-door accommodation is still under the consideration of the Darbar.

84. A proposal has also been submitted to the Darbar for building a new dispensary at Hurra.

85. The medical supervision of the Residency Surgeon, Mewar, over the dispensaries in Banswara and Kushalgarh was withdrawn from 1st October 1918.

STATEMENT B.

Attendance at Hospitals.

86. During the year under report the number of patients treated at State Public, State Special and Private Non-aided (*i.e*, Native States) Dispensaries and Hospitals amounted to 1,550,144 against 1,862,753 in 1917, a decrease of 312,609 which is attributable to the continuance of plague from the previous year and prevalence of Influenza in epidemic form throughout Rajputana and Ajmer Merwara District.

87. Of the total number of patients treated 17,370 were in-door and 1,532,774 out-door as compared with 19,343 in-door and 1,843,410 out-door in 1917. The number of deaths rose from 799 in 1917 to 1,051 in 1918 and the ratio of mortality per cent. of total treated rose from 4·13 to 6·05 in 1918.

STATEMENTS C(*i*) AND C(*ii*).

Diseases treated.

88. In Statement C(*i*) the number of deaths under each head of diseases treated in the in-door department is shown ; 17,370 in-patients were treated amongst whom 1,051 died against 19,343 patients and 799 deaths in the

previous year. The difference of 188 patients between columns 8 and 53 of Statements B and C(*i*) respectively is due to 188 out-door Labour cases being included in Statement C(*i*).

89. 130 Normal confinements with 2 deaths and 181 abnormal confinements with 3 deaths were reported from various hospitals, against 146 with no deaths and 155 with 6 deaths respectively in 1917.

90. 1,532,586 out-door patients treated in 1918 are shown in Statement C(*ii*) against 1,843,262 in 1917.

91. The cases treated in the hospitals and dispensaries under each chief disease during the years 1916, 1917 and 1918 are as follows :—

Diseases.	1916.	1917.	1918.
Malarial Fever	251,309	460,599	225,524
Diseases of the eye	279,295	267,410	243,256
Dysentery and Diarrhœa	66,819	60,642	46,304
Ulcers	146,083	152,353	133,202
Skin diseases	187,001	183,883	168,728
Syphilis	15,271	13,604	11,661
Injuries	45,800	43,487	37,952
Tubercle of the Lung	1,598	1,469	1,535
Abscess of the Liver	130	250	157

Scurvy.

92. 551 cases of Scurvy were treated; of these 162 cases in Marwar and 118 in Mewar against 555 in 1917 and 820 in 1916.

Leprosy.

93. 416 lepers received treatment in 1918; of these 165 in Jaipur as compared with 379 in 1917 and 430 in 1916. The Residency Surgeon, Jaipur, reports that 29 lepers were treated with leproline which is much liked by the patients under treatment.

Tubercular Diseases.

94. The Residency Surgeon, Jaipur, writes that the treatment of tubercular diseases by means of tuberculin Bacillary Emulsion (Koch) was continued with satisfactory results.

95. The following table shows the different varieties of this disease treated :—

Tubercle diseases of	bones and joints	63
Do.	glands	66
Do.	lungs	61
Do.	Abscess	18
Do.	Ulcer	24
	TOTAL	232

Plague.

96. During the year from 1st April 1918 to 31st March 1919, 18,972 plague seizures and 16,268 deaths were reported in 667 towns and villages infected in Ajmer-Merwara District and in the Native States in Rajputana as compared with 116,168 plague cases an d 98,192 deaths in 2,101 towns and villages in 1917-1918.

97. The percentage of total plague deaths to population was 2·41 as shown in table attached as compared with 2·26 in the previous year.

98. 3,572 anti-plague inoculations were performed during the year under report at the following places :—

Ajmer City	366
Marwar State	710
Bikaner City	1,758
Bikaner State	546
Udaipur City	163
Mewar State	29
TOTAL	3,572

99. In the Ajmer-Merwara District 307 attacks and 244 deaths were reported in 39 towns and villages against 13,213 cases and 9,670 deaths in 271 towns and villages in 1917-1918; of these 238 seizures with 176 deaths occurred in 23 towns and villages in Ajmer District and 69 cases and 68 deaths in 16 towns and villages in Merwara District.

100. In Ajmer City there were 34 attacks with 18 deaths and in Kekri town 84 cases and 55 deaths in 1918-1919 against 4,910 cases with 3,330 deaths in Ajmer City and 553 cases with 346 deaths in Kekri town respectively in the previous year. It re-appeared in Kekri town in September 1918 and lasted in February 1919.

101. In Beawar town in Merwara district only 4 cases with 2 deaths were reported in April 1918, as compared with 1,025 and 642, respectively in the previous year.

102. Disinfection of infected houses was carried out as necessary in April and May 1918.

103. *Jaipur.*—The disease lingered from the preceding year until 7th June 1918 when it totally subsided.

104. 4,157 attacks with 4,083 deaths were reported in 145 towns and villages including the Jaipur City and Plague Camp in which only two fatal cases occurred in April 1918.

105. *Marwar.*—The epidemic of plague was prevalent in this State from the preceding year and totally subsided by the first week of June 1918, and since then no case or death was reported. 2,693 seizures and 2,461 deaths were reported in 116 towns and villages; of these 238 cases and 237 deaths occurred in Jodhpur City.

106. The Residency Surgeon, Western Rajputana States, reports that on account of the prevalence of plague in Jodhpur City, Nagaur and Bilara Dispensaries remained closed from 31st January to 13th February, and 31st March 1918, respectively. The Sub-Assistant Surgeons in charge of these dispensaries were placed on special plague duty at Jodhpur.

107. *Sirohi.*—Only one fatal case of plague was detected at Abu Road in April 1918, otherwise it was free from the disease throughout the year.

108. *Bikaner.*—Plague persisted from the preceding year and was in existence till the 31st May 1918, and again broke out from 4th to 31st December 1918. 1, 560 seizures and 1,420 deaths were reported in 6 towns and villages during the year under report, the mortality was 1,420; of these 1,006 cases and 886 deaths occurred in Bikaner City, 414 fatal cases in Churu town,

63 cases and 53 deaths in Ratangarh, 60 cases and 56 deaths in Sujangarh, 13 cases and 9 deaths at Kanota village and 2 cases with 1 death in Suratgrah.

109. *Bharatpur.*—The last year's epidemic of plague extended to the first three months of the year, *viz.*, April to June in 140 towns and villages but it re-appeared in the month of January 1919, in village Jodhpur in Pahari Tehsil whence it spread to 4 other villages. It is still in existence. 4,260 cases and 3,383 deaths were reported; of these 36 cases with 23 deaths occurred in Bharatpur City.

110. *Dholpur.*—The total number of cases and deaths reported during 1918-1919 in 4 towns and villages was 27 and 17 against 65 cases and 40 deaths in 5 towns and villages in the previous year. The State became free from the disease in May 1918.

111. *Karauli.*—During the year 266 cases and 252 deaths were reported in 16 towns and villages as compared with 695 cases and 554 deaths in the previous year. The State was quite free from the disease after May 1918.

112. *Alwar.*—The incidence of plague in Alwar State in 1918-1919 was a continuance of the outbreak which started in 1917. 1,829 cases and 1,487 deaths were reported in 34 towns and villages including Alwar City in which 280 cases and 246 deaths occurred in April 1918. Since then the State was free from the disease.

113. *Mewar.*—The disease lingered from the preceding year until the 3rd May 1918, in 93 towns and villages. During this time 145 cases and 128 deaths were reported in Udaipur City and 2,021 cases and 1,652 deaths in the districts.

114. *Shahpura.*—The disease was in existence in Shahpura Chief-ship up to 28th April 1918. 11 seizures and 3 deaths were reported in 4 towns and villages; of these only 4 cases and two deaths occurred in Shahpura town.

115. *Kotah.*—During the year under report 867 attacks and 566 deaths were reported in 45 towns and villages including Kotah City in which 231 cases and 149 deaths occurred till the 8th May 1918.

116. *Jhalawar.*—The total number of cases and deaths reported in 5 towns and villages up to 11th April 1918 was 7 cases and 12 deaths after which the State was free from the disease.

117. *Bundi.*—The Bundi City only continued to be infected from plague up to 7th May 1918, in which 491 seizures and 344 deaths occurred.

118. *Tonk.*—Only 23 cases with 22 deaths were reported in 2 towns and villages in 1918-1919.

119. *Banswara.*—302 attacks and 187 deaths were reported in 14 towns and villages in April 1918 by the Residency Surgeon, Mewar.

120. *Partabgarh.*—Only 4 cases and 3 deaths from plague were reported to have occurred in Partabgarh in April 1918, since then it has become free from the disease.

121. *Kherwara.*—A sepoy of the Mewar Bhil Corps was attacked with plague on the 2nd and discharged cured on the 30th April 1918. This was the last case at Kherwara.

122. All possible and practicable precautions, consisting of evacuation, inoculation, disinfection and segregation were the measures adopted to stamp out the disease.

Snake Bite.

123. Anti-venine is kept in stock in most of the main dispensaries and used for the treatment of snake poisoning when opportunity offers. No special report has been received on the subject.

STATEMENT F.

124. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara and of Native States of Rajputana.

125. The following shows the classes of patients treated in 1917 and 1918:—

Class.	1917.	1918.
European and Eurasians	2,695	2,197
Hindus	1,257,749	1,039,313
Mohammadans	501,997	423,418
Others	100,312	85,216
TOTAL	1,862,753	1,550,144

STATEMENT G.

126. The number of surgical operations performed during the year in Ajmer-Merwara and in Native States was 75,390 against 78,692 in 1917 or a decrease of 3,302. The number of patients operated on was 75,049 against 78,313, the number cured was 73,668 against 77,010, the number relieved 864, discharged otherwise 230, and died 81 as compared with 796,194 and 110 respectively in 1917; while 206 remained under treatment at the end of the year.

127. Of the operations performed 1,237 were Extractions of the lens for Cataract of which 1,060 or 85·69 per cent. were reported successful, 64 Lithotomies, 148 Litholapaxies and 202 Amputations against 1,907, 64,224, and 202 respectively in 1917.

128. 472 abdominal operations were done, of which 32 proved fatal as compared with 604 operations with 28 deaths in the previous year. Of these 323 were paracentesis of Abdomen, with 20 deaths, 19 Abscess of Liver with 1 death, and 16 Laparotomies with 7 deaths.

129. Of the total number of operations performed in Ajmer-Merwara District 1,196 were done at the Ajmer Victoria Hospital with 6 deaths against 1,348 operations with 3 deaths in 1917, a decrease of 152 operations due to plague and influenza which existed in severely epidemic form throughout the district. Of these 72 were Extractions of the lens for cataract, 12 Lithotomies, 10 Litholapaxies, 3 Ovariotomies, 7 Amputations, and 5 radical cure of Hernia.

130. 2,228 operations of all kinds were performed at the Mayo Hospital, Jaipur, with 21 deaths as compared with 3,323 operations with 13 deaths in 1917. Of these 471 were Extractions of the lens for Cataract, 1 Lithotomy, 44 Litholapaxies and 26 Amputations all of which were done by Rai Bahadur Assistant Surgeon Daljang Singh Khanka.

131. 8,158 surgical operations were performed in Bharatpur State institutions against 7,823 in 1917. Of these 245 were Extractions of the lens for Cataract, 9 Lithotomies and 14 Amputations as compared with 380, 7, and 32 respectively in the previous year. No Litholapaxies were done in 1918.

132. 2,070 operations were performed in the Dholpur State institutions against 2,138 in 1917. Of these 249 Lenses were extracted for Cataract all of which were done by Sub-Assistant Surgeon Bijey Narayan in charge Sadar Dispensary at Dholpur. 1 Amputation and 2 Lithotomies were performed.

133. 2,588 operations were performed in the Alexandra Hospital at Alwar against 2,436 in 1917. Of these 190 were Extractions of the lens for Cataract, 7 Lithotomies, and 5 Litholapaxies as compared with 112, 31, and 18 respectively in the previous year.

134. 1,781 operations were performed at Kotah City Hospital in 1918, of these 24 were Extractions of the lens for Cataract, 4 Lithotomies and 21 Amputations.

STATEMENTS H. AND J.

Financial Statements.

135. Statement H shows the income and expenditure of the Government dispensaries and hospitals and only expenditure on those in Native States.

136. The total income of the hospitals and dispensaries in Ajmer-Merwara was R30,610 as compared with R25,538 in 1917, an increase of R5,072 which is due chiefly to the grant of (1) R1,040 by the District Board, Ajmer-Merwara, for additions and alterations to Sub-Assistant Surgeon's quarters at Todgarh, (2) R2,095 on account of interest on the investment of R20,000 on behalf of the Masuda Dispensary which was opened on 5th February 1918, and (3) certain other subscriptions. The subscriptions from Indians rose from R2,892 in 1917 to R3,916.

137. The invested capital of the dispensaries in this Division rose from R8,500 to R28,500 as R20,000 were invested for the maintenance of the Dispensary at Masuda. As the amount of R20,000 was invested in 1916 on behalf of the Masuda Dispensary which was opened on 5th February 1918 as contribution from the Masuda Estate, it has now been shown in column 4 of Statement J.

138. The investment of R6,000 formerly shown in this Statement against Ajmer included R1,500 in favour of Todgarh Dispensary which has now been shown separately under proper heading. It is not a new investment and no deposits were withdrawn.

139. The total expenditure of the Ajmer-Merwara dispensaries rose from R22,929 in 1917 to R28,247 in 1918, an increase of R5,318 under all heads of expenditure except buildings and repairs. This increase in expenditure is attributed to increased cost of drugs, diets and materials owing to the war.

140. *Native States.*—The total expenditure of hospitals and dispensaries in Native States in Rajputana was R5,42,968 against R4,85,648 in 1917, an increase of R57,320 due to large increase of expenditure incurred for medicines, dieting, miscellaneous charges and buildings and repairs owing to the highly enhanced prices of all necessary articles.

141. Of the total expenditure on hospitals and dispensaries in the Native States R1,03,221 were expended in Jaipur, R87,649 in Marwar, R59,622 in Kotah, R52,159 in Bharatpur, R49,850 in Bikaner, R44,728 in Mewar, R39,239 in Alwar, R19,510 in Jhalawar, R13,358 in Tonk, R10,745 in Dholpur, R9,785 in Karauli, R7,078 in Jaisalmer, R6,669 in Sirohi, R6,160 in Dungarpur, R5,570 in Kishangarh, R5,184 in Shahpura, R4,842 in Bundi, R4,461 in Banswara, R4,180 in Partabgarh and R1,264 in Kushalgarh.

142. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 75 pies and 72 pies against 55 pies and 53 pies in 1917.

Mission Hospitals.

143. During the year under report the number of Mission Hospitals in Rajputana was 7, the same as in 1917.

144. The following table shows the total number of in-and out-door patients treated and operations performed in these institutions in 1918 :—

Name of hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer . .	78,768	14,258	93,026	472	1,648	
Ajmer Women Hospital.	9,561	4,776	14,337	674	389	1,920 were visited at their homes.
Nasirabad . .	20,944	8,589	29,533	256	459	1,005 were visited at their homes.
Jaipur . . .	9,096	1,747	10,843	57	406	995 were visited at their homes.
Piploda . . .	11,646	3,302	14,948	...	127	200 were visited at their homes.
Jodhpur . .	20,650	8,216	28,866	39	1,149	294 were visited at their homes.
Udaipur . .	29,733	14,209	43,942	121	1,386	
Total .	180,398	55,097	235,495*	1,619	5,559	

* Medical statistics of these hospitals are for the Mission year from 1st October 1917 to 30th September 1918.

Railway Hospitals.

145. 675 in-and 55,560 out-door patients were treated and 1,372 operations performed during the year in 9 Railway Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana as per detail below: against 8 in the previous year. Sawaie Madhopur Dispensary was opened in 1918.

Station.	Number of patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer	234	25,674	25,908	542	
Phulera . . .	132	5,420	5,552	49	
Bandikui . . .	116	7,061	7,177	133	
Sojat Road . . .	6	2,457	2,463	313	
Abu Road . . .	83	5,682	5,765	157	
Kotah Junction . .	60	2,149	2,209	47	
Gangapur . . .	44	4,964	5,008	77	
Sawaie Madhopur . .	...	2,153	2,153	54	
Total .	675	55,560	56,235	1,372	

Jails.

146. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail rose from 357·43 in 1917 to 359·77 in 1918, the daily average sick rose from 6·52 to 7·86, the mortality from 4 to 14 and the ratio per mille of average strength from 11·19 to 38·91.

147. Thirteen deaths among the convicts and 1 among the under-trials occurred against 3 among the convicts and 1 among the under-trials in the previous year.

148. The increased mortality is due to the prevalence of Plague and Influenza. 4 cases of Plague occurred among the convicts in January 1918 3 of whom died. They were all inoculated against Plague. 32 cases of Influenza occurred out of which 4 proved fatal. The other deaths were due 4 to Pneumonia, 1 to Enteric fever, 1 to Tuberculosis of the Lungs and 1 to Acute Mania in an under-trial admitted to jail suffering from it.

149. The Review by the Commissioner, Ajmer-Merwara, on the strength Classification, health, employment and conduct of prisoners, nature of sentences, Jail manufactures and expenditure of the Jail is given as Appendix A of the Report together with enclosures.

Native States.

150. Although the daily average number of prisoners in the jails in the Native States fell from 3,885·02 in 1917 to 3,808·98 in 1918, the daily average number of sick rose from 81·51 in 1917 to 84·23 in 1918, the mortality from 93 to 322 and the ratio of deaths per mille of average strength from 23·94 to 84·54 due to Influenza.

151. Influenza occurred in the following jails in the Native States in Rajputana, the figures of which are shown against their names :—

	Cases.	Deaths.
Central Jail, Jaipur	23	12
District Jail, Jaipur	5	3
Central Jail, Bikaner	142	35
„ „ Alwar	77	23
„ „ Udaipur	47	25
„ „ Jaisalmer	40	12
„ „ Kotah	96	9
„ „ Banswara	5	5
„ „ Jhalrapatan	42	4
„ „ Bharatpur	12	2
„ „ Sirohi	8	1
„ „ Karauli	1	1

152. *Jaipur.*—At the Central Jail there has been over-crowding throughout the year. The daily average number of prisoners rose from 530·32 in 1917 to 584·61 in 1918, the daily average number of sick from 7·56 to 8·04, the mortality from 13 to 28 and ratio of deaths per mille of average strength from 24·51 to 47·90. 2 cases of plague occurred in this jail both of them proved fatal.

153. In the District Jail the daily average number of prisoners rose from 129·68 in 1917 to 187·53 in 1918, total admission to hospital from 36 to 55, daily average number of sick from 2·40 to 2·73, mortality from 5 to 10 and ratio of deaths per mille of average strength from 38·56 to 53·32.

154. The increase in death rate in both the jails was due to Influenza.

155. *Jodhpur.*—In the Jail there were 21 deaths or 36·55 per thousand of average strength as compared with 7 deaths or 12·12 per thousand of average strength in 1917.

156. *Sirohi.*—In the Jail there were 11 deaths against *Nil* in the previous year the causes of which are given below :—

Plague	2
Influenza	4
Anæmia	2
Injuries	1
All other diseases of the digestive system	1
Phthisis	1

157. *Bikaner.*—Although the number of prisoners in the Jail fell from 257·82 in 1917 to 253·24 in 1918, the total number of cases admitted to hospital rose from 64 in 1917 to 205 in 1918, the daily average sick from 2·55 to 4·54 the mortality from 5 to 42 and the ratio per mille of average strength from 19·39 to 165·85 due to Influenza.

158. *Udaipur.*—There has been over-crowding in the Jail throughout the year. There was an increase in the total number of admission to hospital, daily average number of sick, the total number of death and ratio per mille of average strength as compared with the previous year. The Residency Surgeon, Mewar, reports that the health of prisoners during the year has been bad on account of the epidemic of Influenza.

159. Although plague was raging in the City and Suburb during the early part of the year the Jail remained almost free. Only one case occurred which ended in recovery. This man was previously inoculated as well as all the prisoners and the jail staff.

160. The epidemic of Influenza broke out among the prisoners during the latter part of September. All the prisoners were attacked with the disease which accounted for 25 deaths.

161. There were 40 deaths in 1918 from the following causes, as compared with a total of 4 deaths in 1917:—

Phthisis	2
Maningitis (the result of abscess in the internal ear)	1
Diarrhœa	8
Debility and old age	1
Killed by fall of earth while excavating	1
Enteric Fever	1
Pneumonia	1
Influenza	25

162. There were very few cases of guinea-worm showing a great improvement compared with 1917.

163. One prisoner was released on account of ill-health.

QUALIFIED MEDICAL STAFF.

164. Lieutenant-Colonel P. B. Haig, C.B., I.M.S., Agency Surgeon, Eastern Rajputana States, was appointed on the reversion of Lieutenant-Colonel R. C. MacWatt, C.I.E., I.M.S., to military duty, to officiate as Civil Surgeon, Ajmer, and Chief Medical Officer in Rajputana with effect from 12th June 1918.

165. Major C. B. McConaghy, I.M.S., was posted as Agency Surgeon, Eastern Rajputana States, with effect from 15th June 1918.

166. The following officers of the Indian Medical Service held temporary visiting charge of the Jaipur Residency Surgeoncy and Agency Surgeoncy, Kotah and Jhalawar, from and up to the dates specified against their names in addition to their own duties:—

Lieutenant-Colonel R. C. MacWatt, C.I.E., I.M.S.	1st January to 11th June 1918.
Lieutenant-Colonel P. B. Haig, C.B., I.M.S.	12th June to 30th September 1918.
Major C. B. McConaghy, I.M.S.	1st October to the end of the year.

Medical Practitioner.

167. Mr. N. J. Rodrigues, L.R.C.P. &. S. (Edinburgh) was in temporary charge of the Northern India Salt Revenue Dispensary at Sambhar throughout the year.

Civil Assistant Surgeons.

168. There were five Government Civil Assistant Surgeons, two employed in the Ajmer-Merwara district, one at Jaipur, one at Khetri and one at Bharatpur.

Military Sub-Assistant Surgeons.

169. Eleven Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana as in the previous year. Of these four are on field service in the War.

Civil Sub-Assistant Surgeons.

170. There were 127 Government Sub-Assistant Surgeons on the roll on the 1st January 1918 and two medical pupils passed their final examination at the Agra Medical School in May 1918, total 129. Out of 129 Sub-Assistant Surgeons one was transferred to the United Provinces, 3 retired on pension, 4 died and 2 resigned. Thus at the close of the year 119 Government Sub-Assistant Surgeons remained on the roll including 5 Sub-Assistant Surgeons transferred temporarily to military duty on account of the War.

171. The number of Lady Doctors employed in the Native States in Rajputana was 5 against 4 in the previous year. Lady Doctor G. Collins was employed in the Walter Zenana Hospital at Udaipur on 30th August 1918.

Kotah	1
Jodhpur	1
Bikaner	1
Jaipur	1
Udaipur	1

172. The number of Female Sub-Assistant Surgeons attached to the Female Hospitals is 6 against 7 in 1917. Female Sub-Assistant Surgeon Mrs. L. A. Hakim attached to the Hospital for women at Bharatpur resigned her service on the 21st August 1918.

FEMALE HOSPITALS AND DAI CLASS.

173. *Ajmer.*—Two Lady Doctors have remained attached to the Mission Hospital for women at Ajmer throughout the year. They and their subordinates have done much good work in the hospital and in zenanas. The number of patients treated and the other medical work done is shewn under the Mission Hospitals.

174. *Beawar.*—Female Sub-Assistant Surgeon Miss Q. Houlton has been in charge of the Female ward of the Charitable Dispensary at Beawar throughout the year. There was an increase in both in and out-door attendance as compared with the figures of 1917 due to the fact that the town of Beawar was free from infectious diseases during the greater part of the year.

175. 391 operations were performed against 603 in the previous year; of these 30 were important operations.

176. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a general decrease in both in- and out-door attendance which was due in great measure to the prevalence of plague in first and of Influenza in later part of the year.

177. *Jodhpur.*—Mrs. Stirling, M.B., B.C.H., B.A.O., (Dublin) has been in charge of the Jaswant Hospital for women, Jodhpur, throughout the year. There were 50 in-and 2,411 out-door patients treated as compared with 85 in-and 4,215 out-patients in the previous year due to severe attack of plague and Influenza in 1918.

178. Eight major and 50 minor operations were performed against 85 major and 23 minor operations in 1917.

179. Miss Paul, the Sub-Assistant Surgeon, and other staff discharged their respective duties satisfactorily.

180. *Kotah.*—Miss J. Newton, L.R.C.P. &. S. (Edinburgh) and L.F. P.S. (Glasgow), has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year. There was a considerable decrease both in in-door and out-door attendance as compared with the figures of the previous year, owing to the severe attack of plague and Influenza in the City in 1918.

181. 230 operations were performed against 261 in 1917.

182. Ten midwifery cases were treated in the hospital. 9 midwifery cases were treated by Female Sub-Assistant Surgeon Miss Halen Baldeo Singh and 15 by Hospital Midwife Yamira in the City.

183. *Jaipur.*—Miss L. E. Sykes, M.D. (Brussels) L.R.C.P. &. S. (Edinburgh) and L.F.P.S. (Glasgow), has been in charge of the Female Ward of the Mayo Hospital, Jaipur, throughout the year. 577 in-and 8,735 out-door patients were treated against 698 in-and 10,444 out-door patients in 1917. The decrease is due to severe outbreak of plague in the City.

184. Operations on women were 610 as compared with 734 in the previous year.

185. Female Medical pupil Nangi Bai continues her study at the Agra Medical School in the Female Sub-Assistant Surgeon Class as Jaipur State Medical pupil.

186. *Bikaner.*—Miss J. Marsh, L. R. C. P. &. S. (Edinburgh) L. F. P. S. (Glasgow) and M.D. (Brussels), has been in charge of the Lady Curzon Zenana Hospital, Bikaner, throughout the year with the exception of the time she was away in attendance on Their Highnesses the Maharanis at Gujner and at Abu from February 4th to August 4th when they returned to Bikaner. Assistant Surgeon Miss Dhodi acted for her in her absence who was appointed on January 1st 1918. 62 in-door and 20,759 out-door patients were treated as compared with 79 in-and 15,775 out-patients in 1917.

187. Six major and 200 minor operations were performed against 20 major and 20 minor operations in the previous year.

188. *Udaipur.*—Mrs. G. Collins was appointed on probation for 6 months and placed in charge of Walter Zenana Hospital, Udaipur, on the forenoon of the 30th August 1918. 22 in-and 260 new out-door patients were treated, 6 normal and 1 abnormal cases were treated and 2 major and some minor operations were done. The Lady Doctor writes that during her short service a few of the better class were treated as in-door patients for diseases peculiar to women.

189. In-patients, clothing and bedding have also been ordered for this hospital from the Central Jail, Udaipur.

190. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai has been in sole charge of the Lady Dufferin Hospital, Alwar, throughout the year. 161 in-and 18,283 out-door patients were treated as compared with 336 in-and 20,156 out-patients in 1917. The decrease is attributed to prevalence of plague and Influenza in the greater part of the year.

191. Sixty-one major and 1,010 minor operations were performed; of these 21 were obstetric operations against 100 major and 1,132 minor operations in the previous year.

192. Two qualified Dais have been added to the staff of the hospital during the year.

193. *Bharatpur.*—The work of the Female Hospital at Bharatpur was carried on by Female Sub-Assistant Surgeon L. A. Hakim up to 21st August 1918 when she resigned her service. Since then the work of the hospital is done by Male Sub-Assistant Surgeon Yasin Khan as a temporary measure. There was considerable decrease in the number of both in-and out-door attendance as compared with the figures of 1917.

194. *Tonk.*—Female Sub-Assistant Surgeon Imaman has been in charge of the Walter Zenana Hospital at Tonk throughout the year under the supervision of the State Surgeon, Tonk State. The number of in-and out-door patients was 134 and 6,880 respectively against 182 in-and 8,245 out-door patients in the previous year.

195. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The eight pupils who were mentioned in the last year's Report as being under instruction worked till the end of the session, when they were examined by the Civil Surgeon, Ajmer, on the 23rd April 1918. All of them passed, and were granted certificates and the usual honorarium.

196. Six pupils were admitted into the current year's class, of whom two came from Kishangarh, 1 from Jaipur, 1 from Nasirabad, 1 from Beawar and 1 from Kekri.

197. During the year 20 in-door and 63 out-door Maternity cases were treated. 96 persons sought advice and treatment for diseases incidental to women.

Imperial Service Troops.

198. The hospitals of the Native States Imperial Service Troops are all well equipped. With the exception of those of the two regiments of Imperial Service Lancers at Jodhpur they are under the medical charge of well qualified Military Sub-Assistant Sugeons. Each regiment of the latter is under the medical charge of a State enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been under the medical charge of the Civil Sub-Assistant Surgeon attached to the Lansdowne Hospital.

199. The Alwar Imperial Service Infantry, the Bikaner Camel Corps and the Bharatpur Imperial Service Transport Corps are still on field service accompanied by Military Sub-Assistant Surgeons.

Insanes.

200. *Ajmer.*—There were 3 lunatics in the Central Jail, Ajmer, on 1st January 1918 and 17 were admitted during the year, total of 20; of these 2 were transferred to the Lahore Lunatic Asylum, 1 made over to his friend, 14 discharged and 1 died. Two lunatics remained in the Jail at the close of the year.

201. *Native States.*—130 lunatics were treated against 145 in 1917: of these 20 were cured, 16 discharged otherwise, 5 handed over to their friends and relatives, 23 died and 66 remained in the jails at the close of the year.

202. Insanes at Udaipur are kept at Mohtajkhana in the City under Police supervision, and are not under the Residency Surgeon, Mewar.

P. B. HAIG, C.B.,
Lieutenant-Colonel, I.M.S.,
Chief Medical Officer in Rajputana.

AJMER;
The 31st May 1919.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1918.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel R. C. Macwatt up to 11th June 1918 and subsequently by Lieutenant-Colonel P. B. Haig, C.B., I.M.S., up to the end of the year.

2. *Population.*—At the commencement of the year there were 396 prisoners including convicts and under-trial prisoners. The number of prisoners admitted to the Jail during the year was 1,401 against 1,377 in the year 1917, of whom 682 were convicts, 710 under-trial and 9 civil prisoners. The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1917.	1918.
Convicts	791	780
Under-trial	580	704
Civil	6	8

The number of prisoners remaining at the close of the year was 305.

The daily average number of prisoners was 359·77, *i.e.*—

Convicts	312·74
Under-trial	45·61
Civil	1·42

3. *Disposal of convicts.*—The following table compares the disposal of convicts (780) during the year under review with that of the preceding year :—

—	1917.	1918.
Released on appeal	76	47
„ expiry of sentence	446	407
„ payment of fine	30	29
„ under remission rules for good conduct	202	131
„ on account of sickness	1	1
Transferred to other jails	31	151
Died in Jail	3	13
Transferred to Lunatic Asylum	2	1
TOTAL	791	780

4. Excluding 128 prisoners received from other jails the remaining 554 convicts admitted into the Jail are classified as under :—

Hindus		377
Mohammadans		174
Christians	Europeans	1
	Eurasians	1
	Natives	1
		554

5. Of the 554 convicts admitted into the Jail 44 were awarded simple imprisonment, 500 rigorous imprisonment, 10 rigorous imprisonment with solitary confinement.

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 117 as against 109 in the previous year, their percentage to the total number of convicts admitted being 21·12.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 308·22.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 335 as compared with 268 in 1917.

9. There was no escape of convicts during the year.

10. *Health.*—Out of a total of 682 convicts admitted into the Jail 557 were in good health, 39 indifferent and 86 in bad health.

The number of admissions into the Jail Hospital was 182 against 317 in 1917. There were 14 deaths against 4 in 1917.

11. There was one juvenile prisoner on 1st January 1918 in the Jail, 12 boys were admitted during the year under review; of these 13, 10 were released and 3 remained at the close of the year.

12. The profits from Jail manufactures amounted to R3,081-7-5 against R855-15-1 in 1917, the average earning per head of prisoners employed on Jail manufactures being R21-9-9 against 6-2-7 in 1917 which is satisfactory considering the abnormal conditions which have prevailed during the year.

Expenditure.—The total expenditure in guarding and maintaining the prisoners including that incurred

(1) by Public Works Department on the buildings and repairs and

(2) by Magistrates in guarding and maintaining under-trial prisoners amounted to R43,476-0-10.

The average cost per prisoner during the year was R107-1-10.

S. B. PATTERSON, *Lt.-Colonel,*
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1918.

(*Vide* Instructions issued with Jail Department Circular No. 42 of 1885.)

Total	114,149	312·74	361	554	915	128	...	1,043	150	1	47	407	29	1	...	131	...	1	...	...	13	263	

* Of this number 12 boys under 16 years. † Of this number girls under 15 years.

NOTE 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the figures are employed extra-murally under the orders of Government, No. 1632—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

P. B. HAIG, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER CENTRAL JAIL:

From—R. R. MACONACHIE, Esq., I.C.S., First Assistant to the Honourable the Agent to the Governor General, Rajputana,

To—The Chief Medical Officer, Rajputana.

I am directed to return, after approval by the Honourable the Agent to the Governor-General, the final proof of the Report on Sanitation, Dispensaries and Jails in Rajputana for the year 1919 and on Vaccination for year 1919-20, forwarded with your letter No. 5452, dated the 16th October 1920.

Exd.—P. L. G.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1919

AND ON

VACCINATION FOR THE YEAR 1919-20.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

1. During the year under report 16 inches of rain were registered in Ajmer against 5·88 inches in 1918, the average for the previous six years being 22·07 inches. All the tanks and wells throughout the district received a sufficient supply.

Rainfall in Native States.

2. The rainfall recorded in Rajputana was abnormal. Some States received in excess of the normal and in some places it was about the normal. It was more active in July and August and totally disappeared from the 1st week of September owing to which the Kharif crops were in some States a complete failure and the Rabi crops were also poor. Fodder was sufficient for requirements.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

3. During the year under report 15,063 births were registered in Ajmer-Merwara in 1919 against 13,214 in the previous year, an increase of 1,849.

4. Of the total births registered 8,021 were males and 7,042 females. The birth rate was 30·04 per mille of population as compared with 26·35 per mille in 1918. The percentage of male to female births was 113·90 against 119·17 in the previous year.

Deaths in Ajmer-Merwara.

5. The total number of deaths registered in this division was 14,375 in 1919 against 57,553 in 1918 a decrease of 43,178 due to absence of any large epidemic. The death rate per mille of population was 28·67 as compared with 114·78 in the previous year.

6. The mortality among children under five years of age was 43 per cent. of the total deaths against 19 per cent. in the previous year.

7. 11,054 deaths from "Fevers" were reported against 47,803 in 1918, an decrease of 36,749 due chiefly to the absence of Influenza.

Number of Cholera cases and deaths reported in Ajmer-Merwara and in Rajputana during the year 1919.

8. The above table shows the total number of Cholera cases and deaths reported in Rajputana during the year 1919.

Ajmer-Merwara.

9. 70 cases of Cholera were reported in Ajmer-Merwara of which 47 proved fatal from 26th June to 17th November 1919, of these 65 cases and 47 deaths occurred in Ajmer City in July, August, September and November and only 5 cases in Pisangan Town in June 1919 which all recovered ; as compared with two cases and 1 death in Ajmer City in 1918.

Native States.

10. During the year 1,312 cases of Cholera were reported from the Native States of Rajputana of which 795 proved fatal: against 3 seizures and 2 deaths in 1918.

11. *Dholpur.*—Cholera broke out on the 8th April 1919. The disease was confined to Dholpur City, 4 towns and 2 villages. 679 seizures and 321 deaths were reported till the 15th September 1919, of these 401 attacks and 185 deaths occurred in Dholpur town.

12. *Bharatpur.*—179 cases and 106 deaths were reported in Bharatpur, Dig, Bayana, Rupbas and Nadbai Tehsils from 4th May to 6th September 1919. Only 3 cases were reported in Bharatpur City of which 2 proved fatal.

13. In Jaipur 207 seizures with 184 deaths were reported in 6 towns including Jaipur city from 3rd May to 4th September 1919, of these 7 fatal cases occurred in Jaipur City.

14. *Marwar.*—73 cases with 66 deaths were reported in 10 towns and villages including Jodhpur City in which 51 attacks and 48 deaths occurred. It appeared on 15th April and lasted up to 9th October 1919.

15. In September the disease broke out in Alwar and Mewar and extended to Kotah.

16. *Alwar.*—There was no Cholera in the State with the exception of 28 cases with 14 deaths reported from two of the villages in the Rajgarh Tehsil from 1st to 29th September 1919.

17. *Mewar.*—During the month of September Cholera appeared in Mewar, and affected 3 places, *viz.*, Nathdwara, Chitorgarh and Morella Jail, Udaipur. 52 attacks with 38 deaths were reported to have occurred up to 23rd September 1919, of these 3 cases and 2 deaths in the Morella Jail at Udaipur.

18. In Kotah State Cholera appeared in Bamora Kalan in Mangrol Nizamat on 11th October 1919 where the infection is said to have been brought from Sheopur Baroda in Gwalior State, a place situated only 6 miles from Bamora Kalan where Cholera has been prevailing for some time, 94 cases with 66 deaths were reported up to 11th November 1919.

19. Usual precautionary measures for its eradication were taken.

20. No Cholera map is necessary.

Sanitation.

Ajmere City.

21. The Sanitary arrangements are insufficient and inadequate.

22. A steam Tramway removes nightsoil, sullage and refuse to trenching grounds outside Ajmer.

23. The surrounding of Mayo College, Ajmer, has been greatly improved by the addition of certain fields which have been acquired from time to time. An incinerator has been erected and more latrines have been provided.

24. The Birat system of scavenging is unsatisfactory and is not under any effective control.

25. The main roads of the city and suburbs require attention especially those where there is a good deal of wheel traffic.

26. A scheme for surface drainage, which is badly wanted, is still under consideration.

27. The covered drains in the city are insanitary and often get blocked up.

28. The slaughter house, meat markets and butchers' shops still leave much to be desired. One more slaughter house is needed to be constructed on a modern design providing for drainage, etc.

29. Many private latrines have been improved by opening ventilators and making certain changes in them.

30. No construction of a privy is allowed by the Conservancy Sub-Committee unless it is in accordance with the standard plan and rules.

31. The foul water from private houses and rubbish are removed in Municipal carts to the Tramway terminus.

32. The present number of foul water carts is insufficient to cope with the present demands of the population.

33. The proposal of replacing masonry latrines and urinals by galvanised iron ones, is still under consideration, but expense here is a serious factor.

34. Many of the shops in the city, especially meat and *halwai* shops, use no means to protect their wares from flies and dust. The effect of this on the general health of the city is bad.

35. The Commissioner, Ajmer-Merwara, reports that rules for the improvement of Village Sanitation were restricted to the same villages as last year.

Native States.

36. *Jaipur.*—The General health of Jaipur City was satisfactory as no epidemic troubled the population which had been weakened by the ravages of plague and Influenza in the two previous years.

37. For all conservancy purposes the Light Railway performs valuable work. Rubbish and city sweepings are burnt in incinerators. The foul earth and sweepings were deposited in the Gandah Nullah, only a portion being used up in cultivators' fields.

38. Seventy-three latrines were newly constructed and 220 old latrines were repaired.

39. *Jodhpur.*—Owing to scanty rains in 1918 scarcity of water was felt in various parts of the State during June and July, but since the monsoon arrived the water supply has been satisfactory and all the tanks and wells in Jodhpur City and in the Districts are nearly filled up.

40. *Bikaner.*—The Sanitation of the city is under the care of the Municipality, of which the Principal Medical Officer is a member and the president of the Sanitary Sub-Committee.

41. *Kotah.*—In Kotah City various improvements in Conservancy were carried out:—

Wells and Baories were cleaned.
Houses which had become dangerous and ruinous were dismantled.
Thirteen iron receptacles were bought to be kept at public latrines.
Three nightsoil carts were purchased and 16 old carts were repaired.

VACCINATION.

Statement I.

42. The total number of persons vaccinated in Ajmer-Merwara including Nasirabad fell from 12,720 in 1918-19 to 11,736 in 1919-20. There was also decline in the total number of Primary Vaccination, the number of Primary successful vaccination, the average number of persons vaccinated by each Vaccinator and in persons successfully vaccinated per 1,000 of population which were 11,670, 10,563,848 and 22·56 respectively in the preceding year. The total number of re-vaccinations also fell from 1,050 in 1918-19 to 354 in 1919-20, and that of successful re-vaccinations from 747 in 1918-19 to 320 in 1919-20.

43. The decrease in both vaccination and re-vaccination is due to the fact that in Ajmer-Merwara many infants remained unvaccinated, the parents concealing or refusing to produce them. The matter is engaging attention with a view to improving the state of affairs.

44. The number of Vaccinators was 15, the same as in the previous year, and one Native Superintendent.

45. The Civil Surgeon, Ajmer, inspected 805 vaccinated children against 783 in 1918-19 all of whom were found successful.

46. The Superintendent of Vaccination at Nasirabad examined 520 children, of these 507 were successful as compared with 810 in 1918-19.

47. The Native Superintendent inspected 278 villages against 342 in 1918-19 and examined 4,428 vaccination operations against 4,184 in the previous year.

48. The vaccination returns from the Native States show a considerable increase under all heads due chiefly to non-prevalance epidemic disease, throughout Rajputana during the season. The total number of Primary Vaccinations in Native States was 213,937 of which 203,350 were successful as compared with 150,923 Primary and 144,916 successful operations in 1918-19. Re-vaccination rose from 1,181 in 1918-19 to 1,269 in the year under report.

General Operation in Native States.

49. There were 180 Vaccinators against 161 Vaccinators in 1918-19, 22 additional Vaccinators having been employed, 13 in Marwar, 6 in Tonk, 1 in Jaisalmer, 1 in Mewar and 1 in Banswara and 2 less in Bharatpur and 1 in Shahpura. No Vaccinator was employed in Deoli Cantonment during the season; vaccinations were performed by the Sub-Assistant Surgeon attached to the Agency Hospital there.

50. 19·37 per thousand of the population in the Native States were successfully vaccinated against 13·73 in 1918-19.

Statement II.

Expenditure on vaccination in Ajmer-Merwara.

51. The total expenditure on Vaccination in Ajmer-Merwara was Rs. 4,029-4-10 against Rs. 3,240-11-4 in 1918-19, an increase of Rs. 788-9-6 chiefly due to the payment of war allowance to the Vaccination Staff. The average cost of each successful case was 71 pies against 55 pies in 1918-19.

Expenditure on vaccination in Native States.

52. The total expenditure of Native States was Rs. 41,913-1-9 as compared with Rs. 33,808-0-7 in the previous season, the increase in cost being due to pay, travelling allowance to Vaccination Staff and Contingencies. The average cost of each successful Vaccination in different States varied from pies 145 in Jaisalmer to 18 pies in Dungarpur.

53. The following table shows the number of towns and villages inspected and vaccination seen by Residency or Agency Surgeons in Native States:—

Designation.	Number of towns and villages inspected.	Number of vaccination cases seen.
The Residency Surgeon, Western Rajputana States, Jodhpur .	14	618
The Principal Medical Officer, Bikaner State . . .	2	3,029
The Agency Surgeon, Eastern Rajputana States, Bharatpur .	37	922
The Residency Surgeon, Mewar, Udaipur	65	1,117
The Residency Surgeon, Jaipur	79	4,331

54. The State Surgeon, Alwar, inspected 220 villages and examined 1,906 Vaccinations. The Assistant Surgeon, Kotah, inspected 213 villages and saw 1,389 vaccinated children. 608 vaccination operations were seen by the Assistant Surgeon, Jhalawar.

55. The Native Superintendents of Vaccinations and other Inspecting Officers in Native States inspected 76,933 Vaccinations against 59,030 in 1918-19. The percentage of cases found successful among the total number seen in 1919-20 was 96·79 against 98·16 in the previous season.

56. Lymph is maintained throughout the year in most of the States. Glycerinated Lymph was obtained during the year from the Government Lymph Depôts and was satisfactory.

Section II—DISPENSARIES.

Statement A.

Number of dispensaries.

57. During the year the number of Hospitals and Dispensaries was 178 against 179 in the previous year. The Uchain Dispensary in Bharatpur was closed on 30th November 1919.

58. The Dispensaries are classified as under:—

I. State Public	8
II. State Special	13
III. Private Non-aided (*i.e.*, Native States)	157
Total .	178

59. Besides these there are now six Mission Dispensaries and one Hospital and 8 Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana.

60. *Jaipur.*—The sum of Rs. 594-4-8 were spent in effecting improvements and additions to the buildings of the Mayo Hospital.

Improvements and additions to Hospitals and Dispensaries.

61. *Bikaner.*—The Pathological and Bacteriological Laboratory has now been equipped and is in working order. Vaccines are now prepared and 269 injections of vaccine prepared in the Laboratory were given.

62. Further apparatus were ordered to bring X-Ray apparatus up to date and make it much more powerful.

63. The Electrical and Vibratory message apparatus have been ordered but it has not yet been received.

64. *Kotah.*—A Postmortem room at Antah was completed.

65. *Mewar.*—The Lansdowne Hospital at Udaipur requires enlarging and expanding. It is at present in far too cramped a position and should be removed to a much larger site somewhere else outside the city.

66. The present quarters for the Hospital Staff are quite inadequate to meet the demands.

67. In-patient clothing and bedding, etc., for this hospital have been obtained from the Central Jail, Udaipur, and Medical Supplies for this Hospital as well as for other Hospitals and Dispensaries in Mewar from England.

68. The Dispensaries at Untala, Chitorgarh, Bhilwara and Kapasin were also supplied with in-patients clothing and bedding.

69. The proposal for building a new dispensary at Choti Sadri and for establishing a dispensary at Hurra is still under the consideration of the Darbar.

70. The Medical supervision of the Residency Surgeon, Mewar, over the Southern Rajputana States Agency Hospital, Neemuch, was withdrawn from the 15th April 1919.

STATEMENT B.

Attendance at Hospitals.

71. During the year under report 1,513,349 patients were treated at State Public, State Special and Private Non-aided (*i.e.*, Native States) Dispensaries and Hospitals; the corresponding figures for 1918 were 1,550,144 a decrease of 36,795 attributable to the absence of Epidemic diseases and Malaria.

72. Of the total number of patients treated 18,623 were in-door and 1,494,726 out-door against 17,370 in-door and 1,532,774 out-door in the previous year. The number of deaths fell from 1,051 in 1918 to 703 in 1919 and the ratio of deaths per cent. of total treated fell from 6·05 in 1918 to 3·77 in 1919.

STATEMENTS C(i) AND C(ii).

Diseases treated.

73. In Statement C(I) the number of deaths under each head of diseases treated in the in-door department is shown; 18,623 in-patients were treated with a mortality of 703 as compared with 17,370 in-patients and 1,051 deaths in 1918. The difference of 216 patients between columns 8 and 53 of Statements B and C(I) is due to 216 out-door labour cases being included in Statement C(I).

74. Two hundred nineteen Normal confinements with no deaths and 182 Abnormal confinements with 3 deaths were reported from the various hospitals, as compared with 130 with 2 deaths and 181 with 3 deaths respectively in 1918.

75. One million, four hundred and ninety-four thousand and seven hundred and twenty-six out-door patients treated in 1919 are shown in Statement C(II) against 1,532,586 in the previous year.

76. The cases treated in the Hospitals and Dispensaries under each chief disease during the years 1917, 1918 and 1919 are as follows :—

Diseases.	1917.	1918.	1919.
Malarial Fever	460,599	225,524	27,233
Diseases of the eye	267,410	243,256	239,795
Dysentery and Diarrhœa	60,642	46,304	53,095
Ulcers	152,353	133,202	137,686
Skin diseases	183,883	168,728	180,166
Syphilis	13,604	11,661	11,288
Injuries	43,487	37,952	41,837
Tubercle of the Lung	1,469	1,535	1,315
Abscess of the Liver	250	157	162

Scurvy.

77. Five hundred and twenty cases of Scurvy were treated in 1919, of these 134 in Mewar, 76 in Marwar, 66 in Bikaner, 60 in Tonk, 59 in Alwar and 43 in Jaipur as compared with 551 in 1918 and 555 in 1917.

Leprosy.

78. Three hundred and twenty-one Lepers received treatment in 1919, of these 99 in Jaipur against 416 in 1918 and 379 in 1917. The Residency Surgeon, Jaipur reports that 23 Lepers were treated with Lepronine which gave satisfactory result.

Tubercular Diseases.

79. The Residency Surgeon Jaipur writes that the treatment of tubercular diseases by means of Tubercul in Bacillary Emulsion (Koch) was continued with satisfactory results.

80. The following table shows the different varieties of this disease treated :—

Tubercular diseases of	bones and joints	66
Ditto	glands	67
Ditto	lungs	114
Ditto	Abscess	37
Ditto	Ulcer	28
	TOTAL	312

Plague.

81. During the year from 1st April 1919 to 31st March 1920 only 152 Plague seizures and 106 deaths were reported in 18 towns and villages infected in Ajmer-Merwara District and in the Native States in Rajputana against 18,972 cases with, 16,268 deaths in 667 towns and villages in the previous year.

82. The percentage of total plague deaths to population was 1·48 as shown in table attached as compared with 2·41 in 1918-19.

83. In Ajmer-Merwara only 11 plague attacks and 4 deaths were reported in Bogla Village in Kekri Circle in Ajmer in April 1919 against 238 seizures and 176 deaths in 23 towns and villages in Ajmer District.

Ajmer-Merwara.

84. During the year the Native States in Rajputana were free from Plague with the exception of 141 cases and 102 deaths in Bharatpur, Marwar and Mewar.

85. *Bharatpur.*—The disease lingered from the preceding year until June 1919. 92 seizures and 57 deaths were reported in 9 villages in Kaman, Pahari and Nagar Tehsils of Bharatpur State, as compared with 4,260 cases and 3,383 deaths in 11 towns and 129 villages in the previous year.

86. *Marwar.*—There was no indigenous plague. throughout the year. Only 3 imported fatal cases occurred at the following places in Marwar during the month of January 1920 :—

Place.	No. of fatal cases.
Phalodi City	1
Khichand	2

87. *Mewar.*—Since 5th May 1918 to the end of February 1920 this State remained free from Plague. On 1st March 1920 plague was reported in village Bhimlat, Pargana Nagawli of Chitorgarh Zillah in which only 2 fatal cases occurred up to 15th March 1920. The first case was imported from village Chakarda Pargana Nimbahera of Tonk State. The Sub-Assistant Surgeon, Chitorgarh on his visit discovered that the disease was prevailing in three other villages *viz.*, Somawas, Karoli and Akola up to 30th March 1920.

Place.	Cases.	Deaths.
Somawas	30	30
Karoli	3	3
Akola	11	7

88. All necessary precautions were taken to stamp out the disease.

Snake Bite.

89. Anti-venine is kept in stock in most of the Main Dispensaries and used for the treatment of Snake Poisoning when opportunity offers. No special report has been received on the subject.

Statement F.

90. Shows the classes and sexes of both in and Out-door patients treated in the Dispensaries of Ajmer-Merwara and of Native States of Rajputana. This calls for no comment, as it is merely introduced for statistical purposes.

Statement G.

91. During the year under report 78,534 operations were performed on 78,037 persons in Ajmer-Merwara and in Native States against 75,390 operations done on 75,049 persons in the previous year. Of these cures amounted to 76,819, the number relieved 693, discharged otherwise 188 and died 89 as compared with 73,668, 864,230 and 81 respectively in 1918; while 248 remained under treatment at the end of the year.

92. Of the operations performed 1,995 were Extractions of the Lens for Cataract, of which 1,728 or 86·62 per cent. were reported successful, 55 Lithotomies, 138 Litholapaxies and 196 Amputations against 1,237 Lens Extractions, 64 Lithotomies, 148 Litholapaxies and 202 Amputations in 1918.

93. Four-hundred and sixty-seven operations were performed on the Abdomen of which 18 proved fatal as compared with 472 operations with 32 deaths in 1918. Of these 303 were Paracentesis of Abdomen with 10 deaths, 24 Abscess of Liver with no death, 10 Laparotomies with 2 deaths and 46 Radical Cure of Hernia with 1 death against 323 Paracentesis of Abdomen with 20 deaths, 19 Abscess of Liver with 1 death, 16 Laparotomies with 7 deaths and 36 Radical Cure of Hernia with 3 deaths in the previous year.

94. The total number of Surgical Operations of all kinds performed in the Ajmer-Merwara District in 1919 was 3,927 with 1 death as compared with 3,751 with 7 deaths in 1918. Of these 1,248 operations were done at the Victoria Hospital, Ajmer, with 1 death against 1,196 with 6 deaths in 1918, an increase of 52 operations.

95. Of these operations 56 were Extraction of the Lens for Cataract, 17 Lithotomies, 4 Litholapaxies, 5 Ovariotomies, 12 Amputations and 2 Radical cure of Hernia.

96. Two-thousand five-hundred and twenty operations of all kinds were performed at the Mayo Hospital, Jaipur, with 15 deaths as compared with 2,228 operations with 21 deaths in the previous year. Of these 593 were Extraction of the Lens for Cataract, 1 Lithotomy, 38 Litholapaxy and 15 Amputations.

97. *Jodhpur.*—One-thousand eight hundred and one operations of all kinds were performed in the Hewson General Hospital, Jodhpur with 15 deaths. Of these 115 were Extraction of the Lens for Cataract, 3 Lithotomies, 41 Litholapaxies and 30 Amputations.

98. *Bikaner.*—Two-thousand and twenty-two operations of all kinds were performed in the Bhagwan Dass Hospital, Bikaner as compared with 1,280 operations in 1918, of these 179 were Extraction of the Lens for Cataract, 5 Lithotomies, 14 Lithotrities, 6 Litholapaxies and 8 Amputations.

99. Two-thousand one hundred and seventy-six Surgical operations were performed in Victoria Hospital, Bharatpur, of these 366 were Extraction of the Lens for Cataract, 2 Lithotomies, 15 Litholapaxies and 18 Amputations.

100. Two-thousand and fifty-five operations were performed in the Dholpur State institutions as compared with 2,070 in 1918. Of these 384 were Extraction of Lens for Cataract.

101. Two-thousand one-hundred and eighty-two operations were performed in the Alexandra Hospital at Alwar against 2,588 in 1918. Of these 150 were Extraction of the Lens for Cataract, and 4 Litholapaxies as compared with 190 Extraction of the Lens for Cataract and 5 Litholapaxies in the previous year.

102. Two-thousand and forty-seven operations were performed at the Kotah City Hospital. The most important operations were :—

Extraction of Lens for Cataract	71
Amputations	13
Lithotomy	4
Radical Cure of Hernia	3
For Fistula in Ano	7

103. Two-hundred and sixty-four major operations were performed in the Lansdowne Hospital at Udaipur, of these 17 Litholapaxies were done, all of them were successful.

STATEMENTS H. AND J.

Financial Statements.

104. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals and only expenditure on these in Native States.

105. The total income of the Hospitals and Dispensaries in Ajmer-Merwara rose from Rs. 30,610 in 1918 to Rs. 35,439 in 1919 an increase of

Rs. 4,829 chiefly due to certain special grants received during the year and an additional contribution of Rs. 1,000 sanctioned by the Ajmer Municipality in addition to its usual annual subscription of Rs. 2,500. The subscriptions from Europeans also rose from Rs. 45 in 1918 to Rs. 285 in 1919.

106. The value of invested Capital remained the same as in the previous year.

107. The total expenditure of the Ajmer-Merwara Dispensaries was Rs. 32,654 in 1919 as compared with Rs. 28,247 in 1918. All Heads of Expenditure, except Buildings and Repairs, show increase owing to highly enhanced prices of all necessary articles and to the grant of War Allowance sanctioned by the Government of India. The expenditure on Buildings and Repairs was Rs. 802 in 1919 against Rs. 1,662 in the previous year, a decrease of Rs. 860.

108. *Native States.*—The total Expenditure of Hospitals and Dispensaries in Native States in Rajputana fell from Rs. 5,42,968 in 1918 to Rs. 5,22,380 in 1919, a decrease of Rs. 20,588 under Head—Europe and Bazar Medicines, Miscellaneous charges and Buildings and Repairs.

109. Of the total expenditure on Hospitals and Dispensaries in Native States in Rajputana Rs. 91,991 were expended in Jaipur. Rs. 81,269 in Marwar, Rs. 60,874 in Kotah, Rs. 53,264 in Bharatpur, Rs. 47,885 in Bikaner, Rs. 47,598 in Mewar, Rs. 39,967, in Alwar, Rs. 16,036 in Jhalawar, Rs. 14,851 in Tonk, Rs. 9,704 in Dholpur, Rs. 6,639 in Sirohi, Rs. 6,607 in Karauli, Rs. 6,179 in Kishangarh, Rs. 5,557 in Shahpura, Rs. 5,393 in Jaisalmer, Rs. 5,358 in Banswara, Rs. 4,768 in Pertabgarh, Rs. 4,687 in Dungarpur, Rs. 4,069 in Bundi and Rs. 1,833 in Kushalgarh.

110. The average cost of each case treated in Ajmer-Merwara and in the Native States Hospitals and Dispensaries was 94 pies and 72 pies against 75 pies and 72 pies in 1918.

Mission Hospitals.

111. During the year under report the number of Mission Hospitals in Rajputana was 6 instead of 7 in 1918.

112. The following table shows the total number of In and Out-door patients treated and operations performed in 1919.

Name of hospitals.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer . .	26,093	15,138	41,231	17	936	89 were visited at their homes.
Ajmer Women Hospital.	7,166	3,993	11,159	623	463	2,914 were visited at their homes.
Nasirabad . .	14,640	7,858	22,498	...	264	850 were visited at their homes.
Jaipur . . .	8,740	2,793	11,533	52	170	845 were visited at their homes.
Jodhpur . .	15,083	6,605	21,688	18	442	92 were visited at their homes.
Udaipur . .	36,111	15,972	52,083	165	1,363	
Total .	107,833	52,359	160,192*	875	3,638	

* Medical statistics of these hospitals are for the Mission year from 1st October 1918 to 30th September 1919.

Railway Hospitals.

113. Seven-hundred and fifty In and 55,601 Out-door patients were treated and 1,510 operations performed during the year in 9 Railway Dispensaries of

the Bombay, Baroda and Central India Railway within the limits of Rajputana as per detail below as in the previous year :—

Station.	Number of patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer	216	26,765	26,981	602	
Phulera . . .	159	4,250	4,409	66	
Bandikui . . .	212	7,054	7,266	214

Gangapur . . .	35	5,754	5,789	85	
Sewai Madhopur . .	...	2,153	2,153	64	
Total .	750	55,601	56,351	1,510	

Jails.

114. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail was 301·13 against 359·77 in the previous year. The total number of admissions into Hospital and the daily average number of sick fell from 182 and 7·86 in 1918 to 135 and 5·27 in 1919. The number of deaths was 3 as compared with 14 deaths in 1918, of these one death occurred among the Convicts and 2 among the Under-trials. One Under-trial died of Chronic Malaria, the Second Under-trial of Enteric Fever and one Convict of Chronic Diarrhœa.

115. The Review by the Commissioner, Ajmer-Merwara on the strength classification, health, employment and conduct of prisoners, nature of sentences, jail manufactures and expenditure of the jail is given as Appendix A of the report together with statements.

Native States.

116. The daily average of prisoners in the jails in the Native States fell from 3808·98 in 1918 to 3615·28 in 1919, the total number of admissions into hospitals from 1,833 to 1,671, the daily average number of sick from 84·23 to 72·91; mortality from 322 to 126 and the ratio of deaths per mille of average strength from 84·54 to 34·85.

117. There was no Cholera or other epidemic disease in any of the jails in Rajputana.

118. There were no deaths in the jails at Shahpura, Jhalawar, Kishangarh and Dungarpur.

119. *Jaipur.*—At the Central Jail, Jaipur, there has been overcrowding throughout the year. The daily average number of prisoners rose from 584·61 in 1918 to 612·41 in 1919, but the total number of admissions into hospital fell from 86 to 83, the mortality from 28 to 13 and ratio of deaths per mille of average strength from 47·90 to 21·23.

120. In the District Jail the daily average number of prisoners fell from 187·53 in 1918 to 180·66 in 1919, total admission to hospital from 55 to 32, daily average number of sick from 2·73, to 2·23, mortality from 10 to 4 and ratio of deaths per mille of average strength from 53·32 to 22·14.

121. In the Kishangarh and Shahpura Jails no prisoner is reported to have been treated as In-door patient during the year under report.

122. *Jodhpur.*—In the Jodhpur Central Jail the average number of prisoners was 589·74 as compared with 574·62, although the total admissions to hospital were 169 against 132, but the mortality fell from 21 to 20 and ratio of deaths per mille of average strength from 36·55 to 33 91.

123. *Sirohi.*—Only 3 deaths occurred from Pneumonia against 11 in the previous year.

124. *Udaipur.*—There has been overcrowding in the jail throughout the year. The health of the prisoners was good during the year. The total mortality was 9 against 40 in 1918, the causes of which are given below:—

Pneumonia	2
Phthisis	1
Chronic Nephritis	1
Chronic Diarrhœa	1
Dysentery	1
Cordial disease	2
Cirrhosis of Liver with Ascitis	1

125. There has been no special disease in the jails in Rajputana throughout the year.

Qualified Medical Staff.

126. Lieutenant-Colonel J. W. Watson, C. I. E., I. M. S., was appointed on the transfer of Major C. B. McConaghy, I. M. S., to Bhopal as Agency Surgeon, Eastern Rajputana States, Bharatpur, with effect from 24th January 1919.

127. Lieutenant-Colonel P. P. Kilkelly, I. M. S. (Retired), Residency Surgeon, Western Rajputana States, Jodhpur, was granted four months' sick leave from 9th August 1919.

128. Lieutenant-Colonel L. J. M. Deas, I. M. S., was posted as Residency Surgeon, Jaipur, with effect from the 25th October 1919.

129. Lieutenent-Colonel R. Shore, I. M. S. (Retired), Residency Surgeon, Mewar, Udaipur, proceeded to England on ceasing to be re-employed on the 6th December 1919.

130. Lieutenant-Colonel J. W. Grant, I.M. S. was appointed as Residency Surgeon, Western Rajputana States, Jodhpur, with effect from the 16th December 1919.

131. Lieutenant-Colonel F. D. S. Fayrer, I. M. S. was appointed as Residency Surgeon Mewar, Udaipur, with effect from the 26th December 1919.

132. The following officers of the Indian Medical Service held temporary visiting charge of the Residency and Agency Surgeoncies as noted against their names and from and to the dates specified in addition to their own duties:—

Major C. B. McConaghey, I. M. S. Agency Surgeon, Eastern Rajputana States, Bharatpur.	Jaipur Residency Surgeoncy, and Kotah and Jhalawar Agency Surgeoncy up to 23rd January 1919.
Lieutenant-Colonel J. W. Watson, C. I. E., I. M. S., Agency Surgeon, Eastern Rajputana States, Bharatpur.	Jaipur Residency Surgeoncy, and Kotah and Jhalawar Agency Surgeoncy from the 24th January to 31st December 1919.
Lieutenant-Colonel R. Shore, I. M. S. (Retired), Residency Surgeon, Mewar, Udaipur.	Office of Medical Officer, Mewar Bhil Corps, Kherwara, up to 5th December 1919.
Lieutenant-Colonel F. D. S. Fayrer, I. M. S., Residency Surgeon, Mewar, Udaipur.	Office of Medical Officer, Mewar Bhil Corps, Kherwara, from the 26th to 31st December 1919.

133. Mr. N. J. Rodrigues, L. R. C. P. & S. (Edinburgh), was in temporary charge of the Northern India Salt Revenue Dispensary at Sambhar up to the 28th November 1919, when he resigned the service, and Sub-Assistant Surgeon Ashraf Beg attached to the Raj Dispensary there was appointed to the charge of this dispensary from the 29th November to 14th December 1919 in addition to his own duties.

Medical Practitioner.

134. Senior Military Assistant Surgeon Lieutenant W. F. Parrott, I. M. D., was in charge of the Northern India Salt Revenue Dispensary at Sambhar with effect from the 15th December 1919.

Military Assistant Surgeon.

135. There were five Government Civil Assistant Surgeons, two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri and one at Bharatpur.

Civil Assistant Surgeons.

136. Eight Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana against 11 in the previous year, of these only one was on Field Service.

Military Sub-Assistant Surgeons.

137. There were 119 Government Sub-Assistant Surgeons on the roll on the 1st January 1919, 2 appointments of Sub-Assistant Surgeons were newly created in the Victoria Hospital, Ajmer, 1 Sub-Assistant Surgeon was newly appointed and posted to the Southern Rajputana Agency Hospital at Neemuch, 1 Sub-Assistant Surgeon was newly appointed and placed on Government Reserve List and 2 Medical Pupils passed their Final Examination at the Agra Medical School in May 1919, total 125. Out of 125 Sub-Assistant Surgeons, 4 retired on pension, 1 resigned, 1 died, and 1 was transferred to the United Provinces. Thus at the closure of the year 118 Government Sub-Assistant Surgeons remained on the roll including 5 Sub-Assistant Surgeons transferred temporarily to Military duty.

Civil Sub-Assistant Surgeons.

138. The number of Lady Doctors employed in the Native States in Rajputana was 5 as in the previous year. Lady Doctor Mrs. M. DeSouza was employed in the Walter Zenana Hospital at Tonk on the 29th May 1919 and Mrs. Sterling at Jodhpur was on leave till the end of the year.

Kotah	1
Jaipur	1
Bikaner	1
Tonk	1
Udaipur	1

139. There were 7 Female Sub-Assistant Surgeons attached to the Female Hospitals in Rajputana at the following places against 6 in the previous year.

Tonk	1
Jodhpur	1
Kotah	1
Alwar	1
Jaipur	1
Beawar	1
Kishangarh	1
	7

140. Female Medical Pupil Nangi Bai passed her Final Examination in the Women's Medical School, Agra, and was posted at the Mayo Hospital, Jaipur, from 31st October 1919. Mrs. L. A. Scott was employed in the General Hospital, at Kishangarh from the 15th August 1918. Female Sub-Assistant Surgeon, Mrs. A. Williams attached to the Female Dispensary at Bharatpur resigned her service on the 31st July.

Female Hospitals and Dai Class.

141. *Ajmer.*—Two Lady Doctors have remained attached to the Mission Hospital for Women at Ajmer throughout the year. They and their subordinates have done much good work in the Hospital and in Zenana. The number of patients treated and the other medical work done is shown under the Mission Hospitals.

142. *Beawar.*—Female Sub-Assistant Surgeon Miss Q. Houlton was in charge of the Women's Ward of the Charitable Dispensary at Beawar from January 1st to 16th April when she was granted leave on medical certificate, resuming duty again on the 14th October 1919. 42 In and 2,878 new Out-patients were treated against 64 In and 6,480 new Out-door patients in 1918.

143. 501 operations were performed against 391 in the previous year, of these 38 were important operations as detailed below :—

1. Extraction of Lens for Cataract	7
2. Operation for Trichiasis and Entropion	11
3. Evisceration of eye	1
4. Setting of Fracture and dislocations in various parts	7
5. Amputation of leg	1
6. Difficult Labour Cases	8
7. Curetting of Uterus	2
8. Paracentesis Abdomanalis	1
Total	38

144. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a general increase in both In and Out-door attendance due to non-appearance of infectious diseases.

145. *Jodhpur.*—Mrs. Sterling, M. B., B. C. H., B. A. O. (Dublin), was in charge of the Jaswant Hospital for Women at Jodhpur up to 15th March 1919 when she proceeded on leave on medical certificate. Since then Female Sub-Assistant Surgeon Miss H. Paul has been working in her place in addition to her own duties. 51 In and 2,853 Out-door patients were treated against 50 In and 2,411 Out-door patients in the previous year.

146. 82 Minor operations were performed as compared with 8 Major and 50 Minor operations in 1918.

147. *Kotah.*—Miss J. Newton, L. R. C. P. & S. (Edinburgh), and L. F. P. S. (Glasgow), has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year. 234 In and 6,693 Out-door patients were treated as compared with 199 In and 6,334 Out-door patients in 1918.

148. The number of operations performed was 279 against 230 in the previous year.

149. 37 Midwifery cases were treated in the hospital during the year as noted below :—

Transverse presentations	3
Tedious Labour and dead Foetus	3
Abortions	16
Natural Labours	15

150. Female Sub-Assistant Surgeon Miss Halen Baldeo Singh treated 8 Midwifery cases in the city.

151. *Jaipur.*—Dr. L. E. Sykes, M. D. (Brussels), L. R. C. P. & S. (Edinburgh), and L. F. P. S. (Glasgow), has been in charge of the Female Ward of the Mayo Hospital, Jaipur, throughout the year. There was a considerable increase both In and Out-door attendance as compared with those of 1918.

152. Operations on women were 677 against 610 in the previous year.

153. The construction of the new block for females in memory of the late Lady Hardinge on the west side of the Operation room at the Mayo Hospital has been completed but it has not yet been opened.

154. Female Medical Pupil Nangi Bai passed her Final Examination at the Agra Medical School in the Female Sub-Assistant Surgeon Class, as a Jaipur State Medical Pupil on the 22nd October and has been posted to the Mayo Hospital from 31st October 1919.

155. Miss Sykes carried out her duties statisfactorily.

156. *Udaipur.*—Miss Collins has been in charge of the Walter Zenana Hospital, Udaipur, throughout the year. 60 In and 2,420 Out-patients were treated against 22 In and 260 Out-door attendance in 1918.

157. Nine Major and 63 Minor operations were done as compared with 2 Major and some Minor operations in the previous year.

158. In-patients' clothing and bedding have been supplied from the Central Jail, Udaipur.

159. *Bikaner*—Miss J. Marsh, L. R. C. P. & S. (Edinburgh), L. F. P. S. (Glasgow) and M. D. (Brussels) was in charge of the Lady Curzon Zenana Hospital, Bikaner, up to 31st March 1919, when she retired. Miss A. J. Dodhi, M. B. B. S., from 1st April to 31st July 1919 when she also resigned and Miss G. A. Postwala, M. B. B. S., who was appointed as a 2nd Lady Assistant Surgeon on 6th April 1919 from 1st August to the end of the year. She is still in charge. 173 In and 3,290 new Out-door patients were treated against 62 In and 6,327 new Out-door patients in the previous year.

160. Thirty-seven Major and 576 Minor operations were performed as compared with 6 Major and 200 Minor operations in 1918.

161. *Tonk.*—Female Sub-Assistant Surgeon Imamun was in charge of the Walter Zenana Hospital, Tonk, up to 28th May 1919 when Lady Doctor Mrs. M. DeSouza was appointed and placed in charge of the Institution under the supervision of the State Surgeon, Tonk State. The number of In and Out-door attendance was 154 and 7,564, respectively, against 134 In and 6,880 Out-door in the previous year.

162. Thirteen Major and 323 Minor operations were performed as compared with 19 Major and 292 Minor operations in 1918.

163. *Alwar.*—The work of the Lady Dufferin Hospital, Alwar, was carried out by Female Sub-Assistant Surgeon Bala Bai throughout the year. 276 In and 19,050 Out-door patients were treated as compared with 161 In and 18,283 Out-door patients in 1918.

164. Eighty-four Major and 1,148 Minor operations were performed against 61 Major and 1,010 Minor operations in the previous year.

165. Six-hundred and seventy-nine Purda patients were treated at their homes and 20 Obstetric operations performed in 1919.

166. *Bharatpur.*—The Female Dispensary at Bharatpur remained without a Female Sub-Assistant Surgeon except for 5 months from the 1st March to the 31st July 1919 during which period Mrs. A. Williams was in charge. During the remainder of the year the work of the Dispensary was carried on by one of the male Sub-Assistant Surgeons attached to the Victoria Hospital there in addition to his own duties. 285 In and 4,836 new Out-door patients were attended against 278 In and 3,284 Out-door patients in 1918.

167. A scheme has been initiated for the control of the work of Dais practising in the city.

168. *Kishangarh.*—Female Sub-Assistant Surgeon Mrs. L. A. Scott has been in charge of the Female Ward of the General Hospital, Kishangarh, throughout the year. She was appointed from the 15th August 1918.

169. Twenty-eight In and 4,232 new Out-door patients were treated against 14 In and 4,489 Out-door patients in the previous year. Three Midwifery cases were attended to by Mrs. Scott against 2 in 1918. No operations were performed by her during the year.

170. *Dai Class, Ajmer.*—Mrs. Kane, who had been for 12 years Superintendent of the Dai Training class and Maternity Home, Ajmer, retired in April 1919. A gratuity of 6 months' pay was given to her.

171. The 6 pupils who began their course in 1918 were examined by the Civil Surgeon, Ajmer, in April 1919. All passed the qualifying examination and received Certificates and the usual Honorarium.

172. The work was placed under the control of the Lady Doctors of the Women Mission Hospital (Dr. S. Campbell and Dr. H. Mcmillan) who reported as follows:—

> "On Mrs. Kane's retirement in April 1919, we took over the supervision of the Dai Training School, and in May 1919, Mrs. Conally took charge of the Maternity Home and commenced her class for the Dais in residence. In all 7 Dais have been in training, 3 from Bharatpur, 1 from Alwar, 1 from Jaipur, 1 from Kotah and 1 from Agra. Two of these completed their 9 months' training in November 1919, and Lieutenant-Colonel, P. B. Haig, C. B., I. M. S., Civil Surgeon, Ajmer, kindly examined them. Both passed, one gaining 100 per cent.
>
> Between June and December there have been 12 patients in the Maternity Home, 9 Confinements and 3 Gyneocological Cases. 11 Confinements were attended outside and of the total of 20, 3 were Abnormal. Also 94 Gyneocoligical patients have been seen at the Maternity Home, and 22 patients have received treatment at Home by the Dais.
>
> During the past year the Dais in turn have each spent 3 months at the Women Mission Hospital, where they conducted 42 Confinements and were present at others, including many Abnormal cases. They also get in the hospital some experience in general nursing. They have worked well and seem keen to become proficient. If they are to practice as Dais under supervision, this 9 months' training is perhaps sufficient, but if they are to become supervising Midwives in the States to which they belong they should certainly have a longer training.
>
> The names and addresses of all the City Indigenous Dais have been obtained, and a scheme is being evolved for giving them lectures and starting some amount of supervision of their work."

Imperial Service Troops.

173. The Hospitals of the Imperial Service Troops are all well equipped with the exception of those of the 2 regiments of Imperial Service Lancers at Jodhpur, they are under the Medical charge of well qualified Military Sub-Assistant Surgeon. Each regiment of the latter is under the Medical charge of a State enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been under the Medical charge of the Civil Sub-Assistant Surgeon attached to the Lansdowne Hospital.

174. A Military Sub-Assistant Surgeon attached to the Imperial Service Corps, Bharatpur, was on Active Service till the end of the year.

175. The Transport Corps Hospital with the Imperial Transport Corps, Jaipur, returned to Jaipur from Active Service from Mesopotamia on 9th May 1919 in Medical charge of 4th Grade Sub-Assistant Surgeon A. V. A. De Aranji. The Transport Corps Hospital again proceeded on Active Service to the North-West Frontier on the 21st June 1919 in Medical charge of Sub-Assistant Surgeon A. V. A. De Aranji with other Medical Staff.

176. The hospital returned to Jaipur on 15th January 1920.

Insanes.

177. *Ajmer.*—Two Lunatics remained in the Central Jail, Ajmer, on 1st January 1919, and 22 were admitted during the year, a total of 24, of these 9 were transferred to the Lahore Lunatic Asylum, 7 discharged and 5 made over to their friends and relatives. Three Lunatics remained in the jail at the close of the year.

178. *Native States.*—149 Lunatics were treated against 130 in 1918, of these 35 were cured, 26 made over to their friends and relatives, 13 died and 75 remained in the jails at the close of the year.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1919.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel P. B. Haig, C.B., I.M.S., throughout the year.

2. *Population.*—At the commencement of the year there were 305 prisoners including convicts under-trial and civil prisoners. The number of prisoners admitted to the Jail during the year was 1,249 against 1,401 in the year 1918, of whom 576 were convicts, 667 under-trial and 6 civil prisoners. The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1918.	1919.
Convicts	780	583
Under-trial	704	690
Civil	8	6

The number of prisoners remaining at the close of the year was 275.

The daily average number of prisoners was 311·13, *i.e.*—

Convicts	270·98
Under-trial	39·57
Civil	0·58

3. *Disposal of convicts.*—The following table compares the disposal of convicts (583) during the year under review with that of the preceding year :—

—	1918.	1919.
Released on appeal	47	34
„ expiry of sentence	407	357
„ payment of fine	29	20
„ under remission rules for good conduct including 20 released on signature of the Peace Treaty.	131	141
Transferred to other jails	151	27
Died in Jail	13	1
Transferred to Lunatic Asylum	1	3
TOTAL	779	583

4. Excluding 29 prisoners received from other jails, the remaining 547 convicts admitted into the Jail are classified as under :—

Hindus		369
Mohammadans		172
Christians	Europeans	...
	Eurasians	...
	Natives	6
		547

5. Of the 547 convicts admitted into the Jail 47 were awarded simple imprisonment, 499 rigorous imprisonment, and 1 rigorous imprisonment with solitary confinement.

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 135 as against 117 in the previous year, their percentage to the total number of convicts admitted being 24·68.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 266·94.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 417 as compared with 335 in 1918.

9. There was no escape of convicts during the year.

10. *Health.*—Out of a total of 547 convicts admitted into the Jail, 501 were in good health, 32 indifferent and 14 in bad health. The number of admissions into the Jail Hospital was 135 against 182 in 1918. There were 3 deaths against 14 in 1918.

11. There was 3 juvenile prisoners on 1st January 1919 in the Jail. 11 boys were admitted during the year under review. Of these 12 were released and 2 remained at the close of the year.

12. The profits from Jail manufactures amounted to R4,931-5-3 against R3,081-7-5 in 1918, the average earning per head of prisoners employed on Jail manufacture being R40-2-10 against R21-9-9 in 1918 which is satisfactory considering the abnormal conditions which have prevailed during the year.

Expenditure.—The total expenditure in guarding and maintaining the prisoners including that incurred—

(1) by Public Works Department on the buildings and repairs, and

(2) by Magistrates in guarding and maintaining under-trial prisoners amounted to R57,865-2-1.

The average cost per prisoner during the year was R139-11-9.

E. C. GIBSON, *I.C.S.*,
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined *in the Ajmer Central Jail during the year 1919.*

* Of this number 8 boys under 16 years. † Of this number 2 girls under 15 years. ‡ 17 males and 3 females released on 19 day of July 1919 on account of Peace Celebration.

NOTE 1.—In this and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—46, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

P. B. HAIG, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER CENTRAL JAIL:
The 24th January 1920.

No. 4376 of 1921, dated Mount Abu, the 31st July 1921.

From—Captain G. B. WALKER, M.C., Secretary to the Hon'ble the Agent to the Governor-General, Rajputana,

To—The Chief Medical Officer in Rajputana.

I am desired to return, after approval by the Hon'ble the Agent to the Governor-General, the final proof of the Report on Sanitation, Dispensaries and Jails in Rajputana for the year 1920 and on Vaccination for the year 1920-21 forwarded with your letter No. 4700-61, dated the 25th July 1921.

REPORT

ON

SANITATION, DISPENSARIES AND JAILS IN RAJPUTANA FOR 1920

AND ON

VACCINATION FOR THE YEAR 1920-21.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

1. During the year under report 21·98 inches of rain were registered, in Ajmer against 16 inches in 1919, the average for the previous six years being 22·46 inches.

2. There was good rainfall in the first half of the monsoon season and the second half was almost dry.

Rainfall in Indian States.

3. The rainfall recorded in Rajputana was on the whole good in the first part of the monsoon season. During the latter part it was deficient, owing to which the Kharif and the Rabi Crops suffered to a certain extent. Fodder however was sufficient for requirements.

4. Water supply was not affected by the scanty rainfall.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

5. According to birth returns 13,927 births were registered in 1920 against 15,063 in the previous year, a decrease of 1,136.

6. Of the total births registered 7,443 were males and 6,484 females. The birth rate was 27·77 per mille of population as compared with 30·04 per mille in 1919. The percentage of male to female births was 114·79 as compared with 113·90 in the previous year.

7. The birth rate exceeded the death rate by 2·06 per mille as compared with 1·37 per mille in 1919.

Deaths in Ajmer-Merwara.

8. The total number of deaths registered was 12,892 in 1920 against 14,375 in 1919, a decrease of 1,483. This decrease was due chiefly to there being no outbreak of Influenza and Plague during 1920. The death rate per mille of population was 25·71 as compared with 28·67 in the previous year.

9. The mortality among children under five years of age was 14 per cent. of the total deaths against 43 per cent. in the previous year.

10. 9,497 deaths from "Fevers" were reported against 11,054 in 1919, a decrease of 1,557 due to scanty rainfall.

11. Small-pox appeared in the month of December 1920 and continued till the close of the year. 325 deaths were reported against 73 in 1919.

INDIAN STATES.

12. *Mewar.*—In March there was an outbreak of small-pox, 54 cases and 4 deaths were reported from Untala Pargana.

13. In Udaipur the disease broke out in May and lasted till the end of June, 23 cases and 15 deaths were reported.

14. *Jaipur.*—There were 33 fatal cases of small-pox reported in Jaipur city during the year.

INFLUENZA.

15. *Ajmer.*—Influenza of a very mild type was reported from Ajmer city from January to May, 526 cases and 76 deaths having occurred.

16. *Mewar.*—Influenza of a mild type prevailed in Mewar from 28th March to 11th June, 109 cases with 8 deaths were reported from three towns.

Indian States.

17. *Marwar.*—The disease made its appearance in mild form in Jodhpur from about the beginning of March and lasted till the second week of April. During this period 354 cases were reported to have occurred. No deaths were recorded from the disease.

18. A special Hospital was started in Sardar Market from 15th March and one Sub-Assistant Surgeon was appointed to treat the sick patients at their homes from 1st March 1920.

19. 48 cases and 17 deaths were also reported from 3 towns and villages.

20. *Sirohi.*—The disease broke out in epidemic form at Abu Road from about the middle of February 1920 and continued till the end of March 1920. 239 cases and 54 deaths occurred in this town.

21. *Bikaner.*—In March 1920 Influenza was reported in Bikaner city, 89 deaths occurred. The disease abated in June 1920 and no death was reported from Influenza since then.

22. *Karauli.*—72 cases of Influenza were reported out of which 15 proved fatal. The first case occurred on 19th May 1920 and the last case on 20th June 1920.

Number of Cholera cases and deaths reported in Ajmer-Merwara and in Rajputana during the year 1920.

Name of District or State.	March.		April.		May.		June.		July.		August.		Total.		Percentage of deaths to cases.

23. The above table shows the total number of Cholera cases and deaths reported in Rajputana during the year 1920.

24. During the year under report Ajmer-Merwara was free from Cholera with the exception of one case and one death in Ajmer District in March.

Ajmer-Merwara.

25. During the year 564 cases of Cholera and 298 deaths were reported from the Indian States of Rajputana, against 1,312 cases and 795 deaths in 1919.

Indian States.

26. *Bharatpur.*—7 cases and 4 deaths were reported in two towns only from 25th April to 3rd June 1920.

27. *Dholpur.*—Only one imported case from Calcutta occurred in the town of Dholpur on 30th March 1920 which was cured.

28. *Tonk.*—Cholera broke out on the 27th April and lasted up to 11th June 1920. 462 cases and 201 deaths were reported.

29. *Jaipur.*—94 seizures with 93 deaths were reported in Jaipur city and Mayee village. Of these, 63 cases with 62 deaths occurred in Jaipur city from 8th June to 22nd August 1920.

30. Usual precautionary measures for its eradication were taken.

31. No Cholera map is necessary.

SANITATION.

32. The sanitary condition of Ajmer City is very bad. The whole system of Birat is wrong : but it seems impossible to alter it.

Ajmer City.

33. The municipality employs no sweepers for cleaning purposes, they only employ them on foul water and rubbish carts. Birat sweepers are supposed to clean the city and latrines on private contract.

34. There appears to be little discipline amongst the sweepers, even the Municipal men are most irregular in their attendance. The ideal of one Conservancy system under the Municipality who would arrange for all cleaning of galis, streets, and public latrines as well as removal of night-soil and filth would be a most expensive one : but would improve to a certain extent the insanitary condition of the City.

35. As in former years the night-soil, dirty water and refuse are collected in bullock and buffalo drawn carts and taken to a Tramway and then the rubbish is dumped on waste ground near the line and the night-soil and water disposed in trenches.

36. The whole system is tedious and offensive and one is liable to meet a "Dreadnought" at any hour of the day.

37. A motor for removing rubbish is being experimented with this year.

38. The Conservancy rolling stock is in urgent need of repair and the bullocks are much below strength.

39. The present number of public latrines is insufficient and personally I have found that people do not like using a red hot galvanized iron latrine in the hot months : the ventilated brick latrines lately erected in some United Provinces Municipalities seems to be much better.

40. Owing to the difficulty of buying receptacles for waste water, many watertight cesspools have been sanctioned, I fear they are mostly watertight in theory only.

41. Villages appear to be springing up in the suburbs without any system, these should not be allowed, except under strict supervision, only broad streets should be permitted and decent houses.

42. Many lanes and streets require paving.

43. No improvement has been made in the slaughter houses and butchers shops.

44. The water supply is insufficient : but a scheme has been started for augmenting the water supply and for having a main sewer with branches gradually added. There will be pail depôts at various places, the whole to

be water-flushed. This will be a great improvement if it ever comes into force but great care will have to be taken that the pail depôts are not sources of annoyance.

45. There are too many cases of Tuberculosis and Typhoid-fever. There has also been an epidemic of Small-pox and one of a comparatively mild form of Influenza.

46. The Sanitary Sub-Committee of the Municipality appears to be anxious to work for the remedy of many of these ills and I thank the Members who undertake the duties of Ward Superintendents and are regular attendants both at the meetings of the conservancy Sub-Committee and the weekly inspections of the city.

47. The Sanitary Inspector Mahomed Raza Khan does his best and is a hardworking man : but the work and responsibility are more than one man can manage. I hope a good Assistant Health Officer will soon be appointed.

Ajmer Sub-Division—

1. Pushkar.
2. Jethana.
3. Harmara.
4. Srinagar.
5. Beer.
6. Ramsar.

Kekri Sub-Division—

7. Junia.
8. Mehrun Kalan.

Merwara Sub-Division—

9. Peawar.
10. Jawaja.
11. Todgarh.
12. Bhim.
13. Barar.

48. The Commissioner, Ajmer-Merwara, reports that the rules for the improvement of village Sanitation were restricted to the same villages as last year as detailed on the margin.

49. The Sanitary condition of the villages in all the three Sub-divisions was satisfactory except in the two villages in the Kekri Sub-division. The people realize the necessity and advantages of Sanitation.

50. The interior portion of the Ajmer town is in a very insanitary condition and requires more cleanliness. The attention of the Municipal Committee has been drawn to this matter.

VACCINATION.

STATEMENT I.

51. In Ajmer-Merwara including Nasirabad, the total number of persons vaccinated rose from 11,736 in 1919-20 to 14,242 in 1920-21, the total number of Primary Vaccinations from 11,492 to 14,154 and the number of Primary successful Vaccinations from 10,612 to 13,421.

52. The number of Vaccinators was 15 with one Native Superintendent, the same as in the previous year. Each Vaccinator performed an average of 949 as compared with 782 vaccinations in 1919-20.

53. Fresh calf lymph was obtained from the Punjab Vaccine Institute at Lahore and was of good quality.

54. The Civil Surgeon, Ajmer-Merwara, inspected 1,221 vaccinated children against 805 in 1919-20, 1,191 of whom were found successful.

55. The Superintendent of Vaccination at Nasirabad examined 732 children against 520 in 1919-20, all of whom were found successful.

56. The Assistant Superintendent of Vaccination, Ajmer-Merwara, inspected 304 villages against 278 in 1919-20 and examined 5,032 vaccinated children against 4,428 in the previous year.

57. The number of persons successfully vaccinated per 1,000 of population was 27·20 against 21·16 in 1919-20.

58. Vaccination operations are carried on with some difficulty as many persons conceal their children and refuse to produce them for vaccination, so no efficient protection can be afforded.

59. The vaccination returns from the Indian States show a considerable increase in numbers during the season under report. The total number of Primary vaccinations in Indian States was 234,803 of which 2,19,617 were success-

General operations in Indian States.

ful as compared with 213,937 Primary and 203,350 successful operations in 1919-20. Re-vaccination fell from 1269 in 1919-20 to 507 in the year under report.

60. There were 182 vaccinators against 180 vaccinators in 1919-20, 3 additional vaccinators having been employed, 1 in Shahpura and 2 in Banswara, and 1 less in Bharatpur. No vaccinator was employed in Deoli Cantonment during the season; vaccinations were performed by the Sub-Assistant Surgeon attached to the Agency Hospital there.

61. 20·85 per thousand of the population in the Indian States were successfully vaccinated against 19·37 in 1919-20.

Expenditure on Vaccination in Ajmer-Merwara.

62. The total expenditure on vaccination in Ajmer-Merwara was Rs. 4,363-8-4 against Rs. 4,029-4-10 in 1919-20. The average cost of each successful case was 61 pies against 71 pies in 1919-20.

Expenditure on Vaccination in Indian States.

63. The total expenditure of Indian States was Rs. 50,041-4-0 as compared with Rs. 41,913-1-9 in the previous season, the increase in cost being due to pay and travelling allowance to vaccination staff. The average cost of each successful vaccinations in different States varied from 297 pies in Abu to 11 pies in Deoli.

64. The following table shows the number of towns and villages inspected and vaccinations seen by Residency or Agency Surgeons in Indian States:—

Designation.	Number of towns and villages inspected.	Number of vaccination cases seen.
The Residency Surgeon, Western Rajputana States, Jodhpur .	175	2,908
The Principal Medical Officer, Bikaner State	2	2,836
The Agency Surgeon, Eastern Rajputana States, Bharatpur .	23	1,839
The Residency Surgeon, Mewar, Udaipur	12	621
The Agency Surgeon, Kotah & Jhalawar	694	4,440

65. The Indian Superintendents of vaccinations and other inspecting Officers in Indian States inspected 74,436 vaccinations, against 76,933 in 1919-20. The percentage of cases found successful among the total number seen in 1920-21 was 91·34 against 96·79 in the previons season.

66. Lymph is maintained throughout the year in most of the States. Glycerinated lymph was obtained during the year from the Government Lymph Depôts and was satisfactory.

SECTION II—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

67. On the 1st January 1920, there were 178 Hospitals and Dispensaries of all classes open; and on the 31st December 1920, there were 184. This represents a gain of six Dispensaries in the Bikaner State which have been open for some time but were not included in the Annual Report before, but are shown this year by the Principal Medical Officer, Bikaner.

68. The Dispensaries are classified as under :—

I State Public	8
II State Special	13
III Private non-aided (*i.e.*, Indian States)	163
Total .	184

69. Besides these there are now seven Mission Hospitals and Dispensaries and one Hospital and 9 Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana.

Improvements and additions to Hospitals and Dispensaries.

70. *Jaipur.* A sum of Rs. 1,480 was received on account of the rent of the Curzon Wyllie Wards, which sum was spent in laying Rayawala Marble flooring, etc., in the wards and other improvments.

71. The sum of Rs. 2,455 was spent in affecting improvements and additions to the buildings of the Mayo Hospital.

72. *Bikaner.* The X-Ray apparatus sanctioned in 1919, was received during the year and has been working quite satisfactorily.

73. The Electric treatment apparatus has also been received and has proved very useful.

74. *Udaipur. Udaipur Lansdowne Hospital.*

Some minor external improvements have been carried out. The site of the Hospital precludes improvements on a large scale.

75. The question of building a new and up to date hospital outside the city will again be brought to the notice of the Darbar by the Residency Surgeon, Mewar.

76. Some new and up to date eye instruments were procured from England during the year.

77. *Dungarpur.* The Political Agent, Southern Rajputana States, intimates that Rs. 50,000 have been provided for an extension of the present building and the work is to be pushed on as fast as possible.

STATEMENT B.

Attendance at Hospitals.

78. During the year under report the number of patients treated at State Public, State Special and Private Non-aided (*i.e.*, Indian States) Dispensaries and Hospitals amounted to 1,527,593 against 1,513,349 in 1919, an increase of 14,244 which is attributable to the six dispensaries in the Bikaner State included this year.

79. Of the total number of patients, treated 19,454 were in-door and 1,508,139 out-door as compared with 18,623 in-door and 1,494,726 out-door in 1919. The number of deaths fell from 703 in 1919 to 676 in 1920 and the ratio of deaths per cent. of total treated fell from 3·77 in 1919 to 3·47 in 1920.

STATEMENTS C(I) AND C(II).

Diseases Treated.

80. In Statement C(I) the number of deaths under each head of diseases treated in the in-door department is shown ; 20,053 in-patients were treated with a mortality of 669 as compared with 18,623 in-patients and 703 deaths in 1919. The difference of 599 patients between columns 8 and 54 of Statements B and C(I) is due to 599 out-door labour cases being included in Statement C(I).

81. Five hundred and ninety-nine normal confinements with one death and 122 Abnormal confinements with 8 deaths were reported from the various hospitals, as compared with 219 with no death and 182 with 3 deaths respectively in 1919.

82. 1,508,139 out-door patients treated in 1920 are shown in Statement C(II) against 1,494,726 in the previous year.

83. The cases treated in the Hospitals and Dispensaries under each chief disease during the years 1918, 1919 and 1920 are as follows :—

Diseases.	1918	1919	1920
Malarial Fever	225,524	254,233	228,074
Diseases of the eye	243,256	239,795	257,751
Dysentery and Diarrhœa	46,304	53,095	43,909
Ulcers	133,202	137,686	143,701
Skin diseases	168,728	180,166	185,630
Syphilis	11,661	11,288	11,315
Injuries	37,952	41,837	47,182
Tubercle of the Lung	1,535	1,315	1,404
Abscess of the Liver	157	162	268

Scurvy.

84. Four hundred and eight cases of Scurvy were treated in 1920 against 520 in 1919 and 551 in 1918. Of these 112 were in Mewar, 73 in Jaipur, 55 in Marwar, 44 in Bikaner.

Leprosy.

85. Two hundred and ninety-six Lepers received treatment in 1920 (of these 92 in Jaipur) against 321 in 1919 and 416 in 1918. The Superintendent of Dispensaries and Vaccination, Jaipur, reports that Liproline was injected in 37 cases of leprosy of both the tubercular (or nodular) and the anæsthetic varieties, in 10 of which there was marked benefit, the rest having more or less improved.

Tubercular Diseases.

86. The Superintendent of Dispensaries and Vaccination, Jaipur, writes that there were weekly injections of Tuberculin (Bacillary Emulsion) in 193 cases for different types of tuberculosis as shown in the following headings :—

Tubercular adenitis mostly cervical and tabes Mesenterica	42
Necrosis of bone	23
Sinus without caries	15
Pulmonary Phthisi	85
Tubercular abscess	14
Do. Ulcers	12
Do. appendicitis	2
Total	193

Of these the gland cases received most benefit.

Plague.

87. During the year from 1st April 1920 to 31st March 1921, 855 plague seizures and 652 deaths were reported in 53 towns and villages infected in the

Indian States in Rajputana; as compared with 152 seizures and 106 deaths in 18 towns and villages in 1919-20.

88. The percentage of total plague deaths to population was 1·34 as shown in table attached as compared with 1·48 in 1919-20.

89. No plague case or death was reported in Ajmer-Merwara during the year 1920-21.

Ajmer-Merwara.

90. *Bharatpur.*—The disease first appeared in the village of Nai in Nadbai Tehsil on the 27th February 1921 in a mild form. 7 villages of Nadbai Tehsil were affected. The disease is still lingering in the State. From the 27th February to 28th March 1921 29 cases and 18 deaths were reported against 92 cases and 57 deaths in the last year. The disinfection of the infected houses is being carried out and the Sub-Assistant Surgeon, Nadbai, has been supplied with Tincture Iodine for plague use.

Indian States.

91. *Marwar.*—462 cases will 394 deaths were reported in 19 towns and villages.

92. The disease first broke out in Bali town on 31st July 1920 and continued till the 22nd September 1920.

93. All necessary and practicable measures, including inoculations and evacuation of villages, were taken to check the spread of the disease.

94. *Mewar.*—363 cases and 240 deaths were reported in 26 towns and villages.

95. Plague first broke out in Kapasin town on the 16th August and remained there up to the 24th October.

96. 233 persons were inoculated.

Snake bite.

97. Anti-venine is kept in stock in most of the main Dispensaries and used for the treatment of Snake Poisoning when opportunity offers. No special report has been received on the subject.

STATEMENT F.

98. This statement shows the classes and sexes of both in and out-door patients treated in the Dispensaries of Ajmer-Merwara and of Indian States of Rajputana. This calls for no comment, as it is merely introduced for statistical purposes.

STATEMENT G.

99. The number of surgical operations performed during the year in Ajmer-Merwara and in Indian States was 77,654 against 78,534 in 1919 or a decrease of 880. The number of patients operated on was 77,406 against 78,037, the number cured was 76,218 against 76,819, the number relieved 636, discharged otherwise 203, and died 98 as compared with 693, 188 and 89 respectively in 1919; while 251 remained under treatment at the end of the year.

100. Of the operations performed 2,019 were Extractions of the lens for Cataract, of which 1,929 or 95·54 per cent. were reported successful, 48 Lithotomies, 173 Litholapaxies and 215 Amputations, against 1,995, 55, 138 and 196 respectively in 1919.

101. 494 operations were performed on the Abdomen of which 28 proved fatal as compared with 467 operations with 18 deaths in 1919. Of these 328

were Paracentesis of Abdomen with 7 deaths, 24 Abscess of Liver with 5 deaths, 19 Laparotomies with 7 deaths, and 45 Radical Cure of Hernia with no death against 303 Paracentesis of Abdomen with 10 deaths, 24 Abscess of Liver with no death, 10 Laporotomies with 2 deaths and 46 Radical Cure of Hernia with 1 death in the previous year.

102. The total number of Surgical operations of all kinds performed in the Ajmer-Merwara District in 1920 was 3,836 with 4 deaths against 3,927 with 1 death in 1919 showing a decrease of 91 operations.

103. Of the total number of operations performed in the Ajmer-Merwara District 1,314 were done at the Ajmer Victoria Hospital with 2 deaths against 1,248 with 1 death, an increase of 66 operations.

104. Of these operations 34 were Extraction of the Lens for Cataract, 9 Lithotomies, 1 ovariotomy, 8 Amputations and 5 Radical Cure of Hernia.

105. 3,490 operations of all kinds were performed at the Mayo Hospital, Jaipur, with 19 deaths as compared with 2,520 operations with 15 deaths in the previous year. Of these 548 were Extraction of the lens for Cataract, 1 Lithotomy, 68 Litholapaxies, and 15 Amputations.

106. 1,650 operations of all kinds were performed in the Hewson General Hospital, Jodhpur, with 6 deaths as compared with 1,801 operations with 15 deaths. Of these 134 were Extraction of the Lens for Cataract, 7 Lithotomies, 44 Litholapaxies and 33 Amputations.

107. 2,639 operations of all kinds were performed in the Bhagwan Dass Hospital, Bikaner, as compared with 2,022 operations in 1919, of these 155 were Extraction of the Lens for Cataract, 1 Lithotomy, 4 Lithotrities, 15 Litholapaxies and 12 Amputations.

108. 2,226 operations of all kinds were performed in Victoria Hospital, Bharatpur, of these 512 were Extraction of the Lens for Cataract, 6 Lithotomies, 19 Litholapaxies and 16 Amputations.

109. 2,058 operations were performed in the Alexandra Hospital at Alwar against 2,182 in 1919. Of these 137 were Extraction of the Lens for Cataract, 11 Lithotomies, 2 Litholapaxies and 16 Amputations.

110. 1,522 operations were performed in the Kotah City Hospital. Of these 77 were Extraction of the Lens for Cataract, 4 Lithotomies and 11 Amputations.

111. 2,797 operations were performed in the Lansdowne Hospital at Udaipur, of these 19 were Extraction of the Lens for Cataract and 10 Litholapaxies.

STATEMENTS H. AND J.

Financial Statements.

112. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals and only expenditure on those in Indian States.

113. The total income of the hospitals and dispensaries in Ajmer-Merwara was Rs. 37,388 as compared with Rs. 35,439 in 1919, an increase of Rs. 1,949 chiefly from Imperial Revenues towards the cost of establishment and Europe Medicines.

114. The value of invested capital remained the same as in the previous year.

115. The total expenditure of the Ajmer-Merwara Dispensaries was Rs. 35,558 as compared with Rs. 32,654 in 1919, an increase of Rs. 2,904.

All heads of expenditure, except Bazaar medicines and diet, show increase owing to highly enhanced prices of all necessary articles and due to increased rate of revised scale of pay of Sub-Assistant Surgeons, compounders and inferior servants.

116. *Indian States.*—The total expenditure of hospitals and dispensaries in Indian States of Rajputana was Rs. 5,97,040 against Rs. 5,22,380 in 1919, an increase of Rs. 74,660 due to large increase of expenditure incurred for establishment, medicines and miscellaneous charges (this last includes Rs. 23,554 for the X-Ray apparatus, etc., purchased by the Bikaner State) owing to the highly enhanced prices of all necessary articles and due to the increase in the pay of Government Sub-Assistant Surgeons in accordance with the new scale of pay sanctioned by the Government from 1st July 1920.

117. Of the total expenditure on hospitals and dispensaries in Indian States Rs. 1,14,781 were expended in Bikaner, Rs. 90,027 in Jaipur, Rs. 88,568 in Marwar, Rs. 63,578 in Mewar, Rs. 61,262 in Kotah, Rs. 37,194 in Bharatpur, Rs. 36,815 in Alwar, Rs. 17,429 in Jhalawar, Rs. 14,752 in Dholpur, Rs. 14,716 in Tonk, Rs. 9,764 in Karauli, Rs. 6,711 in Banswara, Rs. 6,632 in Kishangarh, Rs. 6,391 in Sirohi, Rs. 5,274 in Shahpura, Rs. 4,985 in Dungarpur, Rs. 4,131 in Bundi, Rs. 3,523 in Partabgarh, Rs. 3,379 in Jaisalmer and Rs. 1,437 in Kushalgarh.

118. The average cost of each case treated in Ajmer-Merwara and in the Indian States hospitals and dispensaries was 94 pies and 80 pies against 94 pies and 72 pies in 1919.

Mission Hospitals.

119. During the year under report the number of Mission Hospitals in Rajputana was 7.

120. The following table shows the total number of in and out-door patients treated and operations performed in 1920.

Name of hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer . .	22,067	10,641	32,708	24	672	
Ajmer Women's Hospital.	6,582	4,297	10,879	575	384	2,211 were visited at their homes.
Nasirabad . .	13,771	7,111	20,882	260	261	650 were visited at their homes.
Jaipur . . .	7,698	2,343	10,041	53	95	765 were visited at their homes.
Piploda . .	7,177	2,463	9,640	...	59	144 were visited at their homes.
Jodhpur . .	17,281	8,094	25,375	110	525	
Udaipur . .	36,012	15,892	51,904	179	1,469	
Total .	110,588	50,841	161,429*	1,201	3,465	

* Medical statistics of these hospitals are for the Mission year from 1st October 1919 to 30th September 1920.

Railway Hospitals.

121. 813 in and 61,595 out-door patients were treated and 1,834 operations performed during the year in 10 Railway Dispensaries of the Bombay,

Baroda and Central India Railway within the limits of Rajputana as per detail below :—

Station.	Number of patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer including 2 branch dispensaries.	246	29,008	29,254	909	
Phulera . . .	145	5,726	5,871	27	
Bandikui	247	8,022	8,269	295

Gangapur . . .	34	5,851	5,885	86	
Sewai Madhopur . .	...	2,169	2,169	69	
Total .	813	61,595	62,408	1,834	

Jails.

122. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail was 306·73 against 301·13 in the previous year. The total number of admissions into Hospital and the daily average number of sick rose from 135 and 5·27 in 1919 to 157 and 7·60 in 1920.

123. Three deaths occurred among the convicts during the year against one among the convicts and two among the undertrials during 1919. Of the 3 deaths 1 was due to Secondary Hæmorrhage in a convict 50 years' of age, 1 to Tuberculosis of Lungs in a young prisoner aged 27 years and 1 to Debility in an old female prisoner admitted to Jail in indifferent health.

124. The Review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment and conduct of prisoners, nature of sentences, Jail manufactures and expenditure of the Jail is given as Appendix A of the report together with statements.

Indian States.

125. The daily average of prisoners in the Jails in the Indian States rose from 3,615·28 in 1919 to 3,659·77 in 1920, the total number of admissions into Hospitals from 1,671 to 1,707, and the daily average number of sick from 72·91 to 81·10 but the mortality and the ratio of deaths per mille of average strength fell from 126 and 34·85 in 1919 to 97 and 21·04 in 1920.

126. There was no cholera or other epidemic disease in any of the Jails in Rajputana.

127. There were no deaths in the Jails at Kishangarh, Shahpura, Jhalrapatan, Jaisalmer and Partabgarh.

128. *Jaipur.*—At the Central Jail, Jaipur, there has been overcrowding throughout the year. The daily average number of prisoners fell from 612·41 in 1919 to 594·93 in 1920 but the total number of admissions into Hospital rose from 83 to 128, the mortality from 13 to 16, and ratio of deaths per mille of average strength from 21·23 to 26·89.

129. In the District Jail the daily average number of prisoners fell from 180·66 in 1919 to 157·44 in 1920 and total admissions to Hospital from 32 to 31,

but the daily average number of sick rose from 2·23 to 2·27, mortality from 4 to 8 and ratio of deaths per mille of average strength from 22·14 to 50·81.

130. In the Shahpura and Partabgarh Jails no prisoner is reported to have been treated as an in-door patient during the year under report.

131. *Jodhpur.*—In the Jodhpur Central Jail the average number of prisoners was 511·16 against 589·74 in 1919. The number of in-door patients admitted into Hospital was 102 as compared with 169 in the previous year.

132. Three deaths occurred, the number being 20 in the last year. The death rate decreased from 33·91 to 5·87.

133. The causes of deaths are given below :—

Anæmia	1
Pneumonia	1
Diseases of the eye	1

134. *Bikaner.*—The daily average number of prisoners rose from 289·69 in 1919 to 314·46 in 1920, total admissions to Hospital from 49 to 99, daily average number of sick from 1·63 to 2·72, mortality from 3 to 10 and ratio of deaths per mille of average strength from 10·43 to 31·80.

135. *Udaipur.*—There has been overcrowding in the Jail throughout the year. The health of the prisoners during the year has been good. There were 8 deaths as compared with 9 in the year 1919.

136. The deaths were due to the following causes :—

Diarrhœa	3
Pneumonia	3
Peritonitis	1
Scurvy	1

137. The daily average number of sick during the year was 7·67 and the ratio of deaths per mille 14·04.

138. The daily average number of sick and the ratio of deaths in Jail per mille of strength were :—

	Sick.	Deaths.
Bharatpur Jail—		
In 1919	34·69	68·70
In 1920	47·57	68·16
Dholpur Jail—		
In 1919	6·84	77·25
In 1920	6·29	32·88
Karauli Jail—		
In 1919	9·55	15·92
In 1920	12·61	34·07

139. *Alwar.*—Accommodation is provided for 528 prisoners. The maximum population on any one day was 350, so there was no overcrowding throughout the year. Daily average strength was 339.

140. There were 11 deaths which were due to the following causes :—

Pneumonia	8
Respiratory system	1
Diseases of connective tissue	1
General injuries	1

141. *Kotah.*—133 cases received treatment in the Jail Hospital during the year out of the daily strength of 215·66. Of these 129 were cured, 4 died and 4 remained under treatment. The deaths were due to the following causes :—

Pneumonia	1
Scurvy	2
Anæmia	1

142. The daily average number of sick was 7·15.

Qualified Medical Staff.

143. Lieutenant-Colonel P. B. Haig, C.B., I.M.S., Civil Surgeon, Ajmer, and Chief Medical Officer, Rajputana, proceeded on 9 months' combined leave from 28th February 1920. The leave was extended by eight months and 28 days' furlough preparatory to retirement.

144. Lieutenant-Colonel L. J. M. Deas, I.M.S., carried on the duties of Civil Surgeon, Ajmer, and Chief Medical Officer, Rajputana, from the 28th February to the 3rd April 1920 inclusive in addition to his duties as Residency Surgeon, Jaipur.

145. He was posted as Civil Surgeon, Ajmer, and Chief Medical Officer, Rajputana, with effect from the 4th April 1920, and until further orders.

146. He proceeded on twelve months' combined leave from 20th October 1920. Major R. H. Lee, I.M.S., was appointed to officiate as Civil Surgeon Ajmer and Chief Medical Officer, Rajputana, in addition to his own duties as Agency Surgeon, Kotah and Jhalawar, from 20th October to 1st December 1920.

147. On return from combined leave Lieutenant-Colonel J. W. Watson, C.I.E., I.M.S., was appointed as Civil Surgeon, Ajmer and Chief Medical Officer, Rajputana, from 2nd December 1920.

148. The appointment of Residency Surgeon, Jaipur, was abolished with effect from the afternoon of the 3rd April 1920, *i.e.*, the date on which the control of medical arrangements in Jaipur was transferred to the Jaipur Darbar.

149. Major J. McPherson, I.M.S., was appointed as Agency Surgeon, Eastern Rajputana States, Bharatpur, with effect from the 16th July 1920.

150. Major R. H. Lee, I.M.S., was posted as Agency Surgeon, Kotah and Jhalawar, with effect from the 13th September 1920.

151. The following Officers of the Indian Medical Service held temporary visiting charge of the Residency and Agency Surgeoncies as noted against their names, from and to the dates specified, in addition to their own duties :—

Lieutenant-Colonel J. W. Watson, C.I.E., I.M.S., Agency Surgeon, Eastern Rajputana States, Bharatpur.	Kotah and Jhalawar Agency Surgeoncy from 1st January to 22nd March 1920.
Major J. McPherson, I.M.S. Agency Surgeon, Eastern Rajputana States, Bharatpur.	Jaipur Residency Surgeoncy from 28th September to 31st December 1920.
Lieutenant-Colonel F. D. S. Fayrer, I.M.S., Residency Surgeon, Mewar.	Office of Medical Officer, Mewar Bhil Corps, Kherwara, from 1st January to 31st December 1920.

Military Assistant Surgeon.

152. Senior Military Assistant Surgeon Lieutenant W. F. A. Parrott, I.M.D., was in charge of the Northern India Salt Revenue Dispensary at Sambhar upto the 14th July 1920 when he was transferred to E. B. State Railway.

153. Military Assistant Surgeon, 3rd Class, G. J. Cowper was posted to the Northern India Salt Revenue Dispensary at Sambhar with effect from the 15th July 1920.

Civil Assistant Surgeons.

154. There were five Government Civil Assistant Surgeons, two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri and one at Jodhpur. The Assistant Surgeon at Bharatpur was transferred to the Jodhpur State in August 1920.

Military Sub-Assistant Surgeons.

155. Five Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana against 8 in the previous year.

Civil Sub-Assistant Surgeons.

156. Out of 118 Government Sub-Assistant Surgeons who were on the roll on the 1st January 1920, two were transferred from Marwar State to Rajputana Government Service. Thus at the close of the year 116 Government Sub-Assistant Surgeons remained on the roll including 4 Sub-Assistant Surgeons transferred tomporarily to Military Duty.

157. The number of Lady Doctors employed in the Indian States in Rajputana was 3, stationed as below, instead of 5 in the previous year. Mrs. Sterling at Jodhpur resigned on the 19th February 1920 and Miss Sykes in charge of the Female Wards of the Mayo Hospital, Jaipur, died of pneumonia on 18th September 1920.

Kotah	1
Tonk	1
Udaipur	1

158. There were two Lady Assistant Surgeons attached to the Lady Curzon Zenana Hospital, Bikaner.

159. The Female Sub-Assistant Surgeons were in charge of the Female Hospitals in Rajputana at the following places:—

Jodhpur	1
Jaipur	1
Alwar	1
Kishangarh	1
Beawar	1

160. Female Sub-Assistant Surgeon Bala Bai who was in charge of the Lady Dufferin's Hospital, Alwar, died on 28th May 1920.

Female Hospitals and Dai Class.

161. *Ajmer.*—Two Lady Doctors have remained attached to the Mission Hospital for women at Ajmer throughout the year. They and their subordinates have done much good work in the Hospital and in Zenana work. The number of patients treated and other medical work done is shown under the Mission Hospitals.

162. *Beawar.*—Miss Q. Houlton, Female Sub-Assistant Surgeon, has been in charge of the Women's Ward of the Dispensary at Beawar throughout the year. 67 in and 5,591 new out-door patients were treated as compared with 42 in and 2,878 out-door patients in the previous year. The number of operations performed was 351, of which the following were important, against 501 operations in 1919 :—

1. Extractions of lens for cataract	5
2. Difficult Labour cases	5
3. Curetting of Uterus	1
4. Operations for Trichiasis	11
5. Paracentesis Abdominalis for Ascites	4
6. Dislocations and Fractures in various parts set	12
7. Operation for Imperforate Hymen	1
8. Amputation of Thumb	1

163. *Indian States.*—The returns received from the Female Hospitals in the Indian States of Rajputana show on the whole a general increase in both in and out-door attendance due to non-appearance of infectious diseases in epidemic form.

164. *Jodhpur.*—Mrs. Sterling, M.B., B.C.H., B.A.O. (Dublin), having returned from leave, resigned her service on the 19th February 1920. Since

then Female Sub-Assistant Surgeon Miss H. Paul has been working in her place in addition to her own duties. 64 in and 3,497 new out-door patients were treated against 51 in and 2,845 out-door patients in the previous year.

165. 80 minor operations were performed as compared with 82 minor operations in 1919.

166. Bagesri Bai, the Compounder, and Baya Bai, the Nurse, discharged their duties satisfactorily.

167. *Kotah.*—Miss J. Newton, L.R.C.P. & S. (Edinburgh) and L.F.P.S. (Glasgow), has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year. There were 242 in and 7,423 out-door patients treated as compared with 234 in and 6,693 out-door patients in 1919.

168. 9 in and 93 out-door Purdah Nashin women attended the Hospital.

169. 264 Operations were performed against 279 in 1919, of which the important operations were as follows :—

1. Excision of Uterine Myomata	1
2. Extraction of lens for Cataract	1
3. Entropion for both eyes	2
4. Abdominal section for malignant tumour	1
5. Operation for Atresia of Cervix	1
6. Application of forceps for funis presentation and tedious labour cases	3
7. Craniotomy for occipito Posterior	2
8. Turning for transverse presentation	1
9. For Congenital Malformation of anus	1
9. Curretting of Uterus	4
10. Extraction of Placenta and membranes	1

170. Ten Maternity and other cases were attended by the Lady Superintendent in the City and 81 by Female Sub-Assistant Surgeon Miss Helen Buldeo Singh. 60 Midwifery cases were treated by the Hospital Midwife in the City.

171. *Jaipur.*—It is regretted to state that Miss L. E. Sykes, M.D. (Brussels), L. R. C. P. & S. (Edinburgh) and L. F. P. S. (Glasgow), in charge of the Female Wards of the Mayo Hospital, Jaipur, died of pneumonia on 18th September 1920. Since then Female Sub-Assistant Surgeon Nangi Bai has been in sole charge of the Female Department and does her work quite satisfactorily. The number of in and new out-door patients treated was 930 and 16,113 respectively against 701 in and 12,297 new out-door patients in 1919.

172. *Udaipur.*—Mrs. G. Collins has been in charge of the Walter Zenana Hospital, Udaipur, throughout the year. 80 in and 2,316 out-patients were treated against 60 in and 2,420 out-patients in 1919.

173. 77 operations were done as compared with 72 operations in the previous year.

174. *Bikaner.*—Miss G. A. Postwalla, M.B., B.S., Lady Assistant Surgeon, has been in charge of the Lady Curzon Zenana Hospital, Bikaner, throughout the year. 211 in and 2,659 new out-door patients were treated as compared with 173 in and 3,290 new out-door patients in 1919. 61 major and 201 minor operations were performed against 37 major and 576 minor operations in the previous year.

175. Miss M. A. Postwalla, M.B., B.S., was appointed as a Second Lady Assistant Surgeon for the Zenana Hospital from 28th June 1920 and has done her work satisfactorily.

176. *Tonk.*—Lady Doctor Mrs. M. DeSouza has been in charge of the Walter Zenana Hospital, Tonk, throughout the year under the supervision of the State Surgeon, Tonk State. The number of in and out-door patients was 148 and 7,671 respectively against 154 in and 7,564 out-door patients in the previous year.

177. 58 major and 559 minor operations were done against 13 major and 323 minor operations in 1919.

178. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai was in charge of the Lady Dufferin's Hospital, Alwar, up to 27th May 1920. She died on 28th May. Since then Female Sub-Assistant Surgeon Sugna Bai has been working in her place as Superintendent of the institution. 218 in and 20,482 out-door patients attended the Hospital as compared with 276 in and 19,050 out-door patients in the previous year. 95 major and 1,057 minor operations were done against 84 major and 1,148 minor operations in 1919.

179. 520 Purdah Ladies were visited free at their homes and 34 obstetric operations were performed in 1920.

180. The hospital is well equipped and has got accommodation and Surgical instruments sufficient to meet requirements.

181. *Bharatpur.*—The Female Dispensary at Bharatpur remained without a Female Sub-Assistant Surgeon throughout the year. The work of the dispensary was carried on by one of the Male Sub-Assistant Surgeons attached to the Victoria Hospital there.

182. 323 in and 4,776 out-door patients were treated as compared with 285 in and 4,836 out-door patients in the previous year. 81 operations were performed in this Hospital in 1920.

183. The scheme for improving the condition of child birth in Bharatpur proved very successful and continued in operation throughout the year.

184. *Kishangarh.*—Female Sub-Assistant Surgeon Mrs. L. A. Scott has been in charge of the Female Hospital, Kishengarh, throughout the year. 11 in and 4,646 new out-door patients attended the Hospital against 28 in and 4,232 new out-door patients in 1919.

185. Trained local dais attached to the Hospital were often called by the Public for labour cases while Lady Sub-Assistant Surgeon was sent for to attend abnormal cases.

186. *Dai Class, Ajmer.*—Mrs. Conolly has been in charge of the Maternity Home, Ajmer, throughout the year under the supervision of the Lady Doctors of the Women's Mission Hospital, Ajmer. Seven pupils who were admitted into the Dai Training Class on the 1st August 1919 worked till the end of the session when they were examined by the Civil Surgeon, Ajmer, on the 10th May and 21st June 1920 respectively. 5 of them passed and were granted certificates, and the usual honorarium.

187. 7 pupils were admitted into the current year's class, of whom 3 came from Jaipur, 3 from Alwar and 1 from Jodhpur. 2 pupils, Gulab Bai of Alwar and Gendi Bai of Bharatpur, who successfully passed their final examination in May 1920, were re-admitted for the second year's course in August 1920.

188. The Dais under training, while in the Maternity Home have seen 5 cases in the Home, and 22 in the city. While living at the Mission Female Hospital they have seen 32 cases in the hospital and 33 cases in the city. Of these they have conducted under supervision 29 cases.

189. There have been no local Dai classes in the Indian States of Rajputana during the year under report.

Imperial Service Troops.

190. The hospitals of the Indian States Imperial Service Troops are all well equipped. With the exception of those of the two Regiments of Imperial Service Lancers at Jodhpur they are under the medical charge of well qualified Military Sub-Assistant Surgeons and Raj Service Sub-Assistant Surgeons. Each regiment of the latter is under the medical charge of a State-enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been under the medical charge of the Raj Service Sub-Assistant Surgeon.

Insanes.

191. *Ajmer*—Three lunatics remained in the Central Jail, Ajmer, on the 1st January 1920. 26 were admitted during the year making a total of 29. Of these 13 were transferred to the Lahore Lunatic Asylum, 7 discharged, 5 made over to their friends and relatives and 2 died. Two lunatics remained in the Jail at the close of the year.

192. *Indian States.*—134 Lunatics were treated against 149 in 1919. Of these 28 were cured, 25 discharged otherwise, 1 made over to his friends, 11 died and 69 remained in the Jails at the close of the year.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1920.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by the following officers. 1. Lieutenant-Colonel P. B. Haig, C.B., I.M.S., from the beginning of the year to the 26th February 1920. 2. Lt.-Colonel L. J. M. Deas, I.M.S., from the 27th February 1920 to the 19th October 1920. 3. Major R. H. Lee, I.M.S., from the 20th October 1920 to the 1st December 1920. 4. Lt.-Colonel J. W. Watson, C.I.E., I.M.S., from the 2nd December 1920 to the 31st December 1920.

2. At the commencement of the year there were 276 prisoners including convicts undertrial and civil prisoners. The number of prisoners admitted to the Jail during the year was 1,347 against 1,249 in the year 1919, of whom 642 were convicts, 699 undertrial and 6 civil prisoners. The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1919.	1920.
Convicts	583	627
Undertrial	690	676
Civil	6	8

The number of prisoners remaining at the close of the year was 312.

The daily average number of prisoners was 306·73, *i.e.*—

Convicts	267·50
Undertrial	38·97
Civil	0·26

3. *Disposal of convicts.*—The following table compares the disposal of convicts (627) during the year under review with that of the preceding year :—

—	1919.	1920.
Released on appeal	34	45
„ expiry of sentences	357	399
„ payment of fine	20	36
„ under remission rules for good conduct	141	105
Transferred to other jails	27	38
Died in Jail	1	3
Transferred to Lunatic Asylum	3	...
Escaped	...	1
TOTAL	583	627

4. Excluding 45 prisoners received from other jails, the remaining 597 convicts admitted into the Jail are classified as under :—

Hindus		410
Mohammadans		180
Christians	Europeans	3
	Indians	4
		597

5. Of the 597 convicts admitted into the Jail 54 were awarded simple imprisonment, 542 rigorous imprisonment, and 1 rigorous imprisonment with solitary confinement.

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 128 as against 135 in the previous year, their percentage to the total number of convicts admitted being 21·44.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 265·20.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 390 as compared with 417 in 1919.

9. One prisoner escaped and was recaptured during the year under review.

10. *Health.*—Out of a total of 597 convicts admitted into the Jail, 543 were in good health, 46 in indifferent and 8 in bad health. The number of admissions into the Jail Hospital was 157 against 135 in 1919. The number of deaths was the same as in last year, *viz.*, 3.

11. There were 2 juvenile prisoners on the 1st January 1920 in the Jail. 12 boys were admitted during the year under review of these 14 boys 10 were released and 4 remained at the close of the year.

12. The profits from Jail manufactures amounted to Rs. 4,634-2-2 against Rs. 4,931-5-3 in 1919. The average earning per head of prisoners employed on Jail manufactures being Rs. 37-12-9 against Rs. 40-2-10 in 1919, which is satisfactory considering the abnormal conditions which have continued during the year.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners including that incurred—

(1) by Public Works Department on the buildings and repairs, and

(2) by Magistrates in guarding and maintaining under-trial prisoners amounted to Rs. 60,597-9-11. The average cost per prisoner during the year was Rs. 147-14-1, against Rs. 139-11-9 last year.

14. Mr. Raj Narain, Jailor, continued to work well and maintained excellent discipline. The excellent state of the workshops and gardens is due to his energy and hard work.

S. B. A. PATTERSON, Lt.-Col.,
Commissioner, Ajmer-Merwara.

Fxd.—

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined *in the Ajmer Central Jail during the year 1920.*

Total	97,906	268·23	256	597	853	45	...	898	33	5	45	399	36	...	...	105	...	...	1	...	3	271	

* Of this number 12 boys under 16 years. † Of this number girls under 15 years. ‡ 17 males and 3 females released on 19th day of July 1919 on account of Peace Celebration.

NOTE 1.—In this and the other statements numbered 1 to 7 only convicted prisoners are to be included.

2.—Debtors and others detained for default of Government revenue will appear in No. 8.

3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the month.

4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.

5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the month, *vide* column 2, and dividing the whole by the number of days in the month.

6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.

7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

J. W. WATSON, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER CENTRAL JAIL:

No. 2200-C. of 1922, dated Camp Ajmer, the 7th September 1922.

From—Major H. R. N. PRITCHARD, O.B.E., I.A., Secretary to the Hon'ble the Agent to the Governor-General, Rajputana,

To—The Chief Medical Officer, Rajputana, Ajmer.

I am directed to return, after approval by the Hon'ble the Agent to the Governor-General, the final proof of the Report on Sanitation, Dispensaries and Jails in Rajputana for the year 1921 and on Vaccination for the year 1921-22, which was forwarded with your letter No. 2566, dated the 21st August 1922.

REPORT

ON

SANITATION, DISPENSARIES AND JAILS IN RAJPUTANA FOR 1921

AND ON

VACCINATION FOR THE YEAR 1921-22.

SECTION I.—SANITATION AND VACCINATION.

Meteorology and its Relation to Food Supply.

1. During the year under report 11·51 inches of rain were registered, in Ajmer against 21·98 inches in 1920, the average for the previous six years being 26·39 inches.

Rainfall in Ajmer.

2. The rainfall during the monsoon season from June to September was 11·22 inches as compared with 20·46 during the monsoon of 1920 showing a decrease of 9·24 inches.

3. The rainfall recorded in Rajputana was on the whole below the normal; owing to which the Kharif and to a lesser degree the Rabi Crops were not satisfactory; Scarcity of Fodder prevailed in most of the Province.

Rainfall in Indian States.

Vital Statistics, Births and Deaths.

4. According to birth returns 15,418 births were registered in 1921 against 13,927 in the previous year, an increase of 1,491.

Births in Ajmer-Merwara.

5. Of the total births registered 8,234 were males and 7,184 females. The birth rate was 31·13 per mille of population against 27·77 per mille in 1920. The percentage of male to female births was 114·62 as compared with 114·79 in the previous year.

6. The birth rate exceeded the death rate by 2·72 per mille as compared with 2·06 per mille in 1920.

7. The total number of deaths registered was 14,073 in 1921 against 12,892 in 1920, an increase of 1,181. This increase is due to high mortality from Small-pox and fevers.

Deaths in Ajmer-Merwara.

8. The death rate per mille of population was 28·41 as compared with 25·71 in the previous year.

9. The mortality among children under five years of age was 46 per cent. of the total deaths against 41 per cent. in the previous year.

10. 9,804 deaths from "Fevers" were reported against 9,497 in 1920, an increase of 307 due to high mortality from tuberculosis.

Small-pox.

11. It appeared in December 1920 continued till July 1921. 724 deaths were registered against 325 in 1920.

Indian States.

Small-pox.

12. *Jaipur.*—There were 126 deaths from Small-pox reported in Jaipur city during the year as compared with 33 in 1920.

13. *Mewar.*—Jahazpur town reported 91 cases and 16 deaths from 10th April to 10th May.

14. *Alwar.*—In Alwar city the disease broke out in April and lasted till the end of July, 56 cases and 42 deaths were reported.

INFLUENZA.

15. *Ajmer.*—404 cases with 12 deaths were reported from Influenza in Ajmer City against 526 cases with 76 deaths in 1920, showing a decrease of 122 cases and 64 deaths.

16. There was a large number of deaths recorded from pneumonia some of which were certainly Influenzal.

17. *Marwar.*—Influenza was reported from 3 villages in Marwar during March and April, 219 cases and 95 deaths having occurred.

Indian States.

18. *Bharatpur.*—There were 229 deaths from Influenza reported in the Bharatpur State. Of the total mortality 217 were reported from two towns, *i.e.*, Bharatpur city and Rupbas and the rest from one village. The disease lasted from 1st January to 25th February.

19. *Karauli.*—229 cases were reported from Karauli City, out of which 97 proved fatal. The first case occurred on 15th January and the last on 7th March.

20. *Mewar.*—122 cases and 13 deaths were reported from 2 towns in Mewar from February to April.

21. *Kotah.*—Influenza broke out in an epidemic form in Kotah City on 10th January and ended on 15th February.

22. There were in all 428 cases and 173 deaths reported including Kotah City, in which 377 cases and 153 deaths occurred.

RELAPSING FEVER.

23. *Kotah.*—This epidemic was first diagnosed on 24th February 1921 in Mochi Katra and its environs and ended on the 10th May 1921, causing 67 attacks and 42 deaths. A small dispensary was opened in Mochi Katra under the supervision of the Assistant Health Officer and a whole time Vaccinator was put therein.

24. The blood was examined microscopically and those found positive were given injections (intermuscular) of Novarsenobillon. These injections proved popular among the class infected.

25. All possible steps were taken to prevent migrating from one place to another and to locate the disease.

26. The above table shows the total number of Cholera cases and deaths reported in Rajputana during the year 1921.

Ajmer-Merwara.

27. During the year 46 cases of Cholera with 29 deaths were reported. Of these 44 cases and 28 deaths occurred in Ajmer City and 2 cases with 1 death in Beawar town.

28. This epidemic was carried to Ajmer City by the pilgrims proceeding to Pushkar from Ujjain where it was in an epidemic form in the second half of May 1921.

29. All precautionary measures were adopted.

Indian States.

30. During the year 5,297 cases of Cholera and 2,721 deaths were reported from the Indian States of Rajputana, against 564 cases and 298 deaths in 1920. These can mostly be traced to Ujjain Fair.

31. *Jaipur.*—There were in all 257 attacks and 217 deaths reported in 17 towns and villages including the Jaipur City and the Jaipur Mayo Hospital, from 7th May to 20th September 1921.

32. *Marwar.*—25 cases and 12 deaths were reported in 1 town and 2 villages during June and July.

33. *Mewar.*—463 attacks and 254 deaths were reported between May and September including Udaipur City, in which 154 cases with 96 deaths occurred from 11th August to 30th September. The number of towns and villages infected were 19.

34. *Alwar.*—Cholera made its appearance in the State early in June, and lasted till middle of September. During this period 386 cases were reported from the City, of which 228 died, while from the district 559 cases were reported with 410 deaths.

35. *Tonk.*—432 cases and 176 deaths were reported during September and October: of these 351 cases and 133 deaths occurred in Tonk City.

36. *Bundi.*—236 cases and 127 deaths were reported in Bundi City during September.

37. *Bharatpur.*—137 cases and 90 deaths were reported in 1 town and 7 villages from 13th June to 4th September.

38. *Karauli.*—74 cases with 74 deaths were reported in Karauli City during September and October.

39. *Kotah.*—Cholera broke out in an epidemic form in Kotah City on 24th May. Many inhabitants of Kotah City, Baran and other towns and villages on the Railway line had been to Ujjain Fair where Cholera was raging. Later the disease spread, 2,040 attacks with 887 deaths were reported in 76 towns and villages, including 377 cases and 169 deaths in Kotah City. The disease lasted in the State till October.

40. *Jhalawar.*—Cholera prevailed in the Jhalawar State during the months of May to September. 510 cases with 212 deaths were reported in 30 towns and villages.

41. *Bikaner.*—35 cases with 18 deaths were reported in Nohar town during June and July.

42. *Dungarpur.*—142 cases with 15 deaths were reported in Sagwara town during June and July.

43. The usual precautionary measures for its eradication were taken throughout Rajputana.

44. No Cholera Map is necessary.

SANITATION.

Ajmer City.

45. The sanitary condition of Ajmer City remains very bad. Some efforts have been made to improve it: but the struggle is against lack of funds and of a Sanitary Education of the people and a congested City.

46. It is a mystery to me why the death rate is not higher and why epidemics once started ever cease.

47. Previous remarks against the Birat system still hold good. It is thoroughly bad.

48. With regard to work done, a lorry for removing rubbish has been purchased, it does excellent work but upkeep expenses are very high. These will have to be reduced very considerably and 2 more lorries purchased.

49. An excellent set of new bullocks have been bought and the old ones weeded out, the stock are now fat and strong and more fit for work.

50. With regard to work proposed, the whole system of Trenching is being examined with a view to replace it with incineration. If successful this would save a great deal of money now spent in the Tramway, etc.

51. The number of public latrines is too small and private ones are not kept in good condition.

52. Villages in the Suburbs are increasing and there is no system in the regulation of the building of the huts: narrow lanes and filthy insanitary Latrines being the rule.

53. Many lanes and streets require repaving.

54. I hope that the Slaughter house will be improved this year. Butcher Shops are as bad as ever: but there is an idea of making at least one small market, in which all these shops will be collected for one quarter at least.

55. There is far too much Typhoid and Tuberculosis due to insanitary habits. The high death rate of Pneumonia is probably due to Influenza.

56. The water supply is insufficient for the needs of the population and owing to a bad monsoon is running short already. Proposals to dig new wells have been put forward but seem to have been filed. The water supply must be increased and as soon as possible. There is an idea that the water running from the trenching grounds returns to the main well supply of Ajmer (Bhaonta). It is partly for this reason that incinerators are recommended.

57. The Sanitary Sub-Committee of the Municipality appears to be anxious to work for the remedy of many of these ills and I thank the Members who undertake the duties of Ward Superintendents and are regular attendants both at the meetings of the Conservancy Sub-Committee and the weekly inspections of the city.

58. The Sanitary Inspector Mohamed Raza Khan does his best and is a hardworking man: but the work and responsibilities are more than one man can manage. I hope a good Assistant Health Officer will soon be appointed.

59. The Commissioner, Ajmer-Merwara, reports that the rules for the improvement of village Sanitation were restricted to the same villages as last year as detailed on the margin.

Ajmer Sub-Division.

1. Pushkar.
2. Jethana.
3. Harmara.
4. Srinagar.
5. Beer.
6. Ramsar.

Kekri Sub-Division.

7. Junia.
8. Mehrun Kalan.

Merwara Sub-Division.

9. Peawar.
10. Jawaja.
11. Todgarh.
12. Bhim.
13. Barar.

60. The Sanitary condition of the villages in all the three Sub-divisions is reported to have been satisfactory. The villages are kept clean and the health of the people is also satisfactory.

VACCINATION.

STATEMENT I.

61. In Ajmer-Merwara including Nasirabad Cantonment, the total number of persons vaccinated was 12,564 against 14,242 in 1920-21, a decrease of 1,678. The total number of Primary Vaccination fell from 14,154 in 1920-21 to 12,700 in 1921-22 and the number of Primary successful Vaccination from 13,421 to 11,693.

62. The aggregate of the both Primary vaccination and re-vaccination was 13,108, showing a decrease of 1,304 as compared with last year.

63. The average number of Vaccinators employed during the year under report was 15·39 with one Indian Superintendent. The increase of ·39 is due to the fact that a third vaccinator was employed for the Ajmer Municipal area in January 1922. Each Vaccinator performed an average of 816 operations against 949 in the previous year.

64. Fresh calf lymph was obtained upto 31st October 1921, from Punjab Vaccine Institute and thereafter from Manpur Vaccine Depôt in Central India whence it was received cheaper and of a good quality.

65. The Civil Surgeon, Ajmer-Merwara, inspected 861 vaccinated children in 11 towns and villages against 1,221 in 1920-21, of whom 852 were found successful.

66. The Superintendent of Vaccination, Nasirabad, examined 25 children against 732 in the last year of whom 14 were found successful.

67. The Indian Superintendent of the Vaccination, Ajmer-Merwara, inspected 329 towns and villages against 304 in 1920-21 and examined 4,600 vaccinated children against 5,032 in the previous year.

68. The number of persons successfully vaccinated per 1,000 of population was 24·06 against 27·20 in 1920-21.

69. Vaccination operations were carried on with great difficulty not only owing to persons concealing their children and refusing to produce them for vaccination but because villagers are now being misguided by Non-co-operatons.

General operations in Indian States.

70. The vaccination returns from the Indian States show a decrease in numbers during the season under report owing to non-receipt of the figures from Jaisalmer, Dholpur, Karauli and Kushalgarh. The total number of Primary vaccinations in Indian States was 221,903 of which 206,129 were successful as compared with 234,803 Primary and 219,617 successful operations in 1920-21. Re-vaccination rose from 507 in 1920-21 to 1905 in the year under-report.

71. There were 183 vaccinators against 182 vaccinators in 1920-21, 2 additional vaccinators having been employed in Marwar and 1 in Kushalgarh resigned. No vaccinator was employed in Deoli Cantonment during the season; vaccinations were performed by the Sub-Assistant Surgeon attached to the Agency Hospital there.

72. 20·99 per thousand of the population in the Indian States were successfully vaccinated against 20·85 in 1920-21.

Expenditure on Vaccination in Ajmer-Merwara.

73. The total expenditure on vaccination in Ajmer-Merwara was Rs. 4,671-11-2 against Rs. 4,363-8-4 in 1920-21. An increase of Rs. 308-2-10 is due to an increase of pay of vaccinators and in rate of travelling allowance. The average cost of each successful case was 75 pies against 61 pies in 1920-21.

Expenditure on Vaccination in Indian States.

74. The total expenditure of Indian States was Rs. 54,402-7-4 as compared with Rs. 50,041-4-0 in the previous season, the increase in cost being due to pay and travelling allowance to vaccination staff. The average cost of each successful vaccination in different States varied from 897 pies in Abu to 20 pies in Sirohi.

75. The following table shows the number of towns and villages inspected and vaccinations seen by Residency or Agency Surgeons in Indian States:—

Designation.	Number of towns and villages inspected.	Number of vaccination cases seen.
The Residency Surgeon, Western Rajputana States, Jodhpur .	21	3,041
The Principal Medical Officer, Bikaner State	2	2,057
The Residency Surgeon, Mewar, Udaipur	9	246
The Agency Surgeon, Kotah & Jhalawar	263	2,020
The State Surgeon, Alwar	294	2,361

76. The Indian Superintendents of vaccinations and other inspecting officers in Indian States inspected 66,896 vaccinations, against 74,436 in 1920-21. The percentage of cases found successful among the total number seen in 1921-22 was 95·14 against 91·34 in the previous season.

77. Lymph is maintained throughout the year in most of the States. Glycerinated lymph was obtained during the year from the Government Lymph Depôts and was satisfactory.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

78. During the year the number of hospitals and dispensaries remained the same as in the previous year, *viz.*, 184. The Travelling dispensary in Marwar was opened on 2nd July 1921 and the Bareta dispensary in Bharatpur was closed on the 11th February 1921.

79. The Dispensaries are classified as under :—

I. State Public	8
II. State Special	13
V. Private non-aided (*i.e.*, Indian States)	163
Total	184

80. Besides these there are now seven Mission Hospitals and Dispensaries and one Hospital and 9 Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana.

Improvements and additions to Hospitals and Dispensaries.

81. *Jaipur.*—The sum of Rs. 9,589 was spent in affecting improvements and additions to the buildings of the Mayo Hospital.

82. A sum of Rs. 2,624-3-3 was received on account of the rent of the Curzon Wyllie Wards, and was spent in laying Rayawala Marble flooring, etc., in the wards and other improvements.

83. The new block for females in memory of the late Lady Hardinge is ready for patients.

84. *Udaipur.*—The urgent need for a new up-to-date hospital for Udaipur City has been brought again to the notice of the Darbar by the Residency Surgeon, Mewar, and it is hoped that before very long this proposal will receive favourable consideration from them.

85. Medical supplies for this hospital, as well as for all other hospitals and dispensaries in Mewar were obtained from England. Some Surgical and eye instruments have also been obtained.

86. *Dungarpur.*—A new ten beds ward was opened for use in July for male patients and has been full ever since.

87. A new four beds ward was constructed for female patients as a gift from Her Highness Senior Maji Sahiba Shri Jodhpuriji.

88. Operation room, eye examination room, kitchen, latrines and post-mortem room have been improved.

89. The old dispensary building has been converted into dispensing room, outpatients department into consulting room and dressing room into medical stores.

90. The old post-mortem room was enlarged and converted into godown.

STATEMENT B.

Attendance at Hospitals.

91. During the year under report the number of patients treated at State Public, State Special and Private Non-aided (*i.e.*, Indian States) Dispensaries and Hospitals amounted to 1,608,065 against 1,527,593 in 1920, which shows an increase of 80,472 due to popularity of the Hospitals.

92. Of the total number of patients treated 20,114 were in-door and 1,587,951 out-door as compared with 19,454 in-door and 1,508,139 out-door in 1920. The number of deaths rose from 676 in 1920 to 809 in 1921 and the ratio of mortality rose from 3·47 to 4·03 per cent. in 1921.

STATEMENTS C(I) AND C(II).

Diseases Treated.

93. In Statement C(I) the number of deaths under each head of diseases treated in the in-door department is shown ; 20,680 in-patients were treated with a mortality of 809 as compared with 20,053 in-patients and 676 deaths in 1920. The difference of 566 patients between columns 8 and 54 of Statements B and C(I) is due to 566 out-door labour cases being included in Statement C(I).

94. 563 normal confinements with 1 death and 127 abnormal confinements with 11 deaths were reported from various hospitals, as compared with 599 with one death and 122 with 8 deaths respectively in 1920.

95. 1,587,385 out-door patients treated in 1921 are shown in Statement C(II) against 1,508,139 in the previous year.

96. The cases treated in the Hospitals and Dispensaries under each chief disease during the years 1919, 1920 and 1921 are as follows :—

Diseases.	1919	1920	1921
Malarial Fever	254,233	228,074	238,582
Diseases of the eye	239,795	257,751	267,153
Dysentery and Diarrhœa	53,095	43,909	52,168
Ulcers	137,686	143,701	147,424
Skin diseases	180,166	185,630	198,800
Syphilis	11,282	11,315	11,036
Injuries	41,837	47,182	47,942
Tubercle of the Lung	1,315	1,404	1,682
Abscess of the Liver	162	268	121

Scurvy.

97. Four hundred and twenty-eight cases of Scurvy were treated in 1921 against 408 in 1920 and 520 in 1919. Of these 166 were in Mewar, 48 in Jaipur, 60 in Marwar, 38 in Bikaner.

Leprosy.

98. Three hundred and forty-four Lepers received treatment in 1921 (of these 115 in Jaipur) against 296 in 1920 and 321 in 1919. The Superintendent of Dispensaries and Vaccination, Jaipur, reports that Leproline was injected in 31 cases of leprosy of both varieties and continued to give satisfaction. An emulsion of chaulmoogra oil prepared with a special vehicle is under trial, being injected hypodermically.

Tubercular Diseases.

99. The Superintendent of Dispensaries and Vaccination, Jaipur, writes that there were weekly injections of Tuberculin (B. E. and T. R.) and of *Sodum Morrhuate* in the latter part of the year due to scarcity of tuberculin. The number of patients treated thus was 117. Of these the distribution was as follows :—

Pulmonary Phthisis		72
Tubercular adenitis including tabes Mesenterica		16
Tubercular abscess		12
Do.	Sinuses	8
Do.	Caries of bones	5
Do.	Ulceration	4
	Total	117

100. In Ajmer many injections of Sodium Morrhuate and some of Tuberculin and E. C. Co were given for tuberculosis with varying results.

Plague.

101. During the year from 1st April 1921 to 31st March 1922, 223 plague seizures and 201 deaths were reported in 32 towns and villages infected in Ajmer-Merwara District and in the Indian States in Rajputana against 855 cases with 652 deaths in 53 towns and villages in the previous year.

102. The percentage of total plague deaths to population was 1·12 as shown in the table attached as compared with 1·34 in 1920-21.

AJMER-MERWARA.

103. 4 cases with one death were reported in Ajmer City during March 1922.

Indian States.

104. *Mewar.*—47 cases with 41 deaths were reported in 7 villages.

105. *Sirohi.*—Only one imported fatal case occurred at Ood village.

106. *Marwar.*—The disease persisted from the preceding year but was confined to Bali and Desuri Perghanas and continued till the end of April 1921. 93 cases with 91 deaths were reported in 13 towns and villages.

107. *Bharatpur.*—The disease lingered from the month of February 1921 and continued till the middle of April 1921. 78 cases and 67 deaths were reported in 10 towns and villages.

108. All precautionary measures were taken to check the spread of the disease.

Snake bite.

109. Anti-venine is kept in stock in most of the main Dispensaries and used for the treatment of Snake poisoning when opportunity offers. No special report has been received on the subject.

STATEMENT F.

110. This statement shows the classes and sexes of both in and out-door patients treated in the Dispensaries of Ajmer-Merwara and of Indian States of Rajputana. This calls for no comment, as it is merely introduced for statistical purposes.

STATEMENT G.

111. The number of surgical operations performed during the year in Ajmer-Merwara and in Indian States was 87,747 against 77,654 in 1920 or an increase of 10,093. The number of patients operated on was 87,742 against 77,406, the number cured was 86,535 against 76,218, the number relieved 597, discharged otherwise 194, and died 149 as compared with 636, 203 and 98 respectively in 1920; while 267 remained under treatment at the end of the year.

112. Of the operations performed 2,464 were Extractions of the lens for Cataract, of which 2,403 were reported successful, 49 Lithotomies, 151 Litholapaxies and 214 Amputations against 2,019, 48,173 and 215 respectively in 1920.

113. 477 operations were performed on the Abdomen of which 32 proved fatal as compared with 494 operations with 28 deaths in 1920. Of these 260 were Paracentesis of Abdomen with 11 deaths, 30 Abscess of Liver with 1 death, 23 Laparotomies with 9 deaths and 78 Radical Cure of Hernia with 3 deaths against 328 Paracentesis of Abdomen with 7 deaths, 24 Abscess of Liver with 5 deaths, 19 Laparotomies with 7 deaths and 45 Radical Cure of Hernia with no death in the previous year.

114. The total number of Surgical Operations of all kinds performed in the Ajmer-Merwara District in 1921 was 3,984 with 5 deaths against 3,836 with 4 deaths in 1920 showing an increase of 148 operations.

115. Of the total number of operations performed in the Ajmer-Merwara District 1,467 were done at the Ajmer Victoria Hospital with 5 deaths against 1,314 with 2 deaths, an increase of 153 operations.

116. Of these operations 72 were Extraction of Lens for Cataract, 6 Lithotomies, 14 Amputations, 57 other Abdominal operations and 13 Radical Cure of Hernia.

117. 4,194 operations of all kinds were performed at the Mayo Hospital, Jaipur, with 26 deaths as compared with 3,490 operations with 19 deaths in the previous year. Of these 516 were Extraction of the lens for Cataract, 1 Lithotomy, 59 Litholapaxies, and 23 Amputations.

118. 1,383 operations of all kinds were performed in the Hewson General Hospital, Jodhpur, with 12 deaths as compared with 1,650 operations with 6 deaths. Of these 117 were Extraction of the Lens for Cataract, 8 Lithotomies, 38 Litholapaxies and 24 Amputations.

119. 4,717 operations of all kinds were performed in the Bhagwan Dass Hospital, Bikaner, as compared with 2,639 operations in 1920, of these 166 were Extraction of the Lens for Cataract, 4 Lithotomies, 4 Lithotrities and 19 Litholapaxies and 18 Amputations.

120. 2,755 operations of all kinds were performed in Victoria Hospital, Bharatpur, of these 763 were Extraction of the Lens for Cataract, 3 Lithotomies, 17 Litholapaxies and 23 Amputations.

121. 2,402 operations were performed in the Alexandra Hospital at Alwar against 2,058 in 1920. Of these 92 were Extraction of the Lens for Cataract, 13 Lithotomies, and 15 Amputations.

122. 3,348 operations were performed in the Lansdowne Hospital at Udaipur of these 29 were Extraction of the Lens for Cataract and 5 Litholapaxies.

123. 2,027 operations were performed in the Kotah City Hospital. Of these 68 were Extraction of the Lens for Cataract, 3 Lithotomies and 12 Amputations.

124. 481 operations for Cataract were performed at Dholpur Sadar Dispensary.

STATEMENTS H. AND J.

Financial Statements.

125. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals and only expenditure on those in Indian States.

126. The total income of the hospitals and dispensaries in Ajmer-Merwara was Rs. 42,708 against Rs. 37,388 in 1920, an increase of Rs. 5,320 chiefly from Imperial Revenues towards the cost of establishment and Europe Medicines.

127. The value of invested capital remained the same as in the previous year.

128. The total expenditure of the Ajmer-Merwara Dispensaries was Rs. 40,884 against Rs. 35,558 in 1920, an increase of Rs. 5,326. All heads of expenditure, except Miscellaneous Charges and Buildings or Repairs, show increase owing to highly enhanced prices of all necessary articles and due to increased rate of revised scale of pay of Sub-Assistant Surgeons, compounders and inferior servants.

129. *Indian States.*—The total expenditure of hospitals and dispensaries in Indian States of Rajputana was Rs. 7,31,102 against Rs. 5,97,040 in 1920, an increase of Rs. 1,34,062 due to large increase of expenditure incurred for establishment, medicines and repairs to buildings owing to the highly enhanced prices of all necessary articles.

130. Of the total expenditure on hospitals and dispensaries in Indian States Rs. 1,28,924 were expended in Jaipur, Rs. 1,46,296 in Bikaner, Rs. 1,19,528 in Marwar, Rs. 84,058 in Kotah, Rs. 60,509 in Mewar, Rs. 42,546 n Bharatpur, Rs. 37,243 in Alwar, Rs. 16,142 in Tonk, Rs. 15,935 in Jhalawar,

Rs. 12,720 in Sirohi, Rs. 10,130 in Dholpur, Rs. 10,037 in Karauli, Rs. 8,291 in Banswara, Rs. 6,995 in Kishangarh, Rs. 5,356 in Shahpura, Rs. 4,839 in Jaisalmer, Rs. 4,429 in Dungarpur, Rs. 3,665 in Partabgarh, Rs. 3,246 in Bundi, and Rs. 2,320 in Kushalgarh.

131. The average cost of each case treated in Ajmer-Merwara and in the Indian States hospitals and dispensaries was 108 pies and 95 pies against 94 pies and 80 pies in 1920.

Mission Hospitals.

132. During the year under report the number of Mission Hospitals in Rajputana was 7.

133. The following table shows the total number of in and out-door patients treated and operations performed in 1921 :—

Name of hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer . .	25,937	13,920	39,857	17	702	28 were visited at their homes.
Ajmer Women's Hospital.	6,714	3,972	10,686	543	414	1,527 were visited at their homes.
Nasirabad . .	15,504	7,012	22,516	302	278	560 were visited at their homes.
Jaipur . . .	7,194	2,581	9,775	77	157	630 were visited at their homes.
Piploda . .	6,465	2,304	8,769	...	56	150 were visited at their homes.
Jodhpur . .	21,456	9,360	30,816	149	830	
Udaipur . . .	30,225	15,765	45,990	76	1,263	
Total .	113,495	54,914	168,409*	1,165	3,700	

* Medical statistics of these hospitals are for the Mission year from 1st October 1920 to 30th September 1921.

Railway Hospitals.

134. 712 in and 67,391 out-door patients were treated and 2,527 operations performed during the year in 10 Railway Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana as per detail below :—

Station.	Number of patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer including 2 branch dispensaries.	340	33,820	34,160	1,186	
Phulera . . .	112	5,759	5,871	91	
Bandikui . . .	151	7,478	7,629	518	
Sojat Road . . .	14	3,420	3,434	123	
Abu Road . . .	56	5,435	5,491	359	
Kotah Junction . .	17	4,467	4,484	55	
Gangapur . . .	22	4,505	4,527	91	
Sewai Madhopur . .	...	2,507	2,507	104	
Total .	712	67,391	68,103	2,527	

Jails.

135. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail was 313·90 against 306·73 in the previous year. The total number of admissions into Hospital and the daily average number of sick fell from 157 and 7·60 in 1920 to 129 and 5·24 in 1921.

136. Only one death occurred among the convicts during the year against three in 1920. It was due to Cholera in a prisoner transferred from the Jubbulpore Jail here for release.

137. He caught the infection on the journey and died a few hours after his arrival.

138. The Review by the Commissioner, Ajmer-Merwara, on the strengt h classification, health, employment and conduct of prisoners, nature of sentences, Jail manufactures and expenditure of the Jail is given as Appendix A of the report together with statements.

Indian States.

139. The daily average of prisoners in the Jails in the Indian States rose from 3,659·77 in 1920 to 4,272·03 in 1921, the total number of admissions into Hospitals from 1,707 to 2,602, the daily average number of sick from 81·10 to 107·57, the mortality from 97 to 120 and the ratio of deaths per mille of average strength from 21·04 to 28·09.

140. There were no deaths in the Jails at Kishangarh, Shahpura, Jhalrapatan, Partabgarh and Dungarpur.

141. *Jaipur.*—At the Central Jail, Jaipur, there has been overcrowding throughout the year. The daily average number of prisoners fell from 594·93 in 1920 to 571·47 in 1921 the total number of admissions into Hospital from 128 to 118, the daily average number of sick from 8·19 to 6·51, the mortality from 16 to 11, and ratio of deaths per mille of average strength from 26·89 to 19·25.

142. In the District Jail, Jaipur, the daily average number of prisoners ros from 157·44 in 1920 to 312·52 in 1921 but the total admissions to Hospital fell from 31 to 29, the daily average number of sick from 2·27 to 2·19, mortality from 8 to 3 and ratio of deaths per mille of average strength from 50·81 to 9·60.

143. *Jodhpur.*—In the Jodhpur Central Jail the average number of prisoners was 542·38 against 511·16 in the previous year. The number of in-patients admitted into Hospital was 173 as compared with 102 in the previous year.

144. 16 deaths occurred, the number being 3 in the last year. The death rate increased from 5·87 to 29·50.

145. *Bikaner.*—The daily average number of prisoners rose from 314·46 in 1920 to 338·48 in 1921, total admissions to Hospital from 99 to 105, and the daily average number of sick from 2·72 to 3·95, but the mortality fell from 10 to 5 and ratio of deaths per mille of average strength from 31·80 to 14·77.

146. *Udaipur.*—The daily average number of prisoners during the year was 579·98 against 569·77 in 1920.

147. The maximum number of prisoners was 587 on 16th May and the minimum 558 on 8th December 1921.

148. With the exception of an epidemic of cholera which broke out early in August and accounted for 6 deaths, the health of the prisoners has been good.

149. There have been 17 deaths from the following causes :—

Cholera 6, pneumonia 5, diarrhœa 2, debility 2, Inanition and general emaciation 1 and dysentery 1.

150. The daily average number of sick during the year was 13·45 and the ratio of deaths per mille 18·99.

151. *Bharatpur.*—The daily average number of prisoners rose from 293·44 in 1920 to 378·66 in 1921, the total number of admissions into Hospital from

299 to 372 and the daily average number of sick from 13·96 to 18·99 but the mortality fell from 20 to 16 and the ratio of deaths per mille of average strength from 68·16 to 42·25.

152. *Kotah.*—The health of the prisoners remained good throughout the year. The daily average number of prisoners rose from 215·66 in 1920 to 292·45 in 1921. There were 177 admissions compared with 133 of the previous year. The daily average attendance was 8·11 as compared with 7·15 the previous year. There were 8 deaths during the year from the following causes :—

Dyspepsia 1, Influenza 1, heat apoplexy 1, typhoid fever 1, bright's disease 1, pneumonia 1, dysentery 1 and nervous system 1.

Qualified Medical Staff.

153. Lieutenant-Colonel J. W. Watson, C.I.E., I.M.S., held charge of the appointment of the Civil Surgeon, Ajmer-Merwara and Chief Medical Officer, Rajputana, throughout the year, except that he was employed on special duty, under the Government of India in the Foreign and Political Department from 1st to 8th April 1921 inclusive.

154. Lieutenant-Colonels J. W. Grant, I.M.S., and F. D. S. Fayrer, I.M.S., held charge of the Office of the Residency Surgeon, Western Rajputana States and Residency Surgeon, Mewar, respectively, throughout the year.

155. Major R. H. Lee, I.M.S., was appointed to hold charge of the current duties of the Office of the Civil Surgeon, Ajmer-Merwara and Chief Medical Officer, Rajputana, in addition to his own duties as Agency Surgeon, Kotah and Jhalawar, from 1st to 8th April 1921 inclusive.

156. He was transferred to Behar Province from the forenoon of the 24th October 1921.

157. On return from combined leave Lieutenant-Colonel L. J. M. Deas, I.M.S., was appointed as Agency Surgeon, Kotah and Jhalawar, from 24th October 1921.

158. Major (now Lieutenant-Colonel) J. McPherson, I.M.S., Agency Surgeon, Eastern Rajputana States, Bharatpur, was transferred to Baroda as Chief Medical Officer, Baroda State, from the afternoon of 10th July 1921.

159. The following Officers of the Indian Medical Service held temporary visiting charge of the Residency and Agency Surgeoncies as noted against their names, from and to the dates specified, in addition to their own duties :—

Lieutenant-Colonel F. D. S. Fayrer, I.M.S., Residency Surgeon, Mewar.	Office of the Medical Officer, Mewar Bhil Corps, Kherwara, from 1st January to 31st December 1921.
Major (now Lieutenant-Colonel) J. McPherson, I.M.S., Agency Surgeon, Eastern Rajputana States, Bharatpur.	Jaipur Residency Surgeoncy from 1st January to 10th July 1921.
Major R. H. Lee, I.M.S., Agency Surgeon, Kotah and Jhalawar.	Bharatpur Agency Surgeoncy from 11th July to 23rd October 1921.
Lieutenant-Colonel L. J. M. Deas, I.M.S, Agency Surgeon, Kotah and Jhalawar.	Bharatpur Agency Surgeoncy from 24th October to 31st December 1921.

Military Assistant Surgeon.

160. Military Assistant Surgeon, 2nd Class, G. J. Cowper has been in charge of the Northern India Salt Revenue Dispensary at Sambhar, throughout the year, except that he was on 60 days privilege leave from 13th July to 10th September 1921, both days inclusive.

Civil Assistant Surgeons.

161. There were five Government Civil Assistant Surgeons, two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri and one at Jodhpur.

Military Sub-Assistant Surgeons.

162. Three Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana against 5 in the previous year.

Civil Sub-Assistant Surgeons.

163. Out of 116 Government Sub-Assistant Surgeons who were on the roll on the 1st January 1921, one was transferred to North-West Frontier Province, 2 retired on pension, and one died. Thus at the close of the year 112 Government Sub-Assistant Surgeons remained on the roll including 2 Sub-Assistant Surgeons transferred tomporarily to Military Duty.

164. The number of Lady Doctors employed in the Indian States in Rajputana was 3, stationed as below, as in the previous year :—

Jodhpur	1
Kotah	1
Dholpur	1

165. Miss Lucie Gainsford, L.R.C.P., London and M. R. C. S., England. was employed in the Jaswant Hospital for women at Jodhpur on the 8th May 1921. Miss Collins, Lady Doctor in charge of the Watler Zenana Hospital, Udaipur, has gone on leave for one year from the 16th September 1921. Mrs. M. Desouza at Tonk resigned on the 3rd December 1921 and Doctor E. Clarke was in charge of the Lady Hardinge Hospital, Dholpur, until March after which her place was taken by Doctor K. H. Parkinson.

166. There were two Lady Assistant Surgeons attached to the Lady Curzon Zenana Hospital, Bikaner.

167. The Female Sub-Assistant Surgeons were in charge of the Female Hospitals in Rajputana at the following places :—

Jaipur.
Alwar.
Kishangarh.
Beawar.
Tonk.

Female Hospitals and Dai Class.

168. *Ajmer.*—Two Lady Doctors have remained attached to the Mission Hospital for women at Ajmer throughout the year. They and their subordinates have done much good work in the Hospital and in Zenana work. The number of patients treated and other medical work done is shown under the Mission Hospitals.

169. *Beawar.*—Miss Q. Houlton, Female Sub-Assistant Surgeon, has been in charge of the Women's Ward of the Dispensary at Beawar throughout the year. 61 in and 5,804 out-door patients were treated against 67 in and 5,591 out-door patients in the previous year. The number of operations performed was 396, out of which the following were more important operations against 351 operations in 1920 :—

Extraction of lens for Cataract	13
Operations for Trichiasis and entropion	20
Conduction of labour in abnormal cases	4
Paracentesis Abdominalis for Ascites	24
Ovariotomy	1
Amputations	3
Reduction of dislocation and setting of fractures	6
Removal of ova by ovum forceps	2
Curetting of Uterus Endometrites	4
Setting of Fracture	2

Indian States.

170. *Jodhpur.*—Female Sub-Assistant Surgeon Miss H. Paul officiated the Lady Superintendent of the Jaswant Hospital for women, Jodhpur, in addition

to her own duties till the 8th May 1921 when Miss Lucie Gainsford, L. R. C. P., London, and M. R. C. S., England, took over charge of the Hospital as Lady Superintendent. 148 in and 5,994 new out-door patients were treated against 64 in and 3,497 out-door patients in the previous year.

171. 42 Major and 196 minor operations were performed as against *nil* Major and 80 minor operations in 1920.

172. Miss H. Paul resigned her appointment as Sub-Assistant Surgeon and was succeeded by Mrs. Mohammed Ismáil.

173. Two new Nurses were appointed to cope with an increased amount of work.

174. *Kotah.*—Miss Jeanie Newton, L.R.C.P. (Edin.), L.F.P.S (Glas.), has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year. There were 244 in-patients and 7,862 new out-door patients treated as against 242 in and 7,423 new out-door patients in 1920.

175. 299 Operations were performed against 264 of last year.

176. The important operations performed were as follows :—

For restoration of lips Cheiloplasty	1
Paracentesis of abdomen	3
Abdominal Section—Laparotomy	1
Removal of vesical calculi—By lithotomy	1
(*a*) Supra pubic	1
(*c*) Median	1
Ovariotomy	1
Curetting of uterus	2
Dilatation of cervical cannal	1
Others on Female generative organs	1
Application of forceps	5
Podalic extraction	1
Craniotomy	1
Other obstetric operations	1

177. *Jaipur.*—The Female Wards of the Mayo Hospital at Jaipur remained in charge of Female Sub-Assistant Surgeon Nangi Bai who does her work satisfactorily.

178. 945 in and 7,471 new out-door patients were treated during the year.

179. *Udaipur.*—The Residency Surgeon, Mewar, Udaipur, informs that Mrs. Collins, Lady Doctor in charge of the Walter Zenana Hospital, Udaipur, has gone on leave for one year from the 16th September 1921. The Hospital has been closed and the keys are with the State authorities.

180. *Bikaner.*—Miss G. A. Postwalla, M.B., B.S., 1st Lady Assistant Surgeon, has been in charge of the Lady Curzon Zenana Hospital, Bikaner, throughout the year. 330 in and 2,689 out-door patients were treated against 211 in and 2,659 out-door patients in the previous year.

181. 74 Major and 121 minor operations were performed against 61 Major and 201 minor operations of last year.

182. *Tonk.*—Lady Doctor Mrs. M. Desouza who was in charge of the Walter Female Hospital, Tonk, resigned her post on the 3rd December 1921 and the work is being carried on by Sub-Assistant Surgeon Imaman under the supervision of the State Surgeon, Tonk State.

183. There were 135 in and 8,054 new out-door patients treated-in 1921.

184. *Alwar.*—The Lady Dufferin Hospital, Alwar, remained in charge of Female Sub-Assistant Surgeon Sugna Bai throughout the year and another Female Sub-Assistant Surgeon Mrs. E. Henry was appointed in place of late Bala Bai during the year. 187 in and 19,205 new out-door patients were treated against 218 in and 20,482 out-door patients in the previous year.

185. 93 Major and 1,011 minor operations were performed against 95 Major and 1,057 minor operations in 1920.

186. 367 Purdah Ladies were treated at their homes and 35 obstetric operations performed in 1921.

187. *Bharatpur.*—The Female Dispensary at Bharatpur remained without a Female Sub-Assistant Surgeon throughout the year. The work was conducted by a Male Sub-Assistant Surgeon from the Victoria Hospital, Bharatpore. 258 in and 4,019 new out-door patients were treated against 323 in and 4,776 new out-door patients in the previous year.

188. The scheme for improving the condition of child-birth in Bharatpur proved very useful and continued throughout the year.

189. *Kishangarh.*—Female Sub-Assistant Surgeon Mrs. L. A. Scott has been in charge of the Female Hospital, Kishangarh, throughout the year. 14 in and 4,287 new out-door patients were treated against 11 in and 4,646 out-door patients in the previous year. The trained dai being local resident was often called by the public for labour cases while Lady Sub-Assistant Surgeon was sent for for abnormal labour cases.

190. *Dholpur.*—The Lady Hardinge Memorial Hospital, Dholpur, remained under the charge of Dr. E. Clarke until March when Dr. K. H. Parkinson took over charge of the Hospital as Lady Superintendent, 322 in and 3,332 new out-door patients were treated and 249 operations performed during the year.

191. *Dai Class, Ajmer.*—In February 1921 the matron of the maternity Home resigned and Champabai, a certificated Indian Nurse took up the work under the supervision of the Lady Doctors of the women's Mission Hospital, Ajmer. On 1st July 1920, 7 pupils were admitted into the first year class and the two into the 2nd year class, one of the former did not return from leave: thus the remaining 8 pupils remained under training till the end of the session when they were examined by the Civil Surgeon, Ajmer, on the 29th April 1921, all of whom passed and were granted certificates and the usual honorarium.

192. Two dais gained second year certificates, one of whom is now working under the Jodhpur Railway and the other in the women's State Hospital, Jodhpur. Six other dais on gaining first year certificates returned to their respective Indian States.

193. In the first week of July 1921, 8 pupils who arrived from Indian States were admitted into the first year class and two were admitted into the 2nd year class. One of the former was dismissed being unsuitable. Thus the remaining nine are at present under training.

194. There were 20 cases in the maternity Home as against 5 last year and 70 were attended in their Homes as against 22 last year. The dais attended 75 cases at the women's Mission Hospital.

195. There have been no local Dai classes in the Indian States of Rajputana during the year under report.

Imperial Service Troops.

196. The hospitals of the Indian States Imperial Service Troops are all well equipped. With the exception of those of the two Regiments of Imperial Service Lancers at Jodhpur they are under the medical charge of well qualified Military Sub-Assistant Surgeons and Raj Service Sub-Assistant Surgeons. Each regiment of the latter is under the medical charge of a State-enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been under the medical charge of the Raj Service Sub-Assistant Surgeon.

Insanes.

197. *Ajmer.*—Two lunatics remained in the Central Jail, Ajmer, on the 1st January 1921. 24 were admitted during the year making a total of 26. Of these 11 were transferred to the Lahore Lunatic Asylum, 9 discharged, 5 made over to their friends and relatives and 1 sent to the Cantonment Magistrate, Nasirabad and not received back so that there was no lunatic in the Jail at the close of the year.

198. *Indian States.*—124 Lunatics were treated against 134 in 1920. Of these 19 were cured, 11 discharged otherwise, 15 died and 79 remained in the Jails at the close of the year.

J. W. WATSON, *Lieut.-Colonel, I.M.S.,*
Chief Medical Officer, Rajputana.

AJMER,

APPENDIX A.

Review on the Ajmer Jail Report for the year 1921.

1. The charge of the office of the Superintendent, Central Jail, was held by the following officers :—

(1) Lieutenant-Colonel J. W. Watson, C.I.E., I.M.S., from 1st January 1921 to 31st March 1921.

(2) Major R. H. Lee, I.M.S., from 1st to 8th April 1921.

(3) Lieutenant-Colonel J. W. Watson, C.I.E., I.M.S., from 9th April 1921 to 31st December 1921.

. At the commencement of the year there were 312 prisoners including convicts and undertrial prisoners. There was no civil prisoner. The number of prisoners admitted to the Jail during the year was 1,385 against 1,347 in the year 1920, of whom 680 were convicts, 694 undertrial and 11 civil prisoners. The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1920.	1921.
Convicts	627	658
Undertrial	676	701
Civil	8	11

The number of prisoners at the close of the year was 327.

The daily average number of prisoners was 313·90, *i.e.*—

Convicts	279·66
Undertrial	33·80
Civil	0·44

3. The following table compares the disposal of convicts (658) during the year under review with that of the preceding year :—

—	1920.	1921.
Released on appeal	45	61
„ expiry of sentence	399	431
„ on sickness	...	1
„ payment of fine	36	15
„ on execution	...	2
„ under remission rules for fixed conduct	105	101
Transferred to other jails	38	43
Died in Jail	3	1
Transferred to Lunatic Asylum	...	2
Escaped	1	1
TOTAL	627	658

4. Excluding 53 prisoners received from other jails, the remaining 627 convicts admitted into the Jail are classified as under :—

Hindus	413
Mohammadans	212
Indian Christians	2
	627

5. Of the 627 convicts admitted into the Jail 79 were awarded simple imprisonment, 543 rigorous imprisonment, and 5 rigorous imprisonment with solitary confinement.

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 133 as against 128 in the previous year. Their percentage to the total number of convicts admitted being 21·21.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 273·36.

8. *Conduct of prisoners.*—The number of jail punishment of all kinds inflicted was 337 as compared with 390 during the preceding year.

9. One prisoner escaped during the year under report and was not recaptured.

10. *Health.*—Out of 627 convicts admitted into the Jail, 519 were in good health, 101 in different and 7 in bad health. The number of admissions into Jail Hospital was 129 against 157 in 1920. Only one death occurred among the convicts during the year against 3 in 1920.

11. There were four juvenile prisoners on the 1st January 1921-22 were received during the year under report. Of these 26 boys, 22 were released and 4 remained at the close of the year.

12. The profits from Jail manufactures amounted to Rs. 3,926-1-5 against Rs. 4,634-2-2 in 1920. The average earning per head of prisoners employed on Jail manufactures was Rs. 28-9-7 against Rs. 37-12-9 in 1920. Considering that a sum of over Rs. 200 was outstanding and money bags of the value of over Rs. 2,100 remained unsold at the close of the year—the working of the Jail factory is considered satisfactory.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners including that incurred—

(1) by Public Works Department on the buildings and repairs, and

(2) by Magistrates in guarding and maintaining undertrial prisoners amounted to Rs. 61,127-3-8. The average cost per prisoner during the year was Rs. 151-10-10, against Rs. 147-14-1 in 1920.

S. B. A. PATTERSON, I.C.S.,

Commissioner, Ajmer-Merwara.

Female	5,081	13·92	19	†29	48	5	...	53	1	1	3	33	...	...	...	5	...	...	...	...	...	10	
Total	102,077	279·66	271	627	898	53	...	951	41	2	61	431	15	1	...	101	...	2	1	2	1	293	

* Of this number 20 boys under 16 years. † Of this number 2 girls under 15 years.

NOTE 1.—In this and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the month.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number present on each day of the month, *vide* column 2, and dividing the whole by the number of days in the month.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—43, dated 25th October 1861, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

J. W. WATSON, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER CENTRAL JAIL:
The 18th February, 1922.

REPORT

ON

SANITATION, DISPENSARIES AND JAILS IN RAJPUTANA FOR 1922 AND ON VACCINATION FOR THE YEAR 1922-23.

Section I.—Sanitation and Vaccination.

Meteorology and its Relation to Food Supply.

1. During the year under report 13·29 inches of rain were registered in Ajmer against 11·51 inches in 1921, the average for the previous six years being 21·29 inches.

Rainfall in Ajmer.

2. The rainfall during the monsoon season from June to September was 12·70 inches as compared with 11·22 during the monsoon of 1921 showing an increase of 1·48 inches.

3. Owing to the short monsoon rainfall during the last five years, *i.e.*, since 1918, there was not sufficient water in all the Tanks and Wells throughout the District and the ground water level in the Wells fell considerably.

4. The Rainfall recorded in Rajputana was on the whole fair. In some States it was above the normal while in others it was normal or below the normal.

Rainfall in Indian States.

The fodder was sufficient for requirements but the water supply was insufficient.

Vital Statistics, Births and Deaths.

5. According to the Birth Returns 14,998 births were registered in 1922 against 15,418 in the previous year, showing a decrease of 420.

Births in Ajmer-Merwara.

6. Of the total births registered 7,981 were males and 7,071 females. The birth rate was 30·28 per mille of population against 31·13 per mille in 1921. The percentage of male to female births was 113·73 as compared with 114·62 in the previous year.

7. The birth rate exceeded the death rate by 8·09 per mille as compared with 2·72 per mille in 1921.

8. The total number of deaths registered was 10,989 in 1922 against 14,073 in 1921 showing a decrease of 3,084. The decrease is due to low mortality from Cholera, Small-pox, Fever and all other causes of deaths. There was however an increase in the number of deaths from Respiratory Diseases which was 189 against 74 in 1921.

Deaths in Ajmer-Merwara.

9. The death rate per mille of population was 22·19 as compared with 25·41 in the previous year.

10. The mortality among children under five years of age was 44 per cent. of the total deaths against 46 in the previous year.

11. There was no epidemic disease in Ajmer-Merwara throughout the year under report except 2 deaths from Cholera, 8 from Small-pox, 2 from Influenza and 2 from Plague against 35 from Cholera, 724 from Small-pox and 13 from Influenza in the previous year.

12. 8,184 deaths from fever were reported against 9,804 in 1921 showing a decrease of 1,620.

13. The Mortality from Bowel complaints was 256 against 294 in 1921 showing a decrease of 38 deaths.

Indian States.

14. All the Indian States in Rajputana were free from all epidemic diseases during the year under report except Dungarpur in which Influenza broke out in an epidemic form in the month of February in a village named Barote. There were in all 103 seizures of which only 3 proved fatal. The disease was imported from Gujrat. Timely preventive and quarantine measures were taken to check its spread.

15. There were a few sporadic cases of Small-pox in the Jhalawar State.

Sanitation.

16. The sanitation of the City of Ajmer could hardly be worse than it is, and this unsanitary state of affairs has been commented upon for many years in this Report. What is not realized is that efficient sanitation is an expensive matter and that when there is no money and no water it is also a difficult problem.

17. At the present moment, in round figures one rupee eight annas a year is spent per head of the population, on sanitation. A ridiculously small sum, particularly when there is good reason to infer that for such money, as is spent, full value is not received.

18. The whole matter is under the consideration of a Small Committee, who are considering alternate Schemes, but it can be stated with certainty that any efficient scheme will cost more than is spent on sanitation at present. Consequently the matter is largely one of finance.

19. The Birat System of Sweepers has been condemned year after year, and with justice, and there is no doubt that until this system is broken the sanitation of Ajmer will suffer, so long and so far as it depends on the work of these men.

20. An effort is being made to make the Tramway Station more efficient and with an improved work-shop it is hoped to naintain the Carts and Tramway Rolling Stock in better order.

21. The condition of the Bullocks is definitely good they are well fed and cared for.

22. The Motor Lorry has been over worked and over loaded and consequently has not proved the success expected; but there is no doubt that its acquisition was a step in the right direction and it is to be hoped that in course of time all rubbish will be removed by Mechanical means and that relic of a bygone age, the bullock cart will disappear.

23. For all practical purposes, the water supply of Ajmer can be always considered as too deficient for any water-borne scheme consequently the night soil must either be trenched or incenerated. The latter course recommend itself as the most efficient cheaper and more easily worked and controlled of the two. Moreover once established, the rubbish could be disposed of in a similar way.

24. There remains the sullage water. The present system of so called water tight cisterns and tin receptacles is as bad as it can be. A walk through any part of the city will reveal cisterns full and overflowing with foul water, leaking receptacles and even many drifting drains without receptacles at all. It would appear that some system of drainage is a desideration. jmer is ideally situated for such, as it is on the site of a hill, and with the waste water from the hydrants, a comparatively small head of water would suffer to keep such a drainage system flushed.

The initial outlay would be considerable and the matter requires detailed examination, but without some such system it is difficult to provide a solution for the sullage water question.

Water Supply.

25. The Monsoon only yielded Ajmer 13·29 inches and steps were not taken early enough to consume the supply, consequently there was a great shortage of water towards the end of the year under review. However the Wells held out wonderfully and by mixing a little Budha Pushkar water with that from Bhaonta

and Foy Sagar, it was possible to give four gallons per head per diem through the hydrants. Fortunately no harm resulted from this procedure though the Budha Pushkar water was reported as impotable.

Village Sanitation, Ajmer-Merwara,
Ajmer Sub-Division—
1. Pushkar.
2. Jaithana.
3. Harmara.
4. Srinagar.
5. Beer.
6. Ramsar.
Kekri Sub-Division—
7. Junia.
8. Mehron Kalan.
Merwara Sub-Division—
9. Beawar.
10. Jawaja.
11. Todgarh.
12. Bhim.
13. Barar.

26. The Commissioner of Ajmer-Merwara reports that the rules for the improvement of village Sanitation were in force in the same villages as last year as detailed on the margin.

27. The Sanitary condition of the villages in all the three Sub-Divisions is reported to have been satisfactory. The villages are kept fairly clean and the health of the people was good.

VACCINATION.

Statement I.

28. In Ajmer-Merwara including Nasirabad Cantonment the total number of persons vaccinated was 14,160 against 12,564 in 1921-22 an increase of 1,596. The total number of Primary Vaccination rose from 12,700 in 1921-22 to 14,289 in 1922-23 and the number of Primary Successful Vaccination from 11,693 to 13,089.

29. The aggregate of the both Primary Vaccination and Re-Vaccination was 14,903 showing an increase of 1,795 as compared with last year.

30. The average number of Vaccinators employed during the year under report was 16 with one Indian Superintendent. Each Vaccinator performed an average of 885 operations against 816 in the previous year.

31. During the working season from 1st October to 30th April the Vaccine Calf Lymph was purchased from the Manpur Vaccine Depot in Central India and from 1st May when the said Depot is closed it was purchased from the Punjab Vaccine Depot, Murree.

32. The Civil Surgeon, Ajmer-Merwara, inspected 1,410 vaccinated children in towns and villages against 861 in 1921-22 of whom 1,380 were found successful.

33. The Superintendent of Vaccination, Nasirabad, examined 55 children against 25 in the previous year of whom 52 were successful.

34. The Indian Superintendent of Vaccination, Ajmer-Merwara, inspected 272 towns and villages against 329 in 1921-22 and examined 5,010 vaccinated children against 4,600 in the previous year.

35. The number of persons successfully vaccinated per 1,000 of population was 27·60 against 24·60 in 1921-22.

36. The total number of Primary Vaccinations in Indian States was 222,115 of which 210,868 were successful as compared with 221,903 Primary and 206,129 successful operations in 1921-22. Re-Vaccination fell from 1,905 to 935 in the year under report.

General Operations in Indian States.

37. There were 184 Vaccinators against 183 in 1921-22. Three additional vaccinators were employed at Sirohi, Kushalgarh and Dungarpur and 2 in Bharatpur and Karauli resigned. No Vaccinator was employed in Deoli Cantonment during the season; vaccinations were performed by the Sub-Assistant Surgeon attached to the Agency Hospital there.

38. 21·45 per thousand of the population in the Indian States were successfully vaccinated against 20·99 in 1921-22.

Statement II.

39. The total expenditure on vaccination in Ajmer-Merwara was Rs. 5,117-6-2 against Rs. 4,671-11-2 in the previous year. The increase of Rs. 445-11-0 was due to increase of pay of Vaccinators and in rate of travelling allowance. The average cost of each successful case was 72 pies against 75 pies in 1921-22.

Expenditure on Vaccination in Ajmer-Merwara.

40. The total expenditure on vaccination in Indian States was Rs. 61,405-3-2 as compared with Rs. 54,402-7-4 in the previous season, the increase in cost being due to pay and travelling allowance to Vaccination Staff. The average cost of each successful Vaccination in different States varied from 140 pies in Kushalgarh State to 27 in Sirohi.

Expenditure on Vaccination in Indian States.

41. The following table shows the number of towns and villages inspected and Vaccination seen by Residency or Agency Surgeons in Indian States :—

Designation.	Number of towns and villages inspected.	Number of Vaccination cases seen.
The Principal Medical Officer, Bikaner States	4	2,063
The Residency Surgeon, Mewar, Udaipur	17	152
The Agency Surgeon, Kotah and Jhalawar	156	1,233
The State Surgeon, Alwar	103	1,422

42. The Indian Superintendent of Vaccination and other Inspecting Officers in Indian States inspected 53,980 vaccinations against 66,896 in 1921-22. The percentage of cases found successful among the total number seen in 1922-23 was 98·38 against 95·14 in the previous season.

43. Lymph is maintained throughout the year in most of the States. The Calf Vaccine Lymph obtained during the year from the Government Lymph Depots was satisfactory.

Section II.—Dispensaries.

STATEMENT A.

Number of Dispensaries.

44. The number of Hospitals and Dispensaries at the close o last year was 184. Two Mina Corps Hospitals were opened at Deoli and Erinpura on the 1st May 1922 and one new Dispensary was opened in the Jaipur State during the year. The number open at the close of the year was 187.

45. The Dispensaries are classified as under :—

I. State Public	8
II. State Special	15
V. Private non-aided (*i.e.*, Indian States)	164
TOTAL .	187

46. Besides these there are seven Mission Hospitals and Dispensaries and one Hospital and nine Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana but as the submission of the Annual Report on Dispensaries was discontinued the Statistics for those Institutions were not obtained for the year under report.

Improvements and additions to Hospitals and Dispensaries.

47. *Jaipur.*—A sum of Rs. 3,384 was spent in affecting improvements and additions to the Mayo Hospital.

48. *Dungarpur.*—Vijaiya Hospital. Two rooms formerly used as cattle shed and capable of accommodating 2 patients each and which are situated on either side of the Female Ward known as the Denandia Vanita Ashram have been converted into rooms for Female In-Patients.

Sagwara Dispensary.—The new building for dispensing at Sagwara was constructed and is being used since the beginning of the year under report.

STATEMENT B.

Attendance at Hospitals.

49. During the year under report the number of patients treated at State Public, State Special and Private non-aided (*i.e.* Indian States) Dispensaries and Hospitals amounted to 1,628,112 against 1,608,065 in 1921 showing an increase of 20,047 which was due to popularity of the Hospitals.

49A. Of the total number of patients treated 20,291 were in-door and 1,607,821 out-door as compared with 20,114 in-door and 1,587,951 out-door in 1921. The number of deaths fell from 800 in 1921 to 620 in 1922 and the ratio of mortality from 4·03 per cent. in 1921 to 3·05 per cent. in 1922.

STATEMENTS C(I) AND C(II).

Diseases Treated.

50. In Statement C (I) the number of deaths under each head of diseases treated in the In-door department is shown ; 20,329 in-patients were treated with a mortality of 620 as compared with 20,680 in-patients and 809 deaths in 1921.

51. 524 Normal confinements with 2 deaths and 135 Abnormal confinements with 7 deaths were reported from various Hospitals as compared with 563 with 1 death and 127 with 11 deaths in 1921.

52. 1,607,821 Out-door patients treated in 1922 are shown in Statement C(II) against 1,587,385 in the year 1921.

53. The cases treated in the Hospitals and Dispensaries under chief disease during the years 1920, 1921 and 1922 are as follows :—

Diseases.	1920.	1921.	1922.
Malarial Fever	228,074	238,582	220,926
Diseases of the eye	257,751	267,153	282,259
Dysentery, Diarrhœa	43,909	52,168	20,622
Ulcers	143,701	147,424	143,164
Skin Diseases	185,630	198,800	195,777
Syphilis	11,315	11,036	12,616
Injuries	47,182	47,942	52,236
Tubercle of the Lung	1,404	1,682	1,626
Abscess of the Liver	268	121	459

Scurvy.

54. Five hundred and twenty three cases of Scurvy were treated in 1922 against 428 in 1921 and 408 in 1920. Of these 183 were in Mewar, 105 in Bikaner, 72 in Bharatpur, 40 in Jaipur, 37 in Merwar and 26 in Kotah.

Leprosy.

55. Three hundred and fifty-nine Lepers received treatment in 1922 (of these 109 in Jaipur) against 344 in 1921 and 296 in 1920. The Superintendent of Dispensaries and Vaccination, Jaipur, reports that Leproline was injected in 25 cases of Leprosy with satisfactory results.

Tubercular Diseases.

56. 1,402 cases of Tubercle of the Lung and 1,454 of other Tubercular diseases were treated during the year under report against 1,682 and 1,994 respectively in the previous year.

Snake bite.

57. Anti-Venine is kept in stock in most of the main Dispensaries and used for the treatment of Snake poisoning when opportunity offers. 46 cases of Snake bite were treated with Anti-Venine Serum in the Vijaya Hospital at Dungarpur of whom 44 were cured and 2 died. Though this was the first year of the introduction of this treatment in this Hospital it has been very popular on account of its uniform success.

STATEMENT F.

58. This statement snows the classes and Sexes of both In and Out-door patients treated in the Dispensaries of Ajmer-Merwara and Indian States in Rajputana. This calls for no comment, as it is merely introduced for Statistical purposes.

STATEMENT G.

59. The number of Surgical operations performed during the year in Ajmer-Merwara including Agency Hospitals and Northern India Salt Revenue Hospitals and in Indian States was 77,858 against 87,747 in 1921 or a decrease of 9,889. The number of patients operated on was 77,763 against 87,742, the number cured was 77,059 against 86,535, the number relieved 409, discharged otherwise 215 and died 90 as compared with 597,194 and 149 respectively in 1921 ; while 245 remained under treatment at the end of the year.

60. Of the operations performed 2,170 were Extractions of the Lens for Cataract of which 2,024 were reported successful 42 Lithotomies, 192 Litholapaxies and 133 Amputations against 2,464, 49, 151 and 214 respectively in 1921.

61. 397 operations were performed on the Abdomen of which 19 proved fatal as compared with 477 operations with 32 deaths in 1921. Of these 159 were Paracentesis of Abdomen with 3 deaths 9 Abscess of Liver with no death, 123 Laparotomies with 10 deaths and 53 Radical Cure of Hernia with no deaths against 260 Paracentesis of Abdomen with 11 deaths, 30 Abscess of Liver with 1 death, 23 Laparatomies with 9 deaths and 78 Radical Cure of Hernia with 3 deaths in the previous year.

62. The total number of Surgical Operations of all kinds performed in the Ajmer-Merwara Dispensaries during the year 1922 was 4,373 with 4 deaths against 3,984 with 5 deaths in 1921 showing an increase of 389 Operations.

63. Of the total number of operations performed in the Ajmer-Merwara Dispensaries 1,617 were done in the Ajmer Victoria Hospital with 4 deaths against 1,467 with 5 deaths, an increase of 141 operations.

64. Of these operations 72 were Extractions of Lens for Cataract, 6 Lithotomies, 8 Amputations, 15 Radical Cure of Hernia and 80 other Abdominal operations.

65. 3,277 operations of all kinds were performed at the Mayo Hospital, Jaipur, with 19 deaths against 4,194 operations with 26 deaths in the preceding year. Of these, 507 were Extraction of the Lens for Cataract, 2 Lithotomies, 77 Litholapaxies and 16 Amputations.

66. 4,702 operations of all kinds were performed in the Bhagwan Dass Hospital, Bikaner, as compared with 4,717 in 1921.

67. 7,025 operations of all kinds were performed in the Victoria Hospital, Bharatpur and other Dispensaries of the State, of these 603 were Extraction of the Lens for Cataract, 6 Lithotomies, 7 Litholapaxies and 23 Amputations.

68. 2,070 operations were performed in the Alexandra Hospital at Alwar against 2,402 in 1921.

69. 1,040 operations of all kinds were performed at the Sadar Hospital, Dholpur, of these 383 were Extraction of the Lens for Cataract and 1 Lithotomy.

70. 1,280 operations of all kinds were performed at the Vijay Hospital, Dungarpur, of these 97 were Extraction of the Lens for Cataract, 22 Litholapaxies, 6 Radical Cure of Hernia, 3 Amputations with 1 Ovariotomy, against 57 Cataracts, 4 Litholapaxies, 3 Radical Cure of Hernia, no Amputation and no Ovariotomy in the preceding year.

STATEMENTS H AND J.

Financial Statements.

71. Statement H shows the Income and Expenditure of the Government Dispensaries and Hospitals and only Expenditure on those in Indian States.

72. The total income of the Hospitals and Dispensaries in Ajmer-Merwara was Rs. 43,922 as compared with Rs. 42,708 in 1921 showing an increase of Rs. 1,214 which is due to the fact that a special grant of Rs. 1,200 was sanctioned by the District Board during the year under report.

73. The value of Invested Capital remained the same as in the last year, *viz.*, Rs. 33,500.

74. The total Expenditure of the Ajmer-Merwara Dispensaries was Rs. 41,246 against Rs. 40,884 in 1921 showing an increase of Rs. 362.

75. *Indian States.*—The total expenditure of Hospitals and Dispensaries in the Indian States of Rajputana was Rs. 7,96,815 against Rs. 7,31,102 in 1921 showing an increase of Rs. 65,713 which was due to large expenditure on Establishment, Medicines, and repairs to buildings in certain States.

76. Of the Total Expenditure on Hospitals and Dispensaries in the Indian States Rs. 1,56,952 were expended in Jaipur, Rs. 1,34,663 in Bikaner, Rs. 1,24,578 in Marwar, Rs. 87,891 in Kotah, Rs. 82,407 in Mewar, Rs. 41,192 in Bharatpur, Rs. 38,717 in Alwar, Rs. 16,410 in Tonk, Rs. 17,901 in Jhalawar, Rs. 14,276 in Sirohi, Rs. 11,990 in Dholpur, Rs. 12,121 in Karauli, Rs. 8,414 in Banswara, Rs. 5,276 in Kishangarh, Rs. 5,760 in Shahpura, Rs, 2,824 in Jaisalmer, Rs. 18,448 in Dungarpur, Rs. 4,073 in Partabgarh, Rs. 3,665 in Bundi and Rs. 1,100 Kushalgarh.

77. The average cost of each case treated in Ajmer-Merwara and in the Indian States Hospitals and Dispensaries was 111 pies and 102 pies against 108 pies and 94 pies in 1921.

Jails.

78. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail was 295·71 against 313·90 in the previous year. The total number of admissions into Hospital and the daily average number of sick fell from 129 and 5·24 in 1921 to 62 and 1·49 in 1922.

79. There was only one death from fever among the convicts during the year under report against one from cholera in the preceding year.

80. The Review by the Commissioner, Ajmer-Merwara, on the Strength, Classification, health, employment and Conduct of prisoners, nature of sentences, Jail Manufactures and expenditure of the Jail is given as Appendix A of the report together with Statements.

Indian States.

81. The daily average of prisoners in the Jails in the Indian States fell from 4,272·03 in 1921 to 4,205·86 in 1922, the total number of admission into Hospitals rose from 2,602 to 5,029, the daily average number of sick fell from 107·57 to 97·62 the mortality from 120 to 85 and the ratio of death per mille of average strength from 28·09 to 20·21.

82. There were no deaths in the Jails at Kishangarh, Sirohi, Karauli, Tonk, Shahpura, Jhalrapatan, Partabgarh and Dungarpur.

83. *Jaipur.*—At the Central Jail, Jaipur, there has been overcrowding throughout the year as in previous years. The daily average number of prisoners rose from 571·47 in 1921 to 590·73 in 1922, the total number of admission into Hospitals fell from 118 to 101, the daily average number of sick rose from 6·51 to 7·57, the mortality fell from 11 to 9 and ratio of death per mille of average strength from 19·25 to 15·24.

84. In the District Jail, Jaipur, the daily average number of prisoners fell from 312·52 in 1921 to 273·05 in 1922 ; but the total admission to Hospital rose from 29 to 46, the daily average number of sick from 2·19 to 2·58, mortality from 3 to 6 and ratio of death per mille of average strength from 9·60 to 21·97.

85. *Jodhpur.*—In the Jodhpur Central Jail the average number of prisoners was 562·01 against 542·38 in the previous year. The number of in-patients admitted into Hospital was 149 as compared with 173 in the previous year. The number of deaths was 9 against 16 in 1921. The death rate decreased from 29·50 to 16·01.

86. *Bikaner.*—The daily average number of prisoners fell from 338·48 to 316·42, total admission to Hospital from 105 to 71, the daily average number of sick from 3·95 to 3·27, the mortality from 5 to 4 and ratio of death per mille of average strength from 14·77 to 12·64.

87. *Bharatpur.*—The daily average number of prisoners fell from 378·66 in 1921 to 298·15 in 1922, the total number of admissions into Hospital from 372 to 344, the daily average number of sick from 18·99 to 15·24, the mortality from 16 to 14 but the ratio of deaths per mille of average strength rose from 42·25 to 46·95.

88. *Kotah.*—The daily average number of prisoners rose from 292·45 in 1921 to 318·94 in 1922. There were 130 admissions into Hospital against 133 in the previous years. The daily average number of sick was 7·30 as compared with 8·11 in the previous year. There were 14 deaths during the year against 8 in 1921.

89. *Udaipur.*—The daily average number of prisoners during the year was 545·88 against 579·98 in 1921. The number of admission into Hospital was 416 as compared with 327 in 1921, the daily average number of sick rose from 13·45 to 15·32 but the number of deaths fell from 17 to 7 and the ratio of death per mille from 18·99 to 13·82.

Qualified Medical Staff.

90. Lieutenant-Colonel J. W. Watson, C.I.E., I.M.S., held charge of the appointment of the Civil Surgeon, Ajmer-Merwara and Chief Medical Officer, Rajputana, throughout the year.

91. Lieutenant-Colonel J. W. Grant, I.M.S., held charge of the office of the Residency Surgeon, Western Rajputana States, throughout the year.

92. Lieutenant-Colonel F. D. S. Fayrer, I.M.S., was in charge of the office of the Residency Surgeon, Mewar. He was also in visiting Medical charge of the Mewar Bhil Corps, Kherwara.

93. Lieutenant-Colonel L. J. M. Deas, I.M.S., held charge of the office of the Agency Surgeon, Kotah, and Jhalawar throughout the year. He was also in visiting Medical charge of the Bharatpur Agency.

Military Assistant Surgeon.

94. Military Assistant Surgeon, 2nd Class, G. J. Cowper, I.M.D., has been in charge of the Northern India Salt Revenue Hospital, Sambhar, throughout the year.

Civil Assistant Surgeons.

95. There were five Government Civil Assistant Surgeons at the beginning of the year, two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri and one at Jodhpur. Of these Rai Bahadur Daljan Singh Khanka of Jaipur retired from Government service, on 15th March 1922 and Assistant Surgeon Bidya Nath Bysak of Khetri died on 2nd July 1922. There were three Government Civil Assistant Surgeons at the end of the year.

Military Sub-Assistant Surgeons.

96. Three Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana as in the previous year.

97. Out of the 112 Government Sub-Assistant-Surgeons who were on the roll on the 1st January 1922, 7 retired on pension, one died and one was transferred to the United Provinces of Agra and Oudh. Thus at the close of the year there were 103 Government Sub-Assistant Surgeons on the roll.

98. The number of Lady Doctors employed in the Indian States in Rajputana was 3, stationed as below as in previous year :—

Jodhpur	1
Kotah	1
Dholpur	1

99. Miss Lucie Gainsford, L.R.C.P. London and M.R.C.S. England, has been in charge of the Jaswant Hospital for Women at Jodhpur throughout the year.

100. Miss Jeanie Newton, L.R.C.P. (Edin.) and L.F.P.S. (Glass.), has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year.

101. Lady Doctor K. H. Parkinson, M.R.C.S. and L.R.C.P. (London), Honorary Worker under the Baptist Missionary has been in charge of the Lady Hardinge Memorial Hospital, Dholpur, throughout the year.

102. G. A. Postwala, M.B., B.S., Lady Assistant Surgeon, was in charge of the Zenana Hospital, Bikaner, up to 30th July 1922 when she resigned. From 31st July 1922 the Hospital was in charge of Miss M. A. Postwala, 2nd Lady Assistant Surgeon. On 19th November 1922 Doctor Miss Daisy Fairbairn, M.B., C.M., Madras M.R.C.S., L.R.C.F. London L.M. Rotunda and Dublin, was appointed and placed in charge of the Hospital.

103. There was no Lady Doctor at the General Hospital, Kishangarh, during the year. Only a Female Dai was in attendance.

104. The Female Sub-Assistant Surgeons were in charge of the Female Hospitals in Rajputana at the following places :—

Jaipur,

Udaipur,

Alwar,

Beawar,

Tonk.

Female Hospitals and Dai Class.

105. *Ajmer.*—Two Lady Doctors have remained attached to the Mission Hospital for Women at Ajmer. They and their subordinates have done much good work in the Hospital and in Zenana work.

106. *Beawar.*—Miss Q. Houlton, Female Sub-Assistant Surgeon, has been in charge of the Womens Ward of the Dispensary at Beawar throughout the year. 41 In and 5,752 Out patients were treated against 61 In and 5,804 Outdoor patients in the previous year. The number of operations performed during the year was 332 against 396 in the previous year.

Indian States.

107. *Jodhpur.*—The Jaswant Hospital for Women was in charge of Miss Lucie Gainsford, L.R.C.P. London and M.R.C.S. England. 269 In and 10,992 Outdoor patients were treated against 148 In and 5,994 Outdoor patients in the previous year. 85 Major and 319 Minor Operations were performed as against 42 Major and 196 Minor operations in 1921.

108. *Kotah.*—The Victoria Jubilee Hospital has been in charge of Miss Jeanie Newton, L.R.C.P. (Edin.), L.F.P.S. (Glas.). There were 169 In and 6,871 Outdoor patients against 232 In and 7,798 Outdoor patients in 1921. The total number of operations performed during the year was 224 against 299 in 1921.

109. *Jaipur.*—The Female Ward of the Mayo Hospital was in charge of Female Sub-Assistant Surgeon Mangi Bai up to 12th June 1922 when she died. No Lady Doctor could as yet be engaged in her place. The work of the Hospital is being carried on by the Female Compounder. 872 In and 10,455 Outdoor patients were treated against 945 In and 7,471 Outdoor patients in the previous year.

110. *Udaipur.*—Miss B. D. Dube, L.M.P., Sub-Assistant Surgeon, took charge of the Walter Zenana Hospital, Udaipur, on the 24th March 1922, 150 In and 2,455 New Outdoor patients were treated during the year. There were 4 forceps and 10 Normal Labour cases.

20 Major and 196 Minor operations were performed during the year.

111. *Bikaner.*—The Zenana Hospital, Bikaner, was in charge of Lady Assistant Surgeon G. A. Postwala, M.B., B.S., up to 30th July 1922, Miss M. A. Postwala, 2nd Lady Assistant Surgeon, from 31st July 1922 to 18th November 1922 and

Doctor Miss Daisy Fairbairn, M.B., C.M. Madras, M.R.C.S., L.R.C.P. London L.M. Rotunda and Dublin from 19th November 1922 to the close of the year. 359 In and 2,681 Outdoor cases were treated against 330 In and 2,689 Outdoor patients in 1921.

101 Major and 82 Minor operations were performed against 74 Major and 121 Minor operations of last year.

112. *Tonk.*—Miss K. Desai was in charge of the Walter Zenana Hospital, Tonk. There were 141 In and 8,051 Outdoor patients treated as against 128 In and 8,054 Outdoor patients in the previous year.

113. *Alwar.*—The Lady Dufferin Hospital, Alwar, remained in charge of Sub-Assistant Surgeon Sugna Bai throughout the year. 147 In and 15,714 Outdoor patients were treated against 179 In and 19,157 Outdoor patients in the previous year. 102 Major and 1,143 Minor operations were performed against 93 Major and 1,011 Minor operations in 1921.

114. *Bharatpur.*—The Female Dispensary at Bharatpur remained without a Female Sub-Assistant Surgeon till 28th November 1922 and the work was conducted by a Male Sub-Assistant Surgeon from the Victoria Hospital. On 29th November 1922 one Miss Poona Bai, Sub-Assistant Surgeon, a Marhatta Lady, took over charge of the Institution and worked till the close of the year. 229 In and 4,334 Out patients were treated against 258 In and 4,014 Out patients in the previous year.

The scheme for improving the condition of the Child birth in Bharatpur proved very successful and continued throughout the whole of the year.

115. *Kishangarh.*—12 In and 3,974 new Out patients were treated in the General Hospital against 14 In and 4,287 Outdoor patients in the previous year.

116. *Dholpur.*—The Lady Hardinge Memorial Hospital, Dholpur, was in charge of Lady Doctor K. H. Parkinson, M.R.C.S., L.R.C.P. London. 233 In and 2,906 Out patients were treated against 322 In and 3,332 Out patients in the previous year. 146 operations were performed during the year against 249 in 1921.

Dai Class, Ajmer.

117. Matron Champa Bai, a Certificated Indian Nurse, has been in charge of the Maternity Home, Ajmer, throughout the year under the supervision of the Lady Doctors of the Women's Mission Hospital, Ajmer. In the first week of July 1921 7 pupils were admitted into the first year class and two into the second year class. One of the former did not return from leave thus the remaining 8 pupils remained under training till the end of the Session when they were examined by the Civil Surgeon, Ajmer-Merwara, on the 25th April 1922, all of whom passed and were granted Certificates and the usual honorarium. 6 had had 10 months' training in Midwifery only and two had had a second years' training including Sick Nursing.

Six Dais on gaining Certificates returned to their respective States, one has remained for the second years' course and one is at home for family reasons.

118. The new Session began in July 1922 with 7 pupils, one a second year. An effort has been made to arouse interest in the training of Dais among the Citizens of Ajmer by distributing leaflets in Hindi, Urdu and English but unfortunately there seems to have produced no effect. Only 2 Ajmer women (both Christian) have come to be trained and the other women in the class are from Indian States.

119. The Dais take turns of staying at the Women's Mission Hospital so that they not only see mere labour cases but also get some experience in ordinary sick nursing and in doing dressings, etc.

120. There were 15 cases in the Maternity Home as against 20 last year. 20 confinement cases were attended in their own homes as against 70 last year. The Dais attended 56 confinement cases at the Mission Hospital.

121. A larger house has just been obtained for the Maternity and Child Welfare work there, which will be a great advantage to the Dais in Training as well as to the Women and Children of the District.

122. There have been no local Dai Classes in the Indian States of Rajputana during the year under report except a Dai Training Class opened at the Jaswant

Female Hospital, Jodhpur, in August 1922 and since then 9 have been admitted They are making progress and it is hoped some of them may be ready for examination at the end of a year.

Imperial Service Troops.

123. The Hospitals of the Indian States Imperial Service Troops are all well equipped. With the exception of those of the two Regiments of Imperial Service Lancers at Jodhpur they are under the Medical charge of well qualified Military Sub-Assistant Surgeons and Raj Service Sub-Assistant Surgeons. Each Regiment of the latter is under the Medical charge of State enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been under the Medical charge of the Raj Service Sub-Assistant Surgeon.

Insanes.

124. *Ajmer.*—There was no Lunatic in the Central Jail, Ajmer, on the 1st January 1922. 17 were admitted during the year. Of these 7 were transferred to the Lahore and one to the Agra Lunatic Asylum, 6 discharged and three made over to their friends and relatives. There remained no lunatic in the Jail at the close of the year.

Indian States.

125. 110 Lunatics were treated against 124 in 1921, of these 10 were cured, 20 discharged otherwise, 16 died and 64 remained in the Jails at the close of the year.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1922.

Charge.—The charge of the office of the Superintendent, Central Jail, Ajmer, was held by Lt.-Col. J. W. Watson, C.I.E., I.M.S., throughout the year.

2. At the commencement of the year, there were 327 prisoners including convicts and under-trial prisoners. There was no Civil prisoner. The number of prisoners admitted to the Jail during the year was 1,293 against 1,385 in the year 1921, of whom 596 were convicts, 686 under-trial and 11 Civil prisoners. The number of prisoners discharged during the year under review from all classes as compared with the previous year is as under :—

	1921.	1922.
Convicts	658	634
Undertrial	701	681
Civil	11	8
TOTAL	1,370	1,323

The number of prisoners at the close of the year was 297. The daily average number of prisoners was 295·71, that is,

Convicts	254·29
Undertrial	40·66
Civil	0·76

3. The following table compares the disposal of convicts (634) during the year under review with that of the preceding year :—

	1921.	1922.
Released on—		
Appeal	61	44
Expiry of Sentence	431	390
Sickness	1	..
Payment of fine	15	26
Execution	2	..
Asking pardon	..	9
Under remission rules for good conduct	101	114
Transferred to other Jails	43	49
Died in Jail	1	..
Transferred to lunatic asylum	2	2
Escaped	1	..
TOTAL	658	634

4. Excluding 63 prisoners received from other jails, the remaining 533 convicts admitted into the Jail are classified as under :—

Hindus	345
Mahomedans	187
Eurasian	1
TOTAL	533

5. Of the 533 convicts admitted into the Jail, 55 were awarded simple imprisonment, 477 rigorous imprisonment and 1 rigorous imprisonment with solitary confinement.

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 138 as against 133 in the previous year, their percentage to the total number of convicts admitted being 25·89.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 244·54.

8. *Conduct of prisoners.*—The number of Jail punishments of all kinds inflicted was 334 as compared with 337 during the preceding year.

9. No prisoner escaped during the year under report.

10. *Health.*—Out of 533 convicts admitted into the Jail, 487 were in good health, 45 in indifferent and in bad health. The number of admissions into Jail Hospital was 62 against 129 in 1921. Only one death occurred among the under-trial prisoners during the year against the same number in 1921.

11. There were 4 juvenile prisoners on the 1st January 1922. Twenty-two were received during the year under report. Of these 26 children, 23 were released and 3 remained at the close of the year.

12. The profits from jail manufactures amounted to Rs. 6,186-11-4 against Rs. 3,926-1-5 in 1921. The average earning per head of prisoners employed on Jail manufactures was Rs. 53-10-1 against Rs. 28-9-7 in 1921. Considering that a sum of Rs. 937-13 was outstanding and money bags of the value over Rs. 1,800 remained unsold at the close of the year, the working of the Jail factory is most satisfactory.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners including that incurred (1) by the Public Works Department on buildings and repairs and (2) by the Magistrates in guarding and maintaining undertrial prisoners amounted to Rs. 63,888-7-10. The average cost per prisoner during the year was Rs. 181-0-6 against Rs. 151-10-10 in 1921.

* Whether a Central Prison, District Jail or Subsidiary Jail.

NOTE.—When civil prisoners are in a separate place of confinement and under some authority other than that of the Jail Department—such, for example, as the Nazir of the Civil Court—they should not be included in these statements.

STATEMENT No. I.

Statement showing the Number and Disposal of Convicts in the Central Jail at Ajmer, for the year 1922.

Sex.	Total aggregate number of prisoners during the year.	Daily average number of prisoners.	Remained on the last day of year.	Imprisoned during the year	Total.	Received from other Jails. A. To undergo sentence.	Received from other Jails. B. In transit, for transportation, *en route* to other Jails, etc.	Total population.	Transferred to other Jails. A. To undergo sentence.	Transferred to other Jails. B. For transportation beyond seas, etc.	Released during the year. A. On appeal.	B. On expiry of sentence.	C. On payment of fine.	D. By order of Government. E. On account of sickness.	F. On account of epidemics asking pardon.	G. For good conduct.	Transported beyond sea.	Transferred to Lunatic Asylum.	Escaped.	Executed.	Died.	Remaining on the last day of the year.
Male	89·431	245·02	283	511*	794	60	..	854	47	..	40	372	25	..	9	110	..	2	..	..	..	249
Female	3·384	9·27	10	22†	32	3	..	35	2	..	4	18	1	..	..	4	..	..	..	..	..	6
TOTAL	92·815	254·29	293	533	826	63	..	889	49	..	44	390	26	..	9	114	..	2	..	..	..	255

* Of this number 18 boys under 16 years.
† Of this number 4 girls under 15 years.

NOTE. 1.—In this and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government Revenue will appear in number 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the month.
4.—The "Total population," column 8, is the sum of column 6, *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the month, *vide* column 2, and dividing the whole by the number of days in the month.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6, B; and by the Jail which received them they should be entered in column 7, B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent beyond seas. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extramurally under the orders of Government No. 1632-43, dated 28th October 1869, they should be considered as forming separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

J. W. WATSON,
Lieut.-Col., I.M.S.,
Superintendent, Central Jail, Ajmer.

STATEMENT No. II.

Statement showing the Religion, Age, and Previous Occupation of the Convicts in Jail at Ajmer for the year 1922.

Sex.	Religion.								Age.				Previous Occupation.														Total.		
													Male.									*Female.*							
	A. Christians.			B.	C.	D.	E.		A.	B.	C.	D.	A.	B.	C.	D.	E.	F.	G	H.	I.	J.	K.	L.	M.			
	a. European.	b. Eurasian.	c. Native.	Mohammedans.	Hindus.	Buddhists and Jains.	All other Classes.		Under 16 years.	16 to 40 years.	40 to 60 years.	Above 60 years.	Of independent property.	Agriculturists.	Labourers.	Shop-keepers and Traders.	Artizans.	Domestic servants.	Miscellaneous occupations.	Government servants.	No occupation.	Married.	Unmarried.	Widowed.	Prostitutes.	Male. Total	..	1	..	187	345	..	..		22	462	45	4	..	99	338	17	..	10	..	14	55	13	2	7	..	511	22	533

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The totals should correspond with the number in column 5, Statement 1 "Imprisoned during the month". But they should do so with the "Total" column 6, for January only, as the number remaining on the last day of the previous year (31st December,) is to be included in that month.

STATEMENT No. III.

Statement showing the convicts admitted into the Jail at Ajmer during the year 1922 and those remaining on the 31st December of that year, according to the nature and length of sentence.

Nature of imprisonment of those admitted.	Numbers according to length of sentence.																						Total.
